CALYBRATE

Dashboard Redesign

Super Admin and Admin

Dashboard · Campaigns · Reports · Users

Choose a role, then a sidebar feature

Every line is a link. "Contents" at the bottom left of each page brings you back here.

SUPER ADMIN

Creates the organization at sign-up and invites Admins

Section p. 08

1 **Dashboard** — First login, tour guide, key metrics, campaign cards — REDESIGNED — p. 09

2 **Campaigns** — List, detail, Me results, Culture flow, Create Campaign — REDESIGNED — p. 15

3 **Reports** — Landing, 180 / 360, share panel, four Culture tabs — REDESIGNED — p. 52

4 **Users** — Employees, Admins, Organization Levels — REDESIGNED — p. 67

ADMIN

Invited by a Super Admin to manage the organization

Section p. 78

1 **Dashboard** — First login, tour guide, key metrics, campaign cards — REDESIGNED — p. 79

2 **Campaigns** — List, detail, Me results, Culture flow, Create Campaign — REDESIGNED — p. 83

3 **Reports** — Landing, 180 / 360, share panel, four Culture tabs — REDESIGNED — p. 84

4 **Users** — Employees, Organization Levels — REDESIGNED — p. 85

Both roles

Overview: roles, current dashboards, tour guide and findings p. 03

Role details: profile menu and Users tabs p. 07

Roadmap check: onboarding steps 16 to 24 p. 86

Next round: sidebar pages to redesign p. 87

SUPER ADMIN

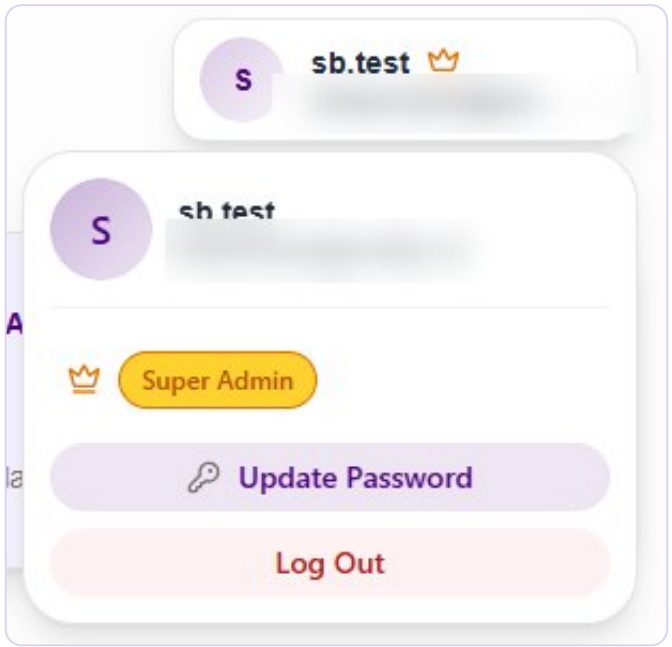
HOW THEY ARRIVE
Creates the organization at sign-up, with email and password or with Google / Microsoft.

WHAT MARKS THE ROLE
A crown icon beside the name, and the label "Super Admin" inside the profile menu.

USERS PAGE TABS
Employees, Admins, Organization Levels.

EXTRA POWER
Can manage administrator invitations in the Admins tab (stated in tour step 6).

CURRENT - profile menu (email blurred)



NOT CHECKED YET

Does an Admin see the tour on first login?

Mobile view of the current dashboard.

ADMIN

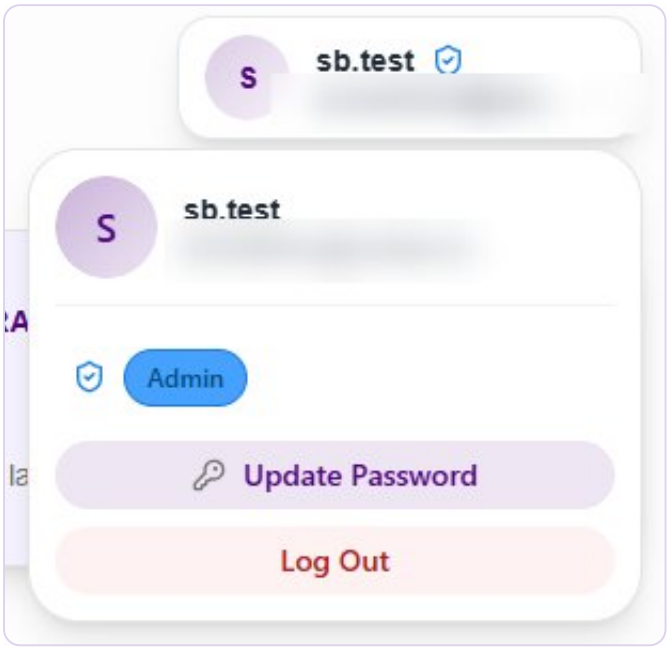
HOW THEY ARRIVE
Invited by a Super Admin to manage that organization.

WHAT MARKS THE ROLE
A shield icon beside the name, and the label "Admin" inside the profile menu.

USERS PAGE TABS
Employees, Organization Levels. There is no Admins tab.

EVERYTHING ELSE
Same sidebar, same dashboard cards and numbers, same Campaigns, Reports and Personality pages, same CREATE CAMPAIGN button.

CURRENT - profile menu (email blurred)



NOT CHECKED YET

What can an Admin do inside Create Campaign?

What the Admins tab lists for a Super Admin.

14 **Create Campaign**

Taken as Super Admin. Emails are blurred.

Overview | Tour script, every word kept

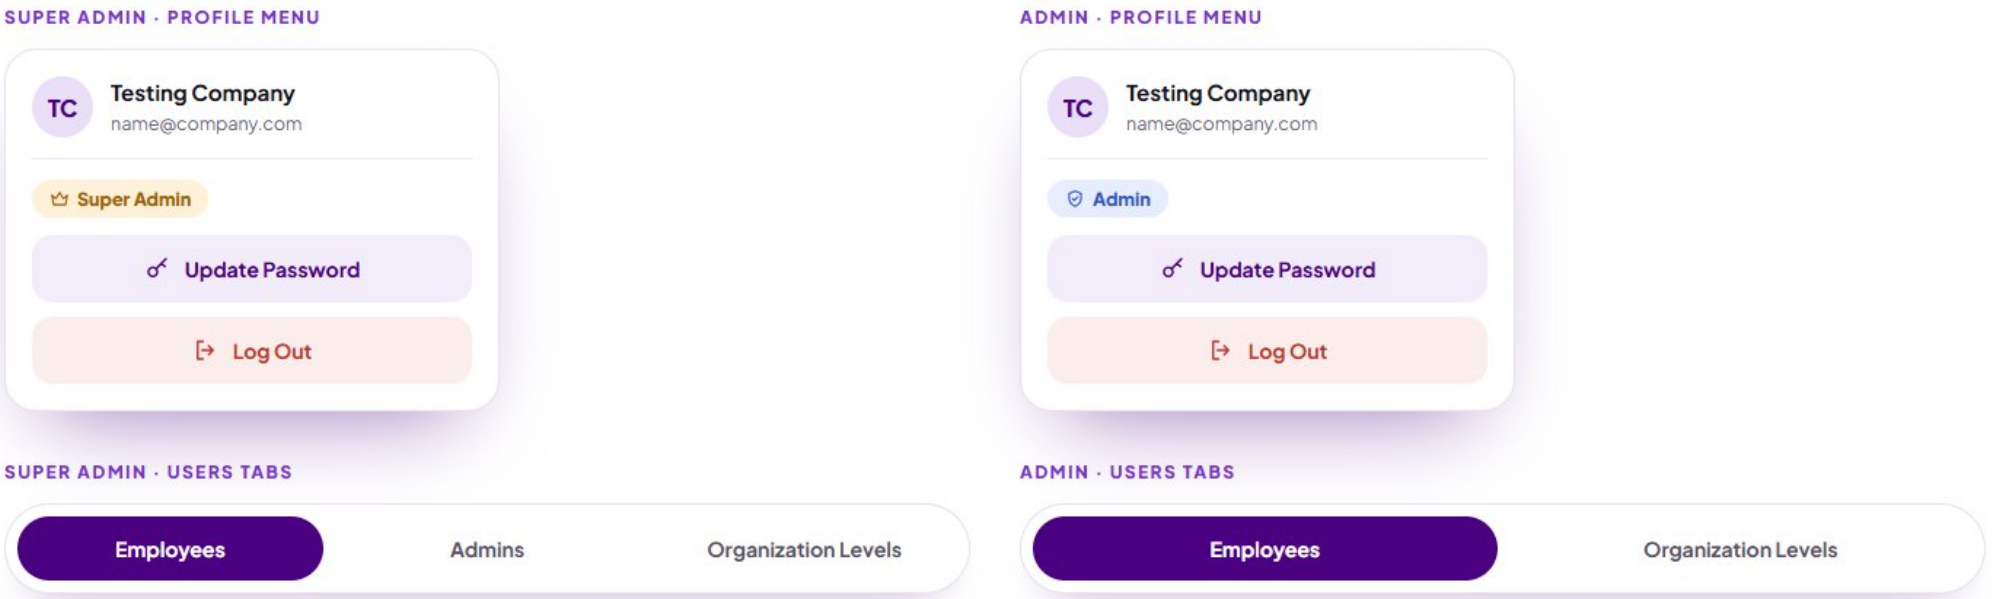
CURRENT

STEP	POINTS AT	TITLE	TEXT
1	Centre of screen	**Welcome to Calybrate!**	Let's take a quick tour to help you get started with your dashboard.
2	Dashboard menu item	**Dashboard**	This is your Analytics Dashboard. Here you can see key metrics and campaign performance at a glance.
3	Campaigns menu item	**Campaigns**	View all your campaigns here. In tour mode, we show sample campaigns with different participant counts.
4	Reports menu item	**Reports**	Generate and download comprehensive reports about your campaigns, employee performance, and organizational insights.
5	Personality menu item	**Personality**	Access personality insights and assessments for your organization.
6	Users menu item	**Users**	Manage employee profiles here. Super Admins can also manage administrator invitations in the Admins tab.
7	Profile chip	**Your Profile**	Your organization and profile information is displayed here.
8	Four metric cards	**Key Metrics Overview**	Here you can see Your organization's key metrics
9	Campaign area	**Your Campaigns**	All your active campaigns are listed here. Click on any campaign to view details.
10	180 sample card	**180 Review Campaign**	This campaign uses 180-degree feedback methodology. It provides a balanced view from multiple perspectives with 120 participants.
11	Me sample card	**Personality Assessment**	Explore personality insights with our sample assessment. Click to see how personality traits are mapped across your organization.
12	Active Participants card	**Active Participants**	Currently 540 participants actively engaged.
13	Not Started card	**Not Started**	255 participants haven't started yet. See who hasn't started their reviews yet.
14	CREATE CAMPAIGN button	**Create Campaign**	Ready to start? Click here to create your first campaign! We'll guide you through the process with sample data.

Changes in the redesign: step 5 (Personality) is removed because the menu item is gone, and for an Admin, step 6 shows just "Manage employee profiles here." (the Super Admin sentence removed, because an Admin has no Admins tab). Buttons stay Skip Tour, PREVIOUS, NEXT and, on step 14, FINISH.

HIGH	**Tour, step 6**	The Users text says Super Admins can manage invitations in the Admins tab. An Admin has no Admins tab, so if Admins see the same tour this is wrong for them. Show Admins a shorter text. (I am not sure Admins see the tour at all.)
HIGH	**Tour numbers**	The sample numbers disagree: Total Participants 37 "across 0 campaigns", Active Participants 540, Not Started 255, and step 10 says "120 participants" while the card says NO. OF EMPLOYEES 120. One sample set that adds up would build trust.
MED	**Tour data**	Active Campaigns says 0 and "No active campaigns", yet the tour shows Q4 Performance Review 2026 as ONGOING. The tour also shows Recent Submissions and Upcoming Deadlines panels; the normal-mode screenshots are cut off before that area, so it is not clear whether they appear there too.
MED	**Tour length**	14 steps. Steps 2 to 6 each only point at one menu item, and steps 12 and 13 each explain one card. Keeping all the text, the redesign adds a progress bar so people can see the end.
MED	**Tour end**	Step 14 says "We'll guide you through the process with sample data", but it is not clear whether FINISH opens Create Campaign (map step 24) or just closes the tour.
MED	**Roadmap 22-23**	The map says the demo dashboard holds a sample for each of Me, 180, 360 and Culture. The dashboard shows 180 and Me (360 only in the tour). There is no Culture sample.
LOW	**Role label**	The role shows only as a small crown or shield icon next to the name. The words "Super Admin" and "Admin" appear only after opening the menu. The redesign puts the role label in the profile chip.
LOW	**Wording**	Step 8 reads "Here you can see Your organization's key metrics": capital Y and no full stop.
LOW	**Subtitle**	"Get started by exploring sample campaigns or create your own" stays on the dashboard even when the organization already has 18 completed campaigns.
LOW	**Skip Tour**	Low-contrast grey text and tiny on laptop. The redesign keeps the same words but makes it easier to see.

SUGGESTED



Profile chip: the role label sits under the name (gold with a crown for Super Admin, blue with a shield for Admin). The menu keeps its three rows: role, Update Password, Log Out.

Users tabs: Super Admin gets three tabs, Admin gets two. The Admins tab is simply absent for an Admin, so nothing looks locked or broken. Email shown is a placeholder.

Super Admin

Creates the organization at sign-up and invites Admins

1 **Dashboard** — First login, tour guide, key metrics, campaign cards — p. 09

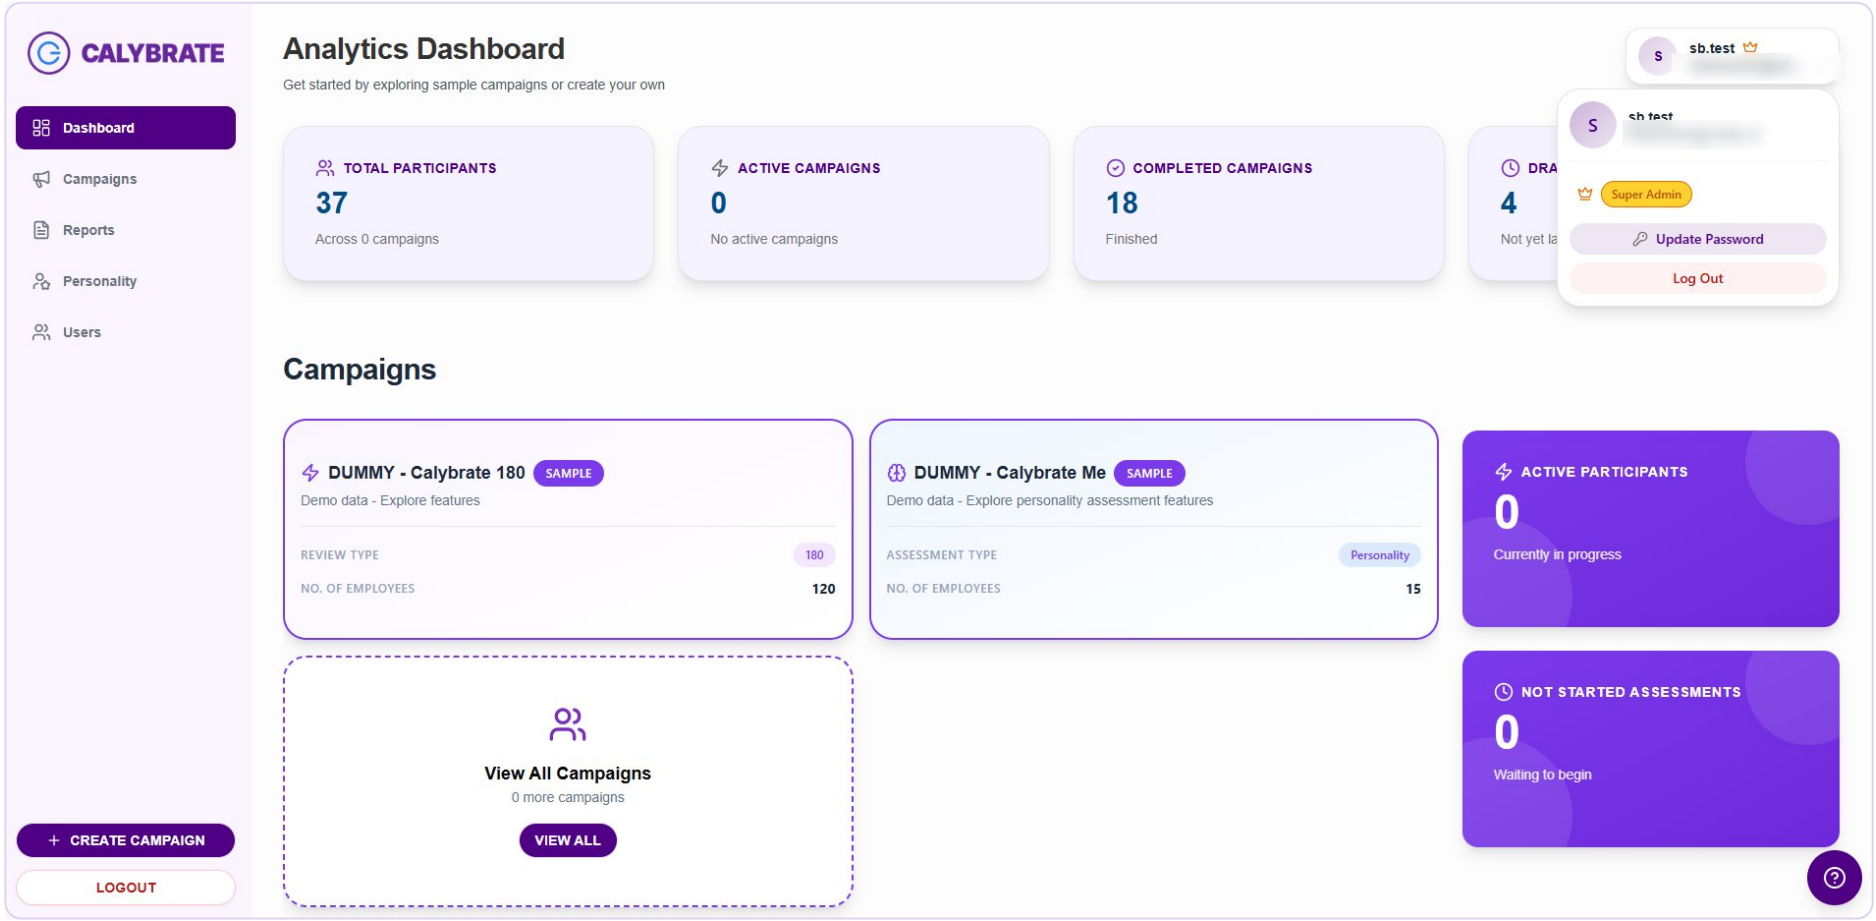
2 **Campaigns** — List, detail, Me results, Culture flow, Create Campaign — p. 15

3 **Reports** — Landing, 180 / 360, share panel, four Culture tabs — p. 52

4 **Users** — Employees, Admins, Organization Levels — p. 67

Contents

SUPER ADMIN



WHAT YOU SEE

- Title "Analytics Dashboard": Get started by exploring sample campaigns or create your own.
- Metric cards: Total Participants 37 (Across 0 campaigns), Active Campaigns 0, Completed Campaigns 18, Draft Campaigns 4.
- Cards DUMMY - Calybrate 180 and DUMMY - Calybrate Me (SAMPLE), View All Campaigns.
- Active Participants 0, Not Started Assessments 0.

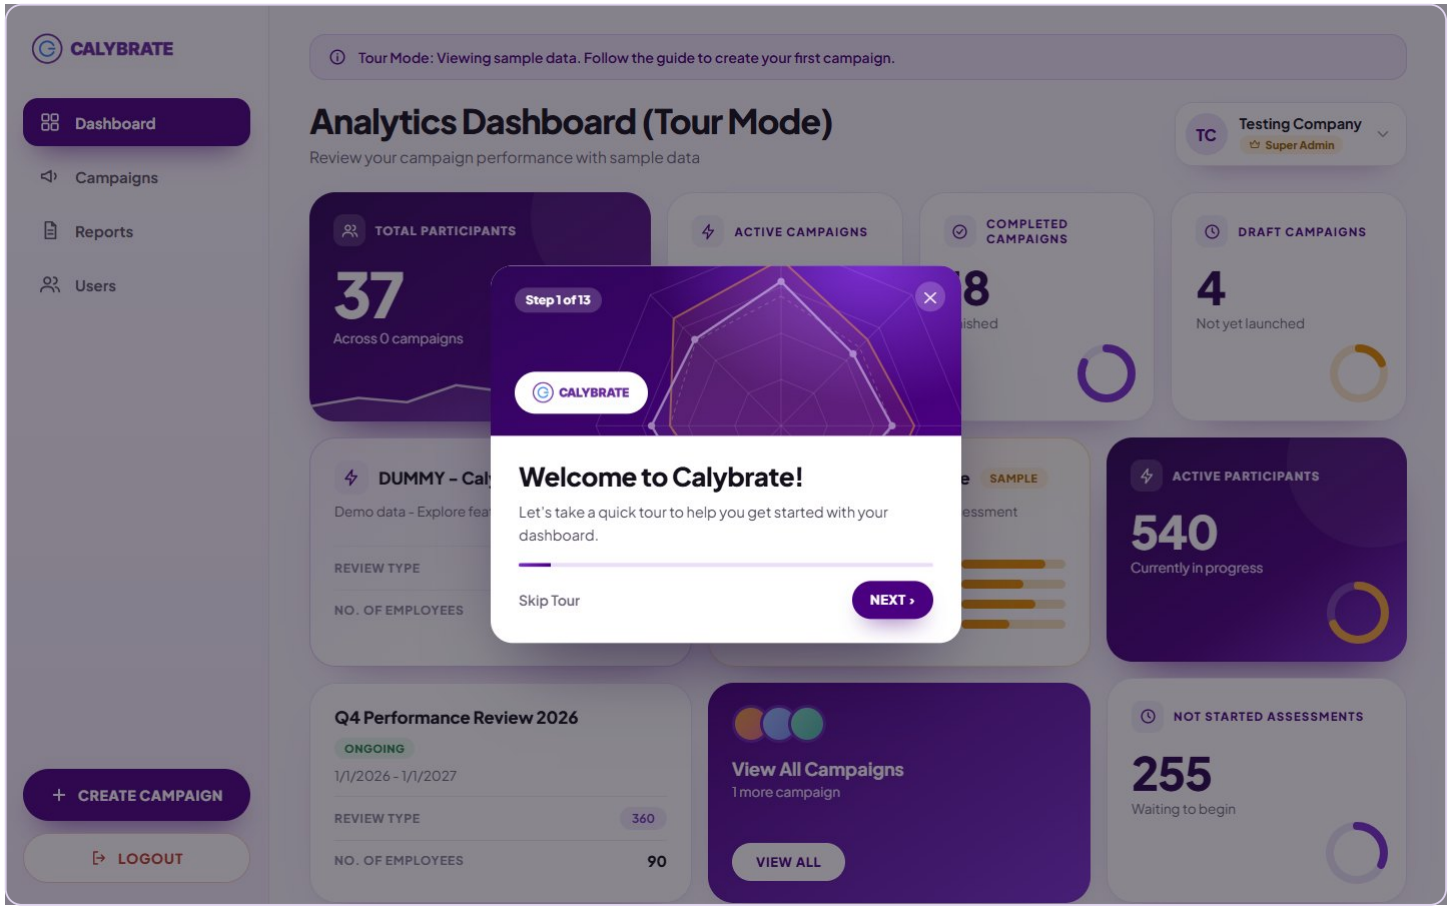
NOTES

- Profile menu is open. The role ("Super Admin") shows only inside the menu; next to the name there is just a crown icon.
- Numbers do not add up: 37 participants across 0 campaigns, yet 18 completed and 4 draft campaigns.
- The two sample cards stay on the dashboard after the tour is finished.
- Identical to the Admin dashboard apart from the role label.

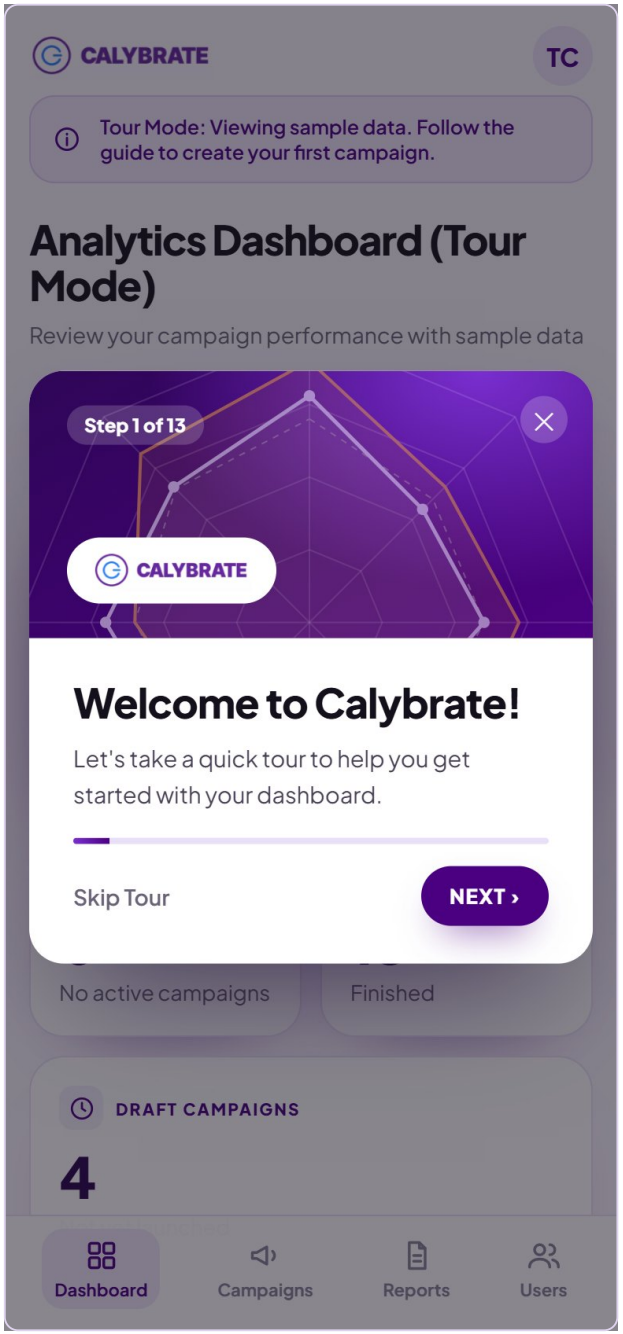
Email blurred.

SUGGESTED

LAPTOP

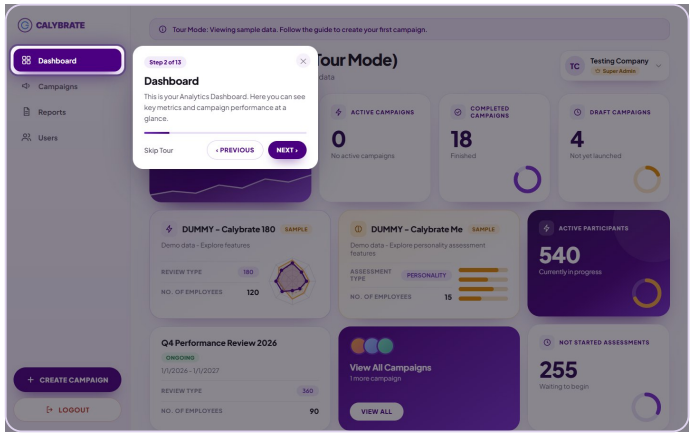


MOBILE

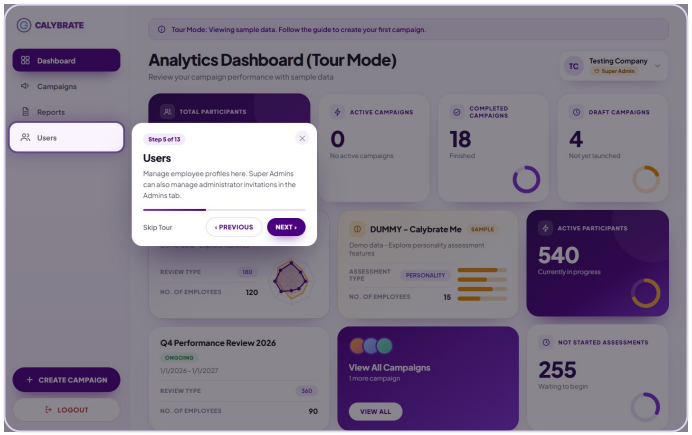


ON SCREEN

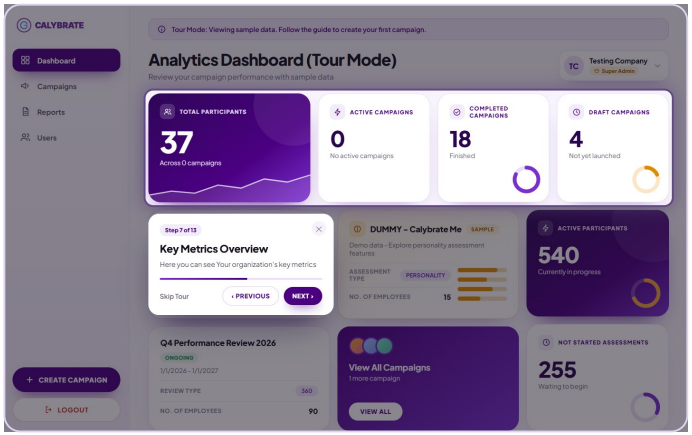
1. Dim the dashboard → 2. Welcome card rises in → 3. Progress bar starts → 4. NEXT starts the tour



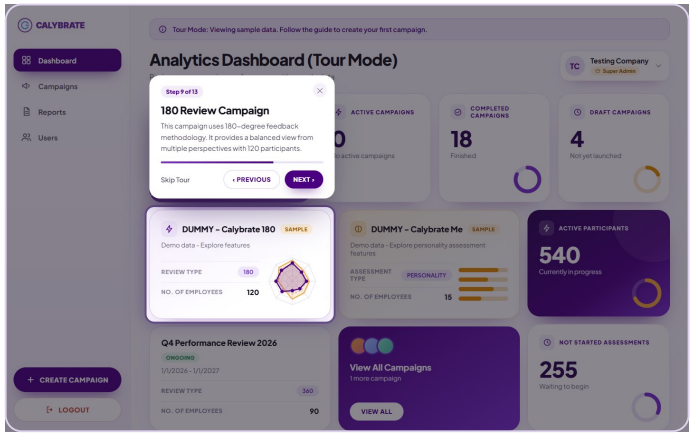
2 Dashboard



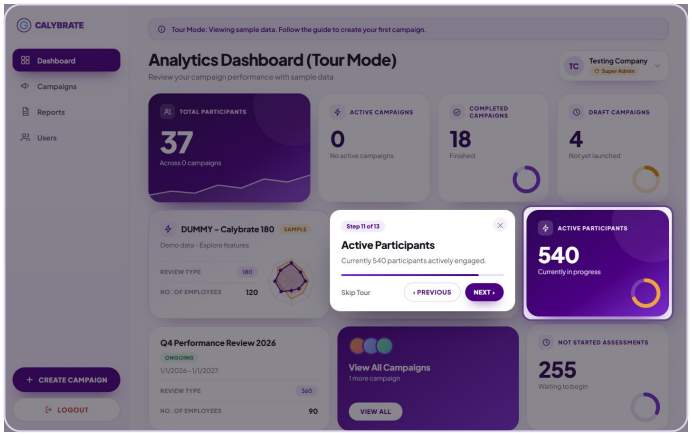
5 Users (Super Admin)



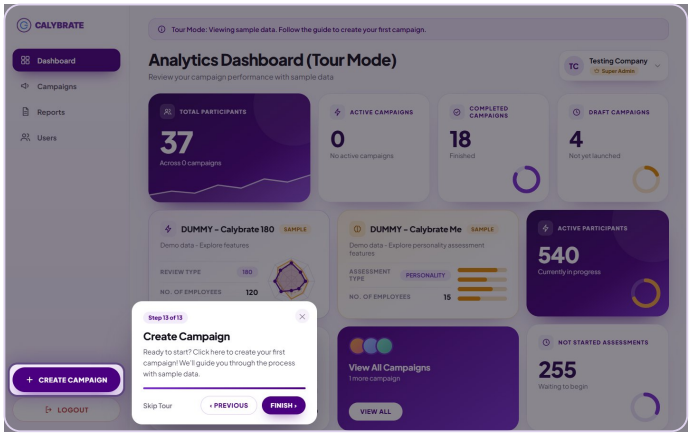
7 Key Metrics Overview



9 180 Review Campaign



11 Active Participants

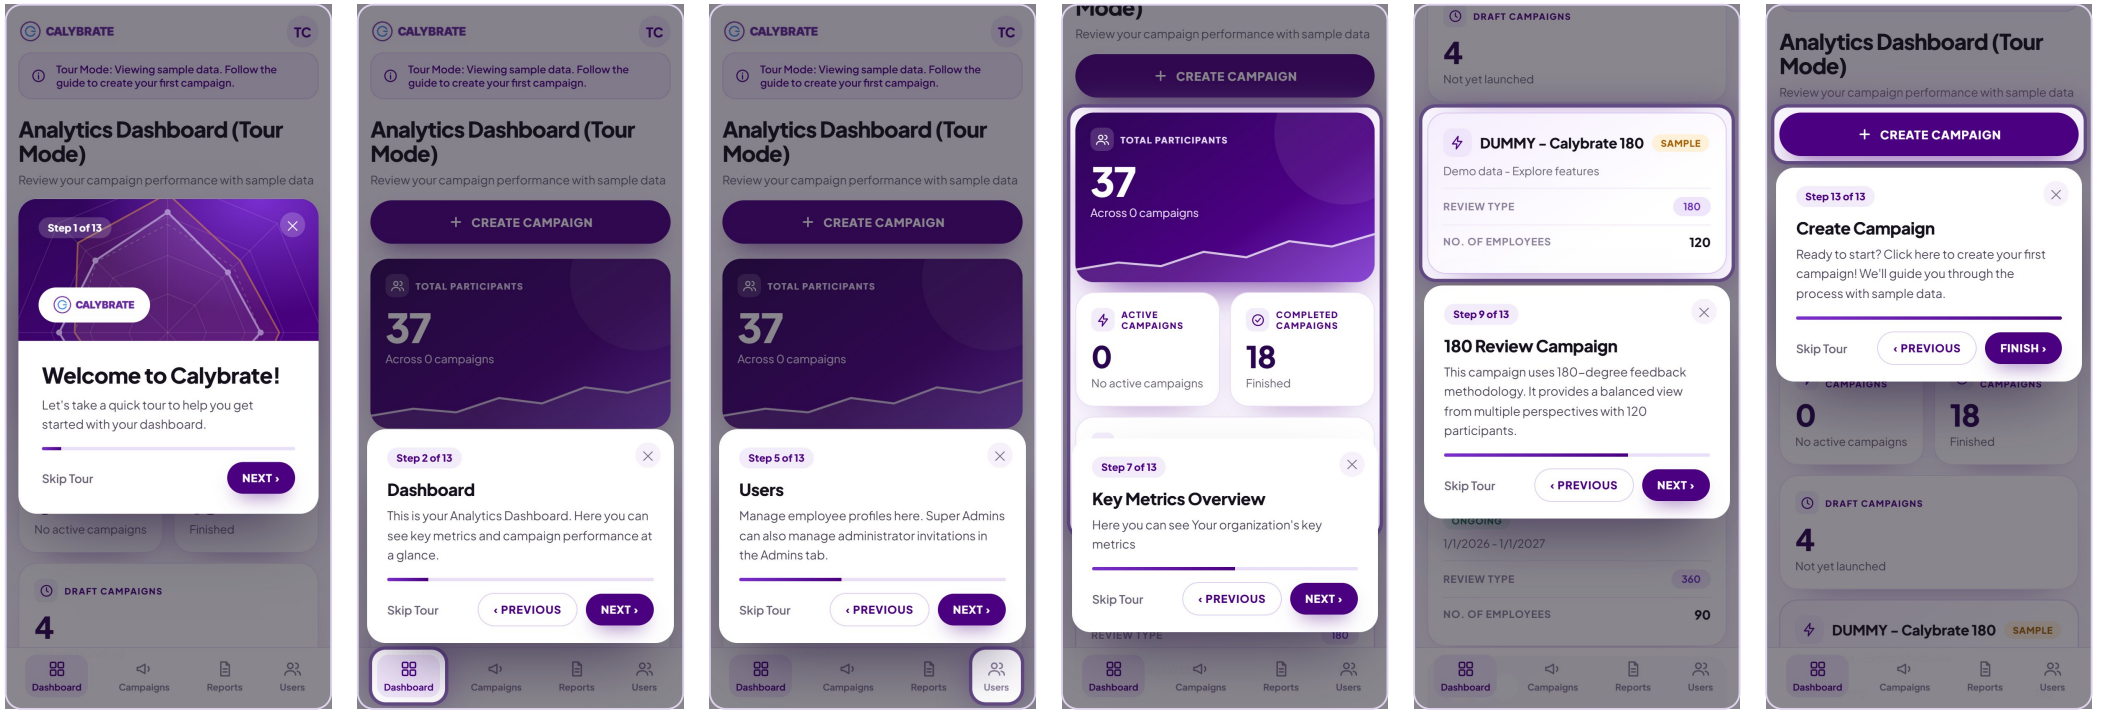


13 Create Campaign

ON SCREEN

1. Spotlight glows on the target → 2. Card sits next to it → 3. Progress bar fills → 4. PREVIOUS and NEXT stay in place

SUGGESTED



1 2 5 7 9 13

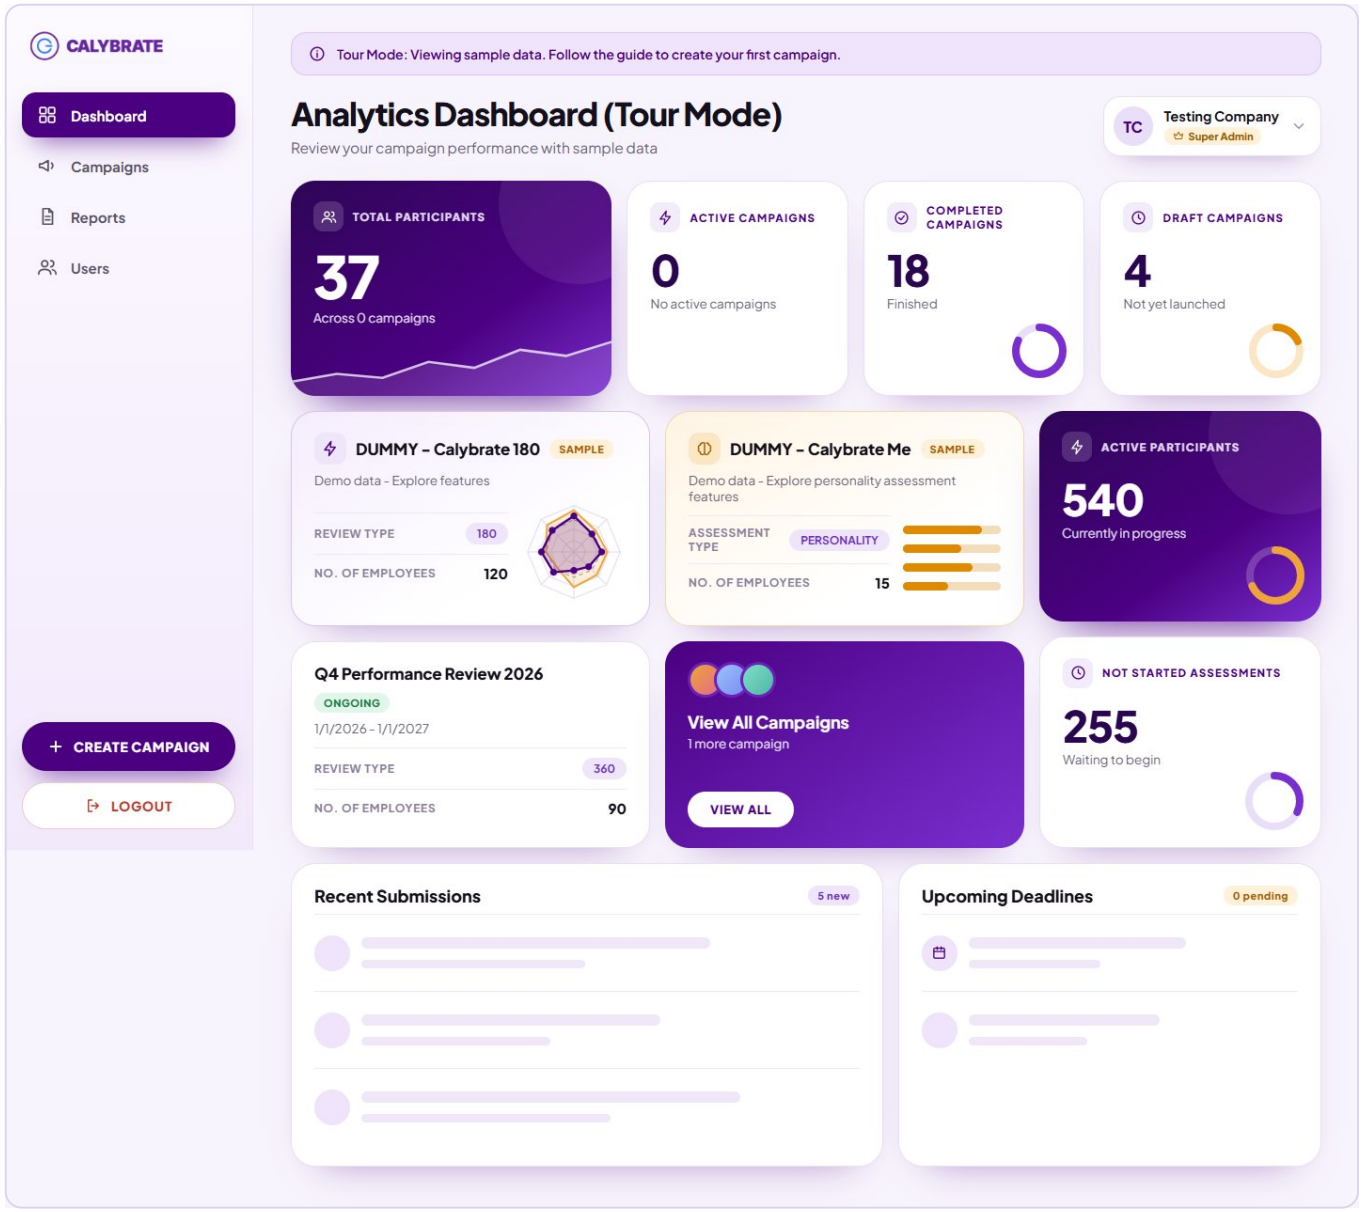
Steps shown: 1 Welcome, 2 Dashboard (bottom bar), 5 Users, 7 Key Metrics Overview, 9 180 Review Campaign, 13 Create Campaign. The other steps follow the same pattern.

ON SCREEN

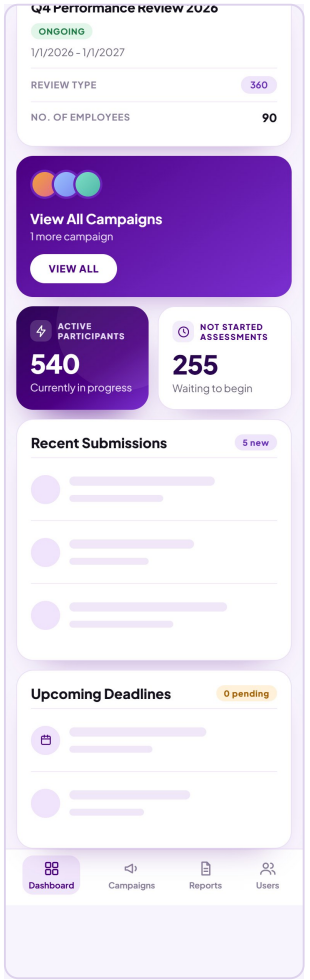
1 **Bottom bar replaces the sidebar** → 2 **Card moves above or below the target** → 3 **Same words, same buttons**

SUGGESTED

LAPTOP



MOBILE



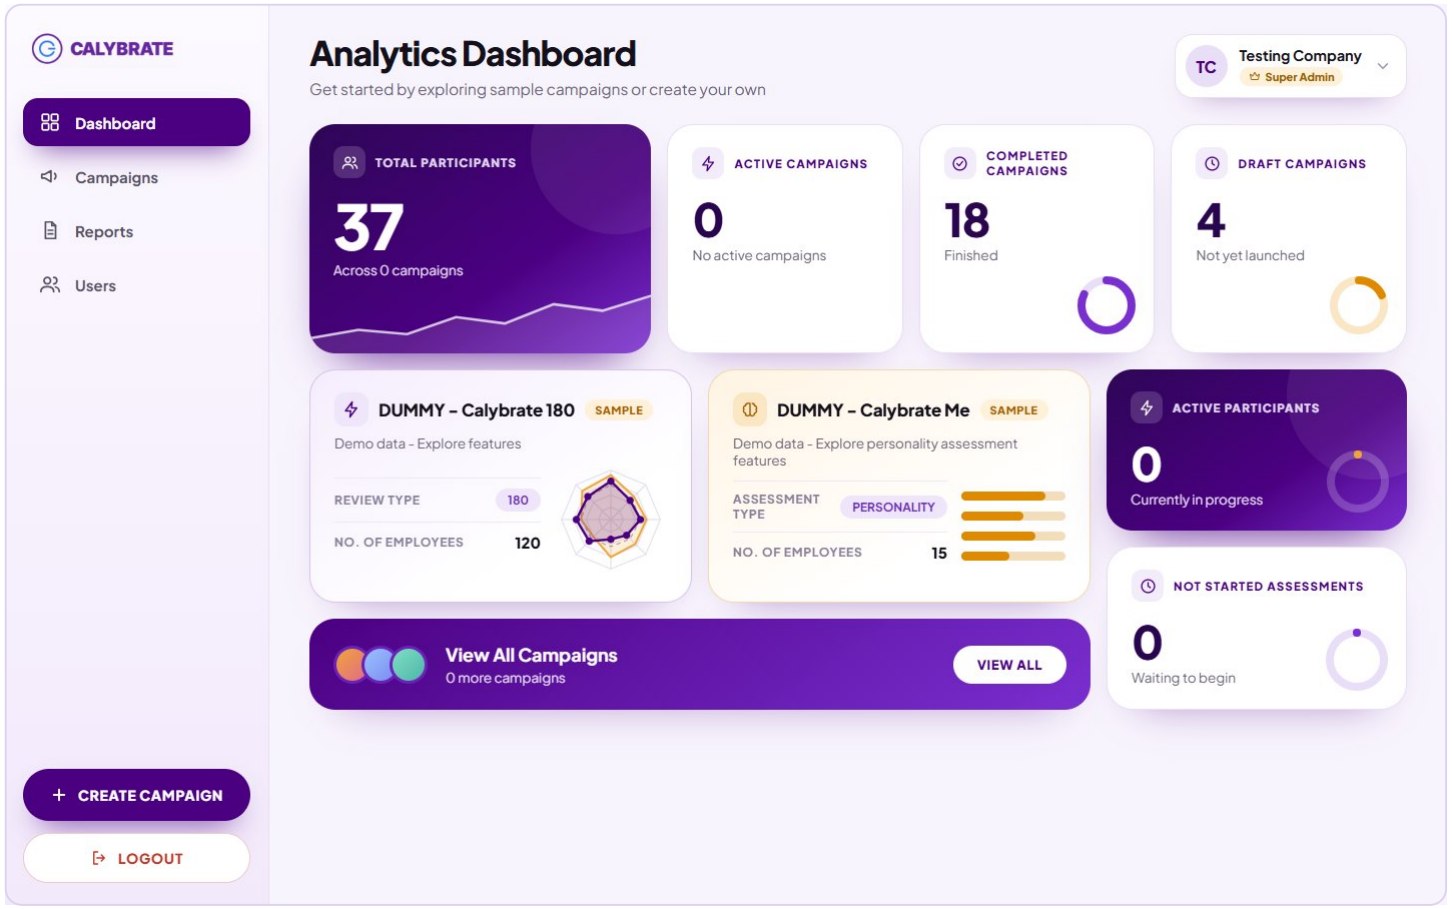
ON SCREEN

1. Tour banner at the top → 2. Bento tiles, one dark hero tile → 3. Cards stagger in, 80 ms apart → 4. Rings and sparkline draw themselves

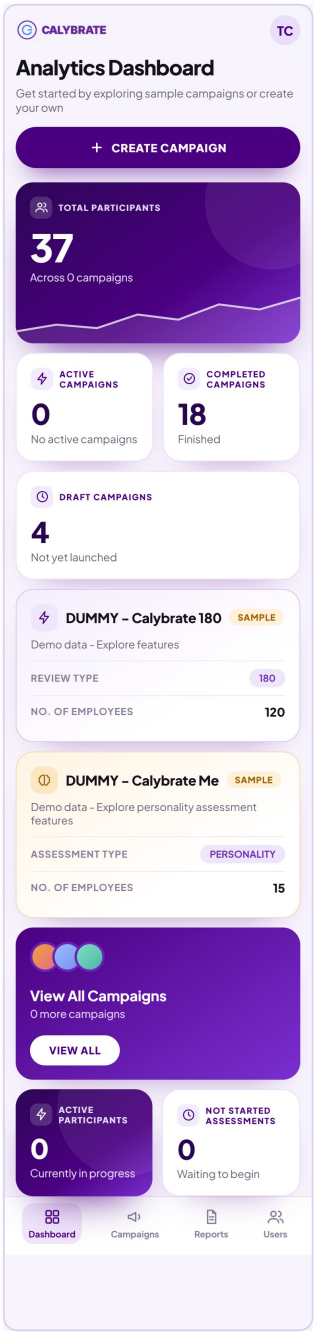
Ring charts, the sparkline, the radar and the bars are decorative. All numbers and words are the live ones.

SUGGESTED

LAPTOP



MOBILE

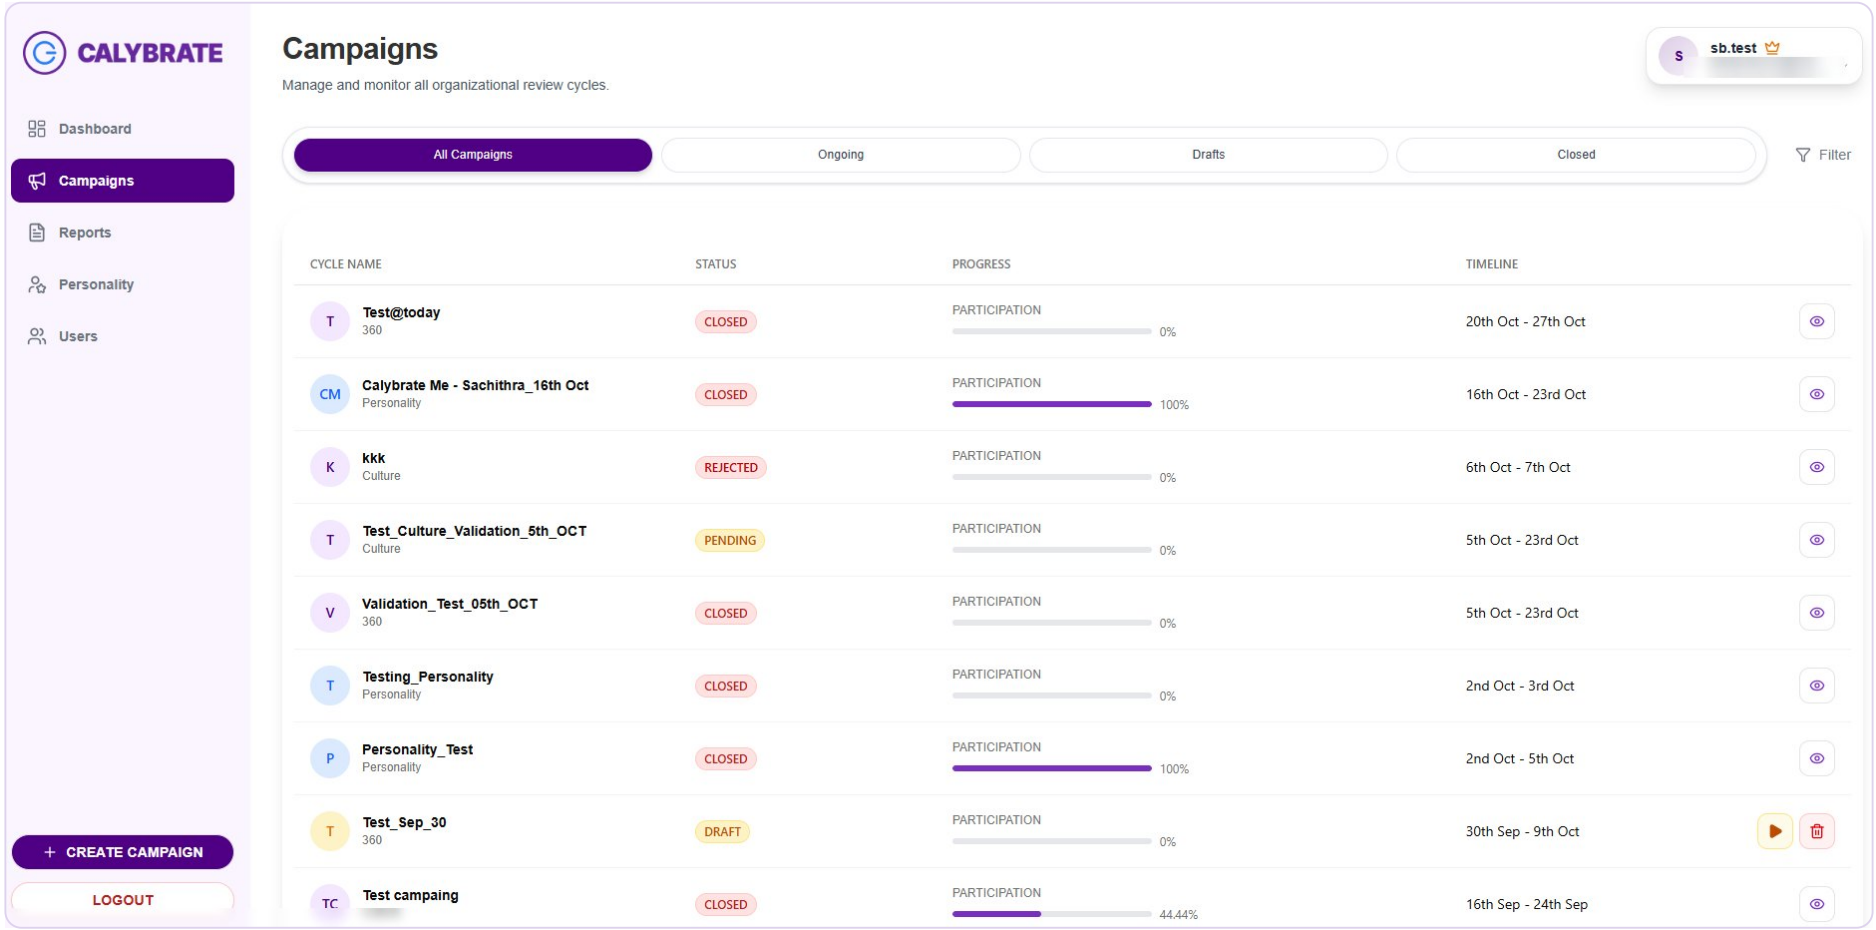


ON SCREEN

1. Role label in the chip → 2. Numbers count up → 3. SAMPLE tags stay → 4. Bottom bar on phones

Ring charts, the sparkline, the radar and the bars are decorative. All numbers and words are the live ones.

SUPER ADMIN



WHAT YOU SEE

- Title "Campaigns": Manage and monitor all organizational review cycles.
- Tabs: All Campaigns, Ongoing, Drafts, Closed, and a Filter button.
- Table: Cycle name (with 360, Personality or Culture), Status, Progress (participation), Timeline.
- An eye button opens a row. A DRAFT row has a play and a delete button.

NOTES

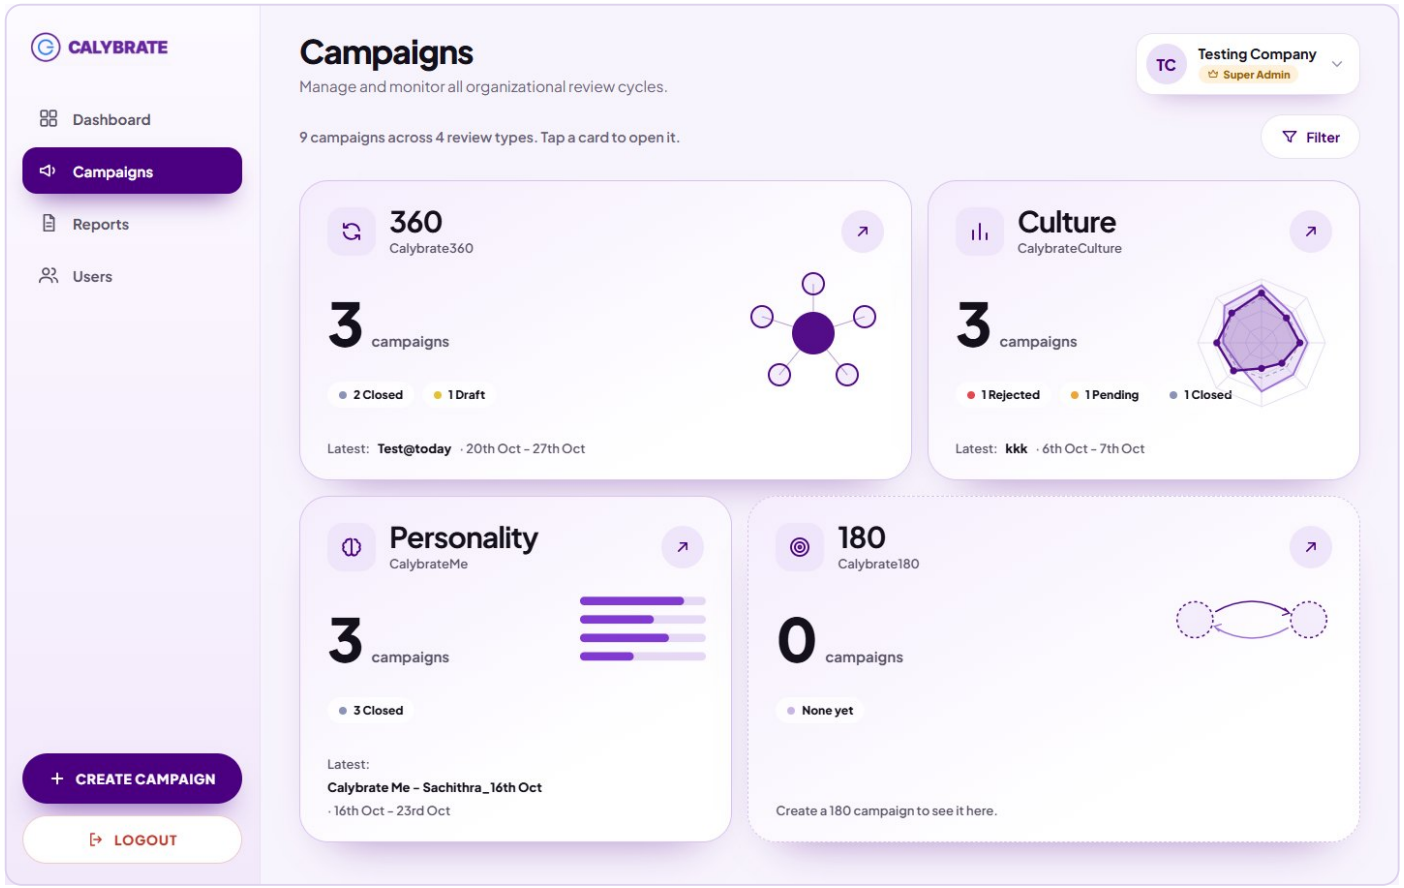
- Same for Super Admin and Admin.
- CLOSED is drawn in red, the colour usually used for a problem. REJECTED and PENDING are not explained (Culture campaigns are set up with SB Admin, roadmap 28 to 31).
- The progress bar and its percentage sit far apart, and the type is small grey text under the name.
- Test_Sep_30 is DRAFT at 0% here but 86% on the Personality page.
- Whether the delete button asks for confirmation was not in the screenshots.

Email blurred.

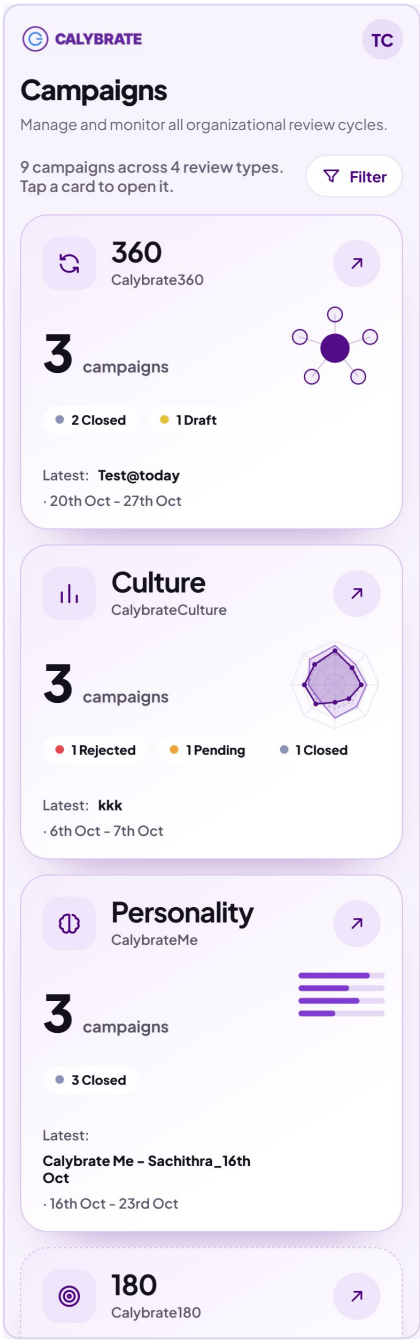
Campaigns | Page opens on four bento cards

SUGGESTED

LAPTOP



MOBILE



WHAT YOU SEE FIRST

- Four cards, one per review type: 360, Culture, Personality and 180, all in the same purple style.
- Each shows its campaign count, a status breakdown and the latest campaign.
- A small purple picture per type: people ring, radar, bars, two-way loop.

HOW IT BEHAVES

- Tap a card to go inside that type.
- The 180 card is dashed because it has no campaigns yet.
- Filter stays at the top. On a phone the cards stack.

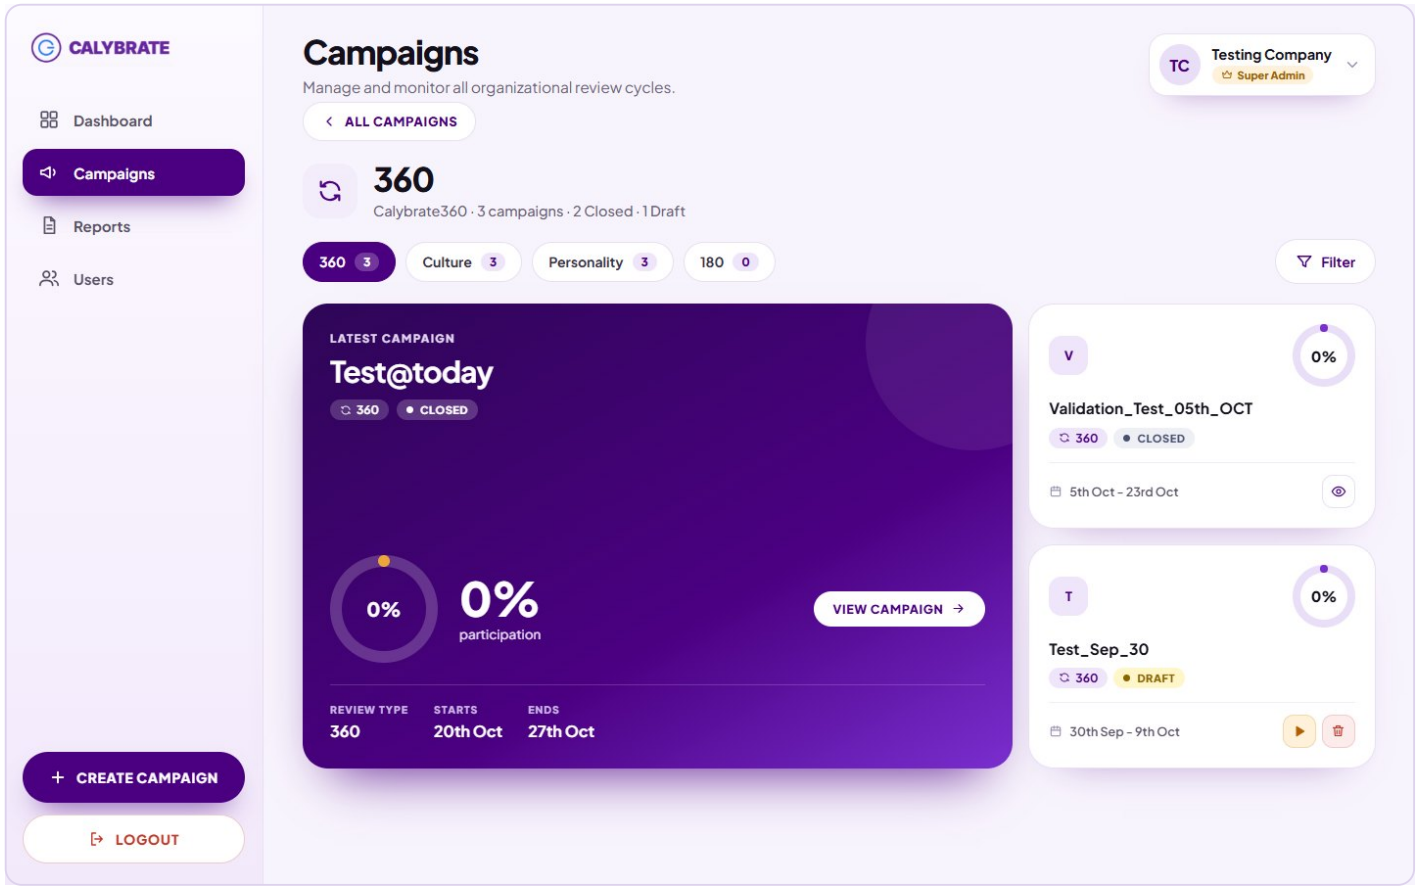
ON SCREEN

1 Cards rise in → 2 Counts tick up → 3 Tap a card to open it

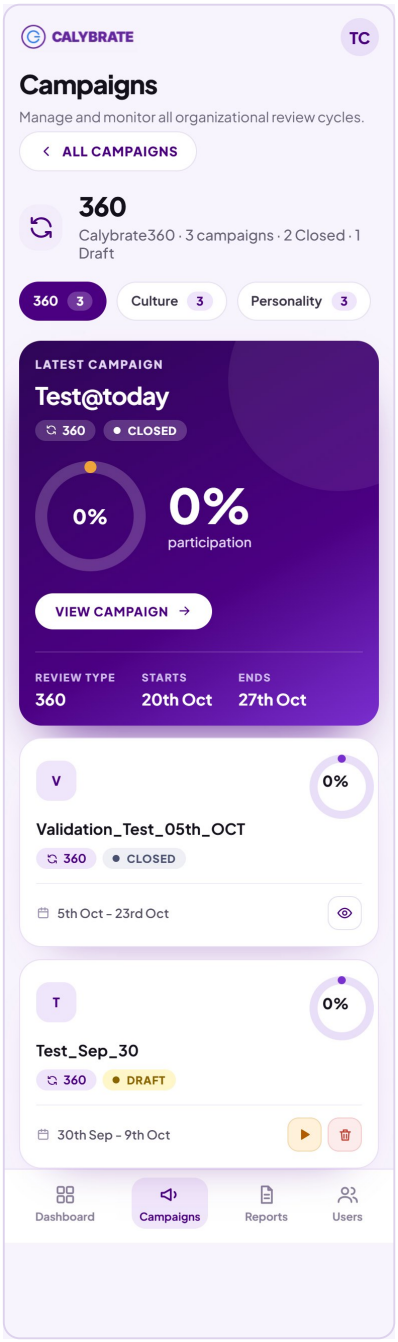
Counts are from the 9 campaigns in your screenshot. Prototype: site-audit/prototype/campaigns-bento.html

SUGGESTED

LAPTOP



MOBILE



INSIDE

- A back button (ALL CAMPAIGNS) and the type's title with its counts.
- Chips switch between 360, Culture, Personality and 180 without going back.
- Option E: the newest campaign as the large card, the others as ring cards.

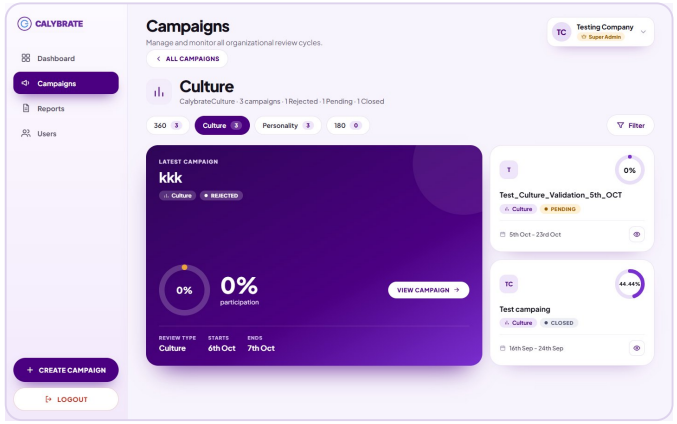
EACH CARD

- Ring with participation, name, type, status and dates.
- Eye button to open; a draft keeps its play and delete buttons.
- Same filter drawer (next pages).

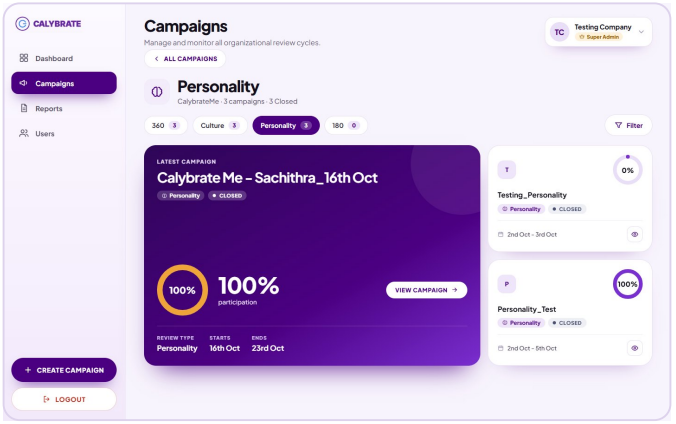
ON SCREEN

1. Back returns to the four cards → 2. Chips switch type → 3. Eye opens the campaign

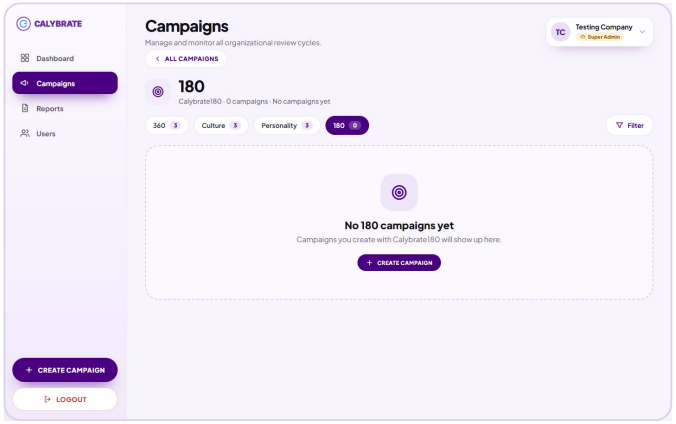
SUGGESTED



1 **Culture: 3 campaigns**

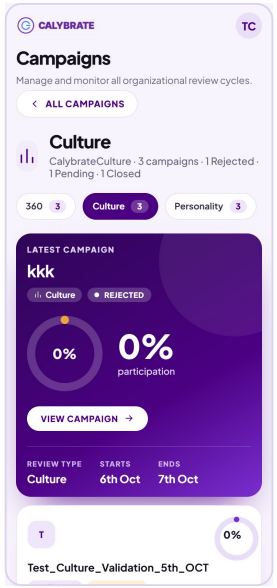


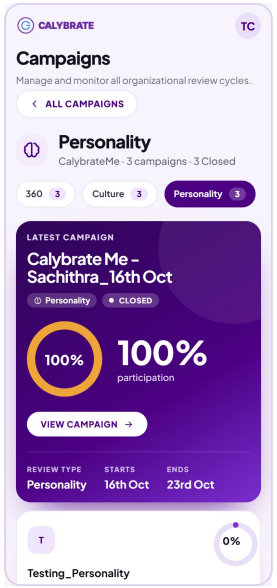
2 **Personality: 3 campaigns**

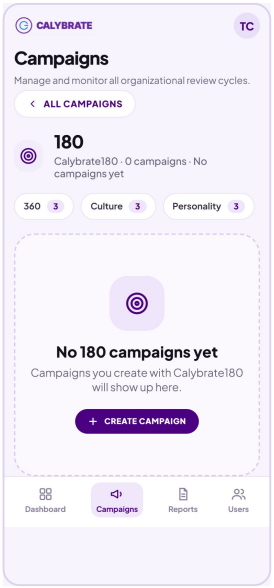


3 **180: empty state**

MOBILE



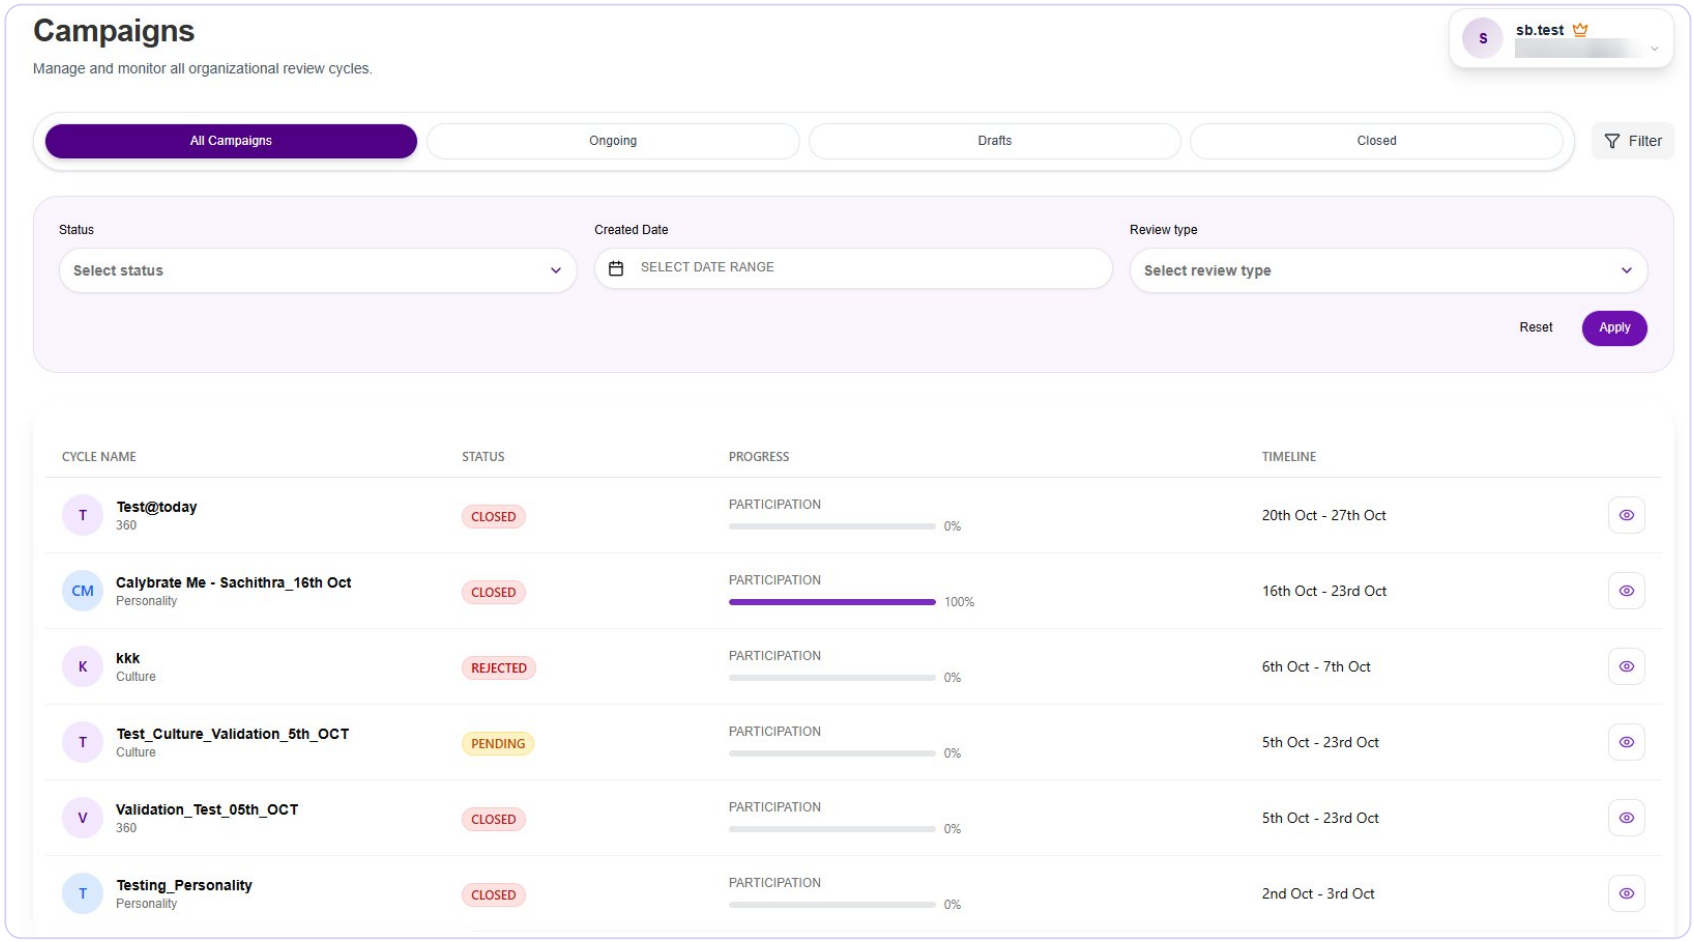




NOTES

- Every type opens the same layout, so people learn it once.
- 180 has no campaigns in your screenshot, so it opens an empty state with a CREATE CAMPAIGN button.
- Pending and Rejected campaigns (Culture) show in the Culture view with their status chips.
- The old tabs (Ongoing, Drafts, Closed) are replaced by the status chip on each card and the Filter drawer.

SUPER ADMIN



WHAT YOU SEE

- Filter opens a panel with Status (Select status), Created Date (SELECT DATE RANGE) and Review type (Select review type).
- Reset and Apply buttons at the bottom right.

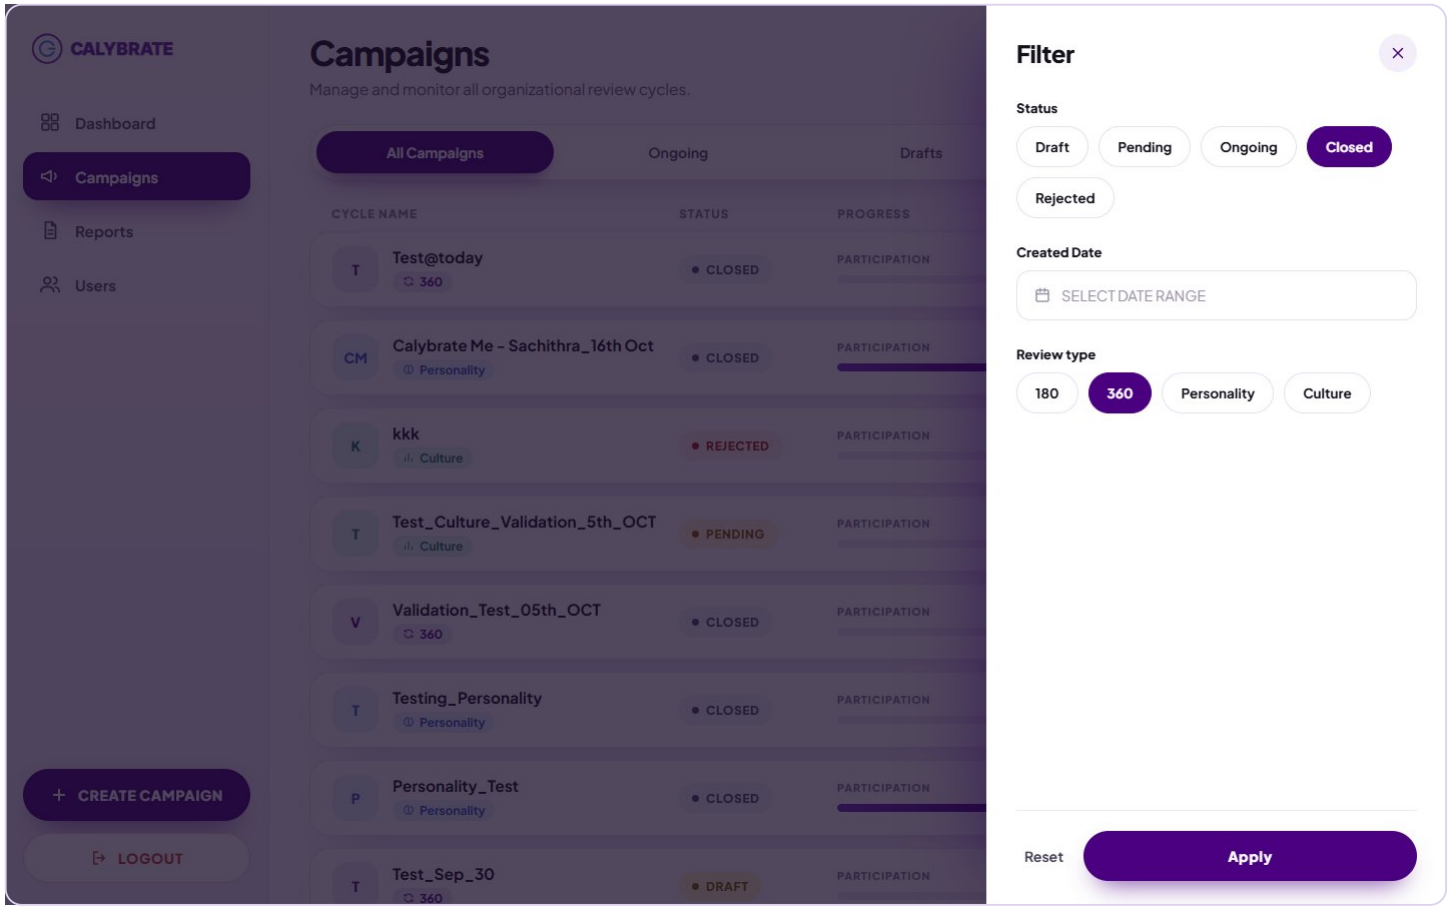
NOTES

- The panel pushes the table down, so the rows jump.
- Status and Review type are drop-downs, so every option is hidden until opened.
- Not shown: whether the filters combine with the tabs (Ongoing, Drafts, Closed), and what shows after Apply.
- Same for Super Admin and Admin.

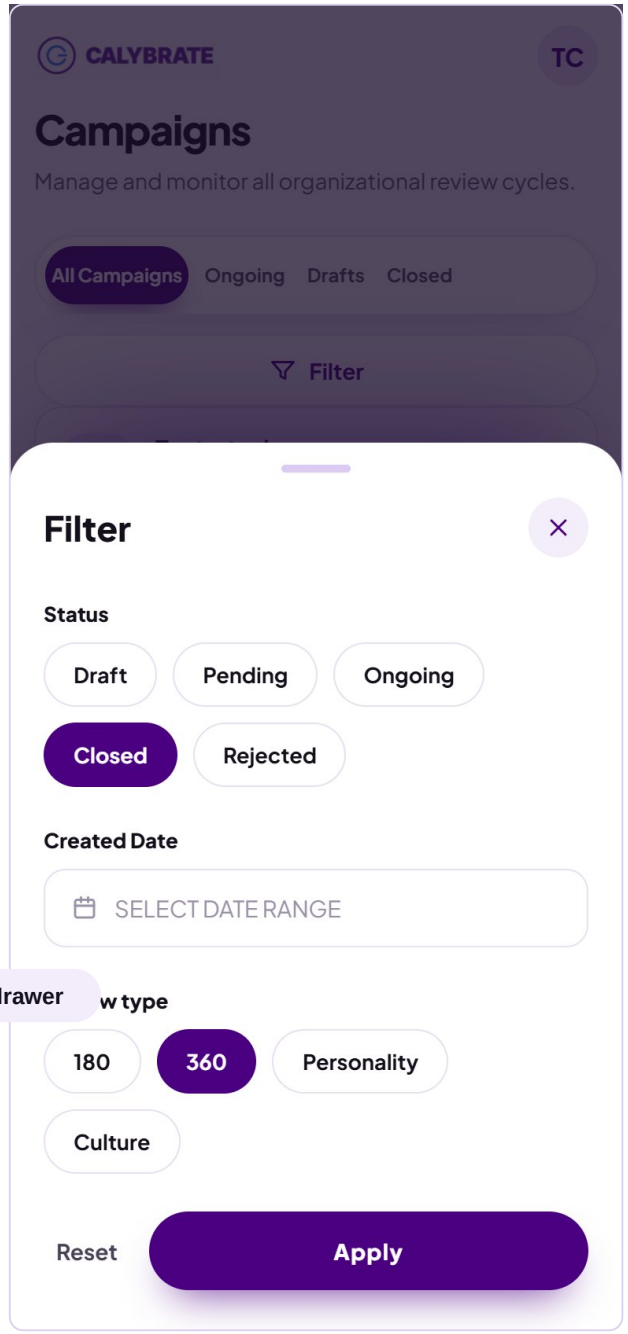
Email blurred.

SUGGESTED

LAPTOP



MOBILE

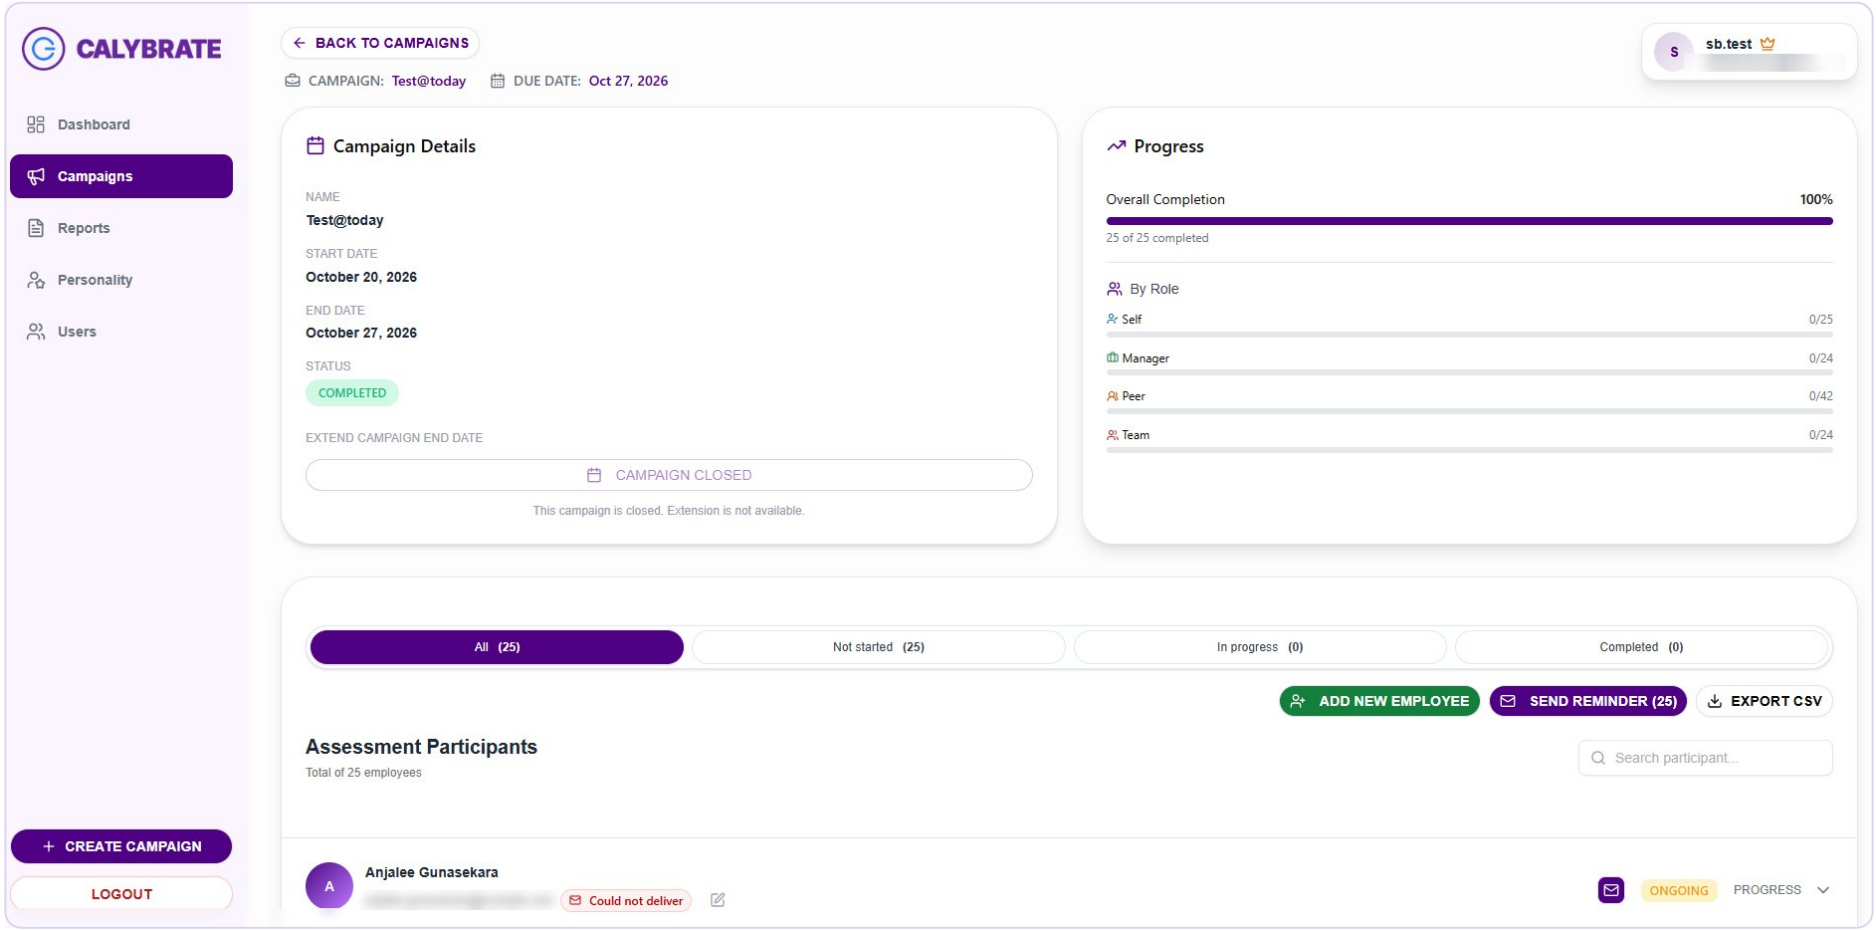


ON SCREEN

1. Drawer slides in from the right → 2. Background dims → 3. Chips toggle purple → 4. Apply closes the drawer

Status options are the ones seen on the list page; chips replace the two drop-downs.

SUPER ADMIN



WHAT YOU SEE

- Back to campaigns, Campaign name and Due date.
- Campaign Details: Name, Start date, End date, Status COMPLETED, Extend campaign end date (CAMPAIGN CLOSED, with the note that extension is not available).
- Progress: Overall Completion 100%, 25 of 25 completed; By Role: Self 0/25, Manager 0/24, Peer 0/42, Team 0/24.
- Tabs All (25), Not started (25), In progress (0), Completed (0); ADD NEW EMPLOYEE, SEND REMINDER (25), EXPORT CSV; participant list.

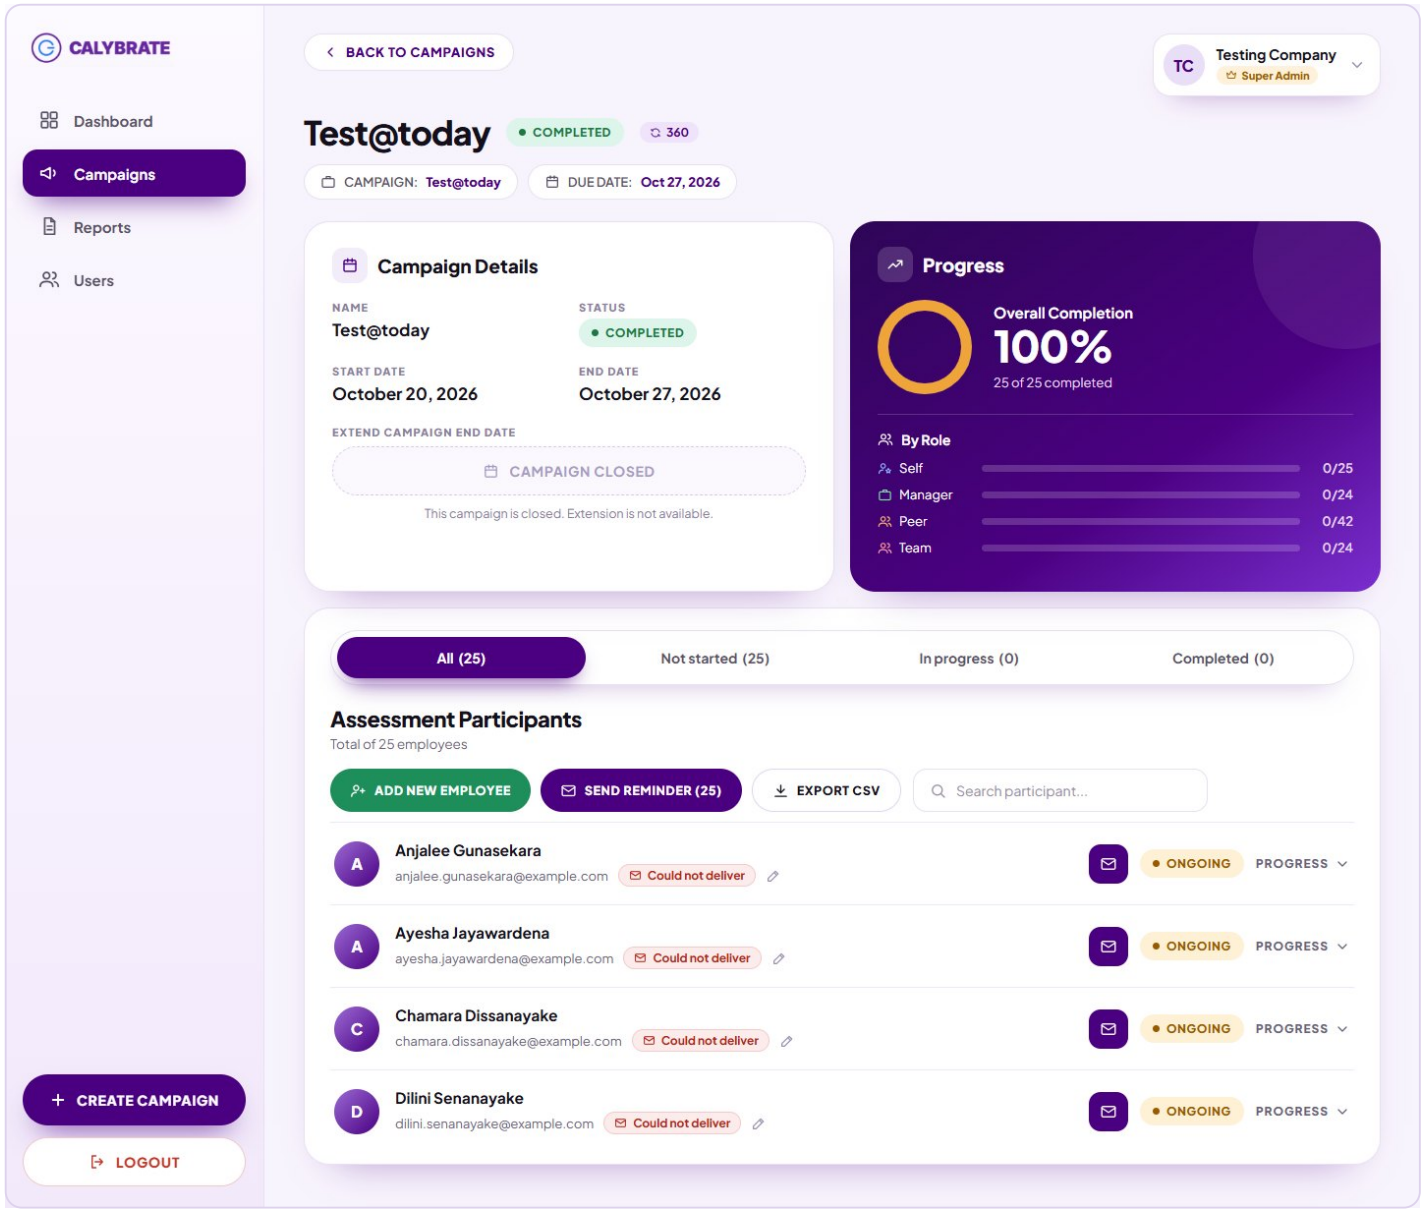
NOTES

- The numbers contradict each other: 100% overall and 25 of 25 completed, yet Not started is 25, Completed is 0 and every role is 0.
- The list page shows this campaign at 0%.
- The campaign is closed, but ADD NEW EMPLOYEE and SEND REMINDER (25) are still active, and participants show ONGOING.
- Every participant shows "Could not deliver" beside their email.
- The page is a long scroll; the action buttons sit far from the heading.
- Same for Super Admin and Admin.

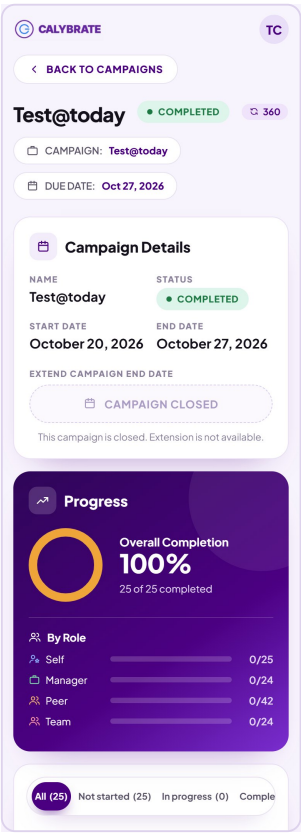
Email blurred.

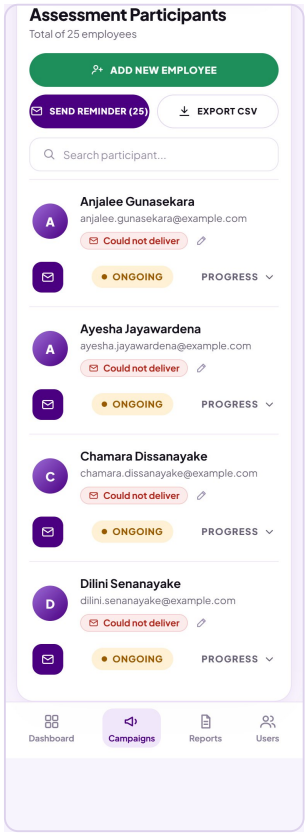
SUGGESTED

LAPTOP



MOBILE



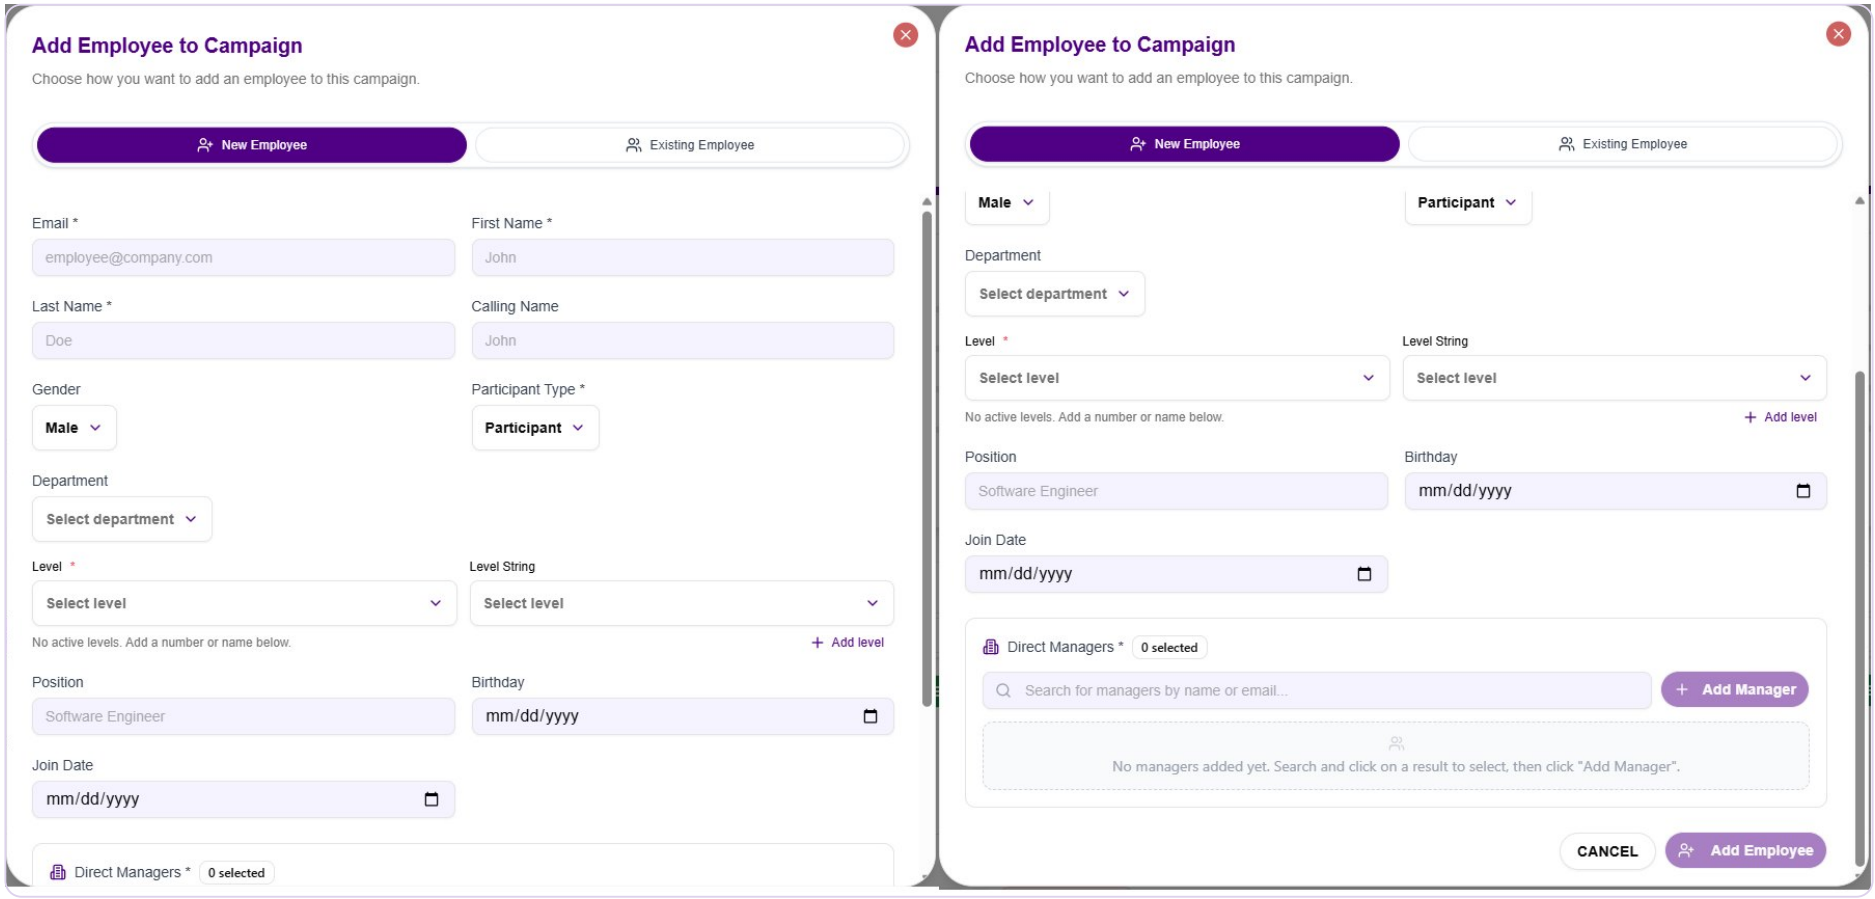


ON SCREEN

1. Heading with status and type → 2. Cards rise in → 3. Ring draws to the value → 4. Participant rows stagger

Ring and bars are decorative; all values are the screenshot's.

SUPER ADMIN



WHAT YOU SEE

- Dialog "Add Employee to Campaign" with tabs New Employee and Existing Employee.
- Fields: Email*, First Name*, Last Name*, Calling Name, Gender, Participant Type*, Department, Level*, Level String, Position, Birthday, Join Date.
- Direct Managers* (0 selected) with a search box and Add Manager.
- CANCEL and Add Employee at the bottom (second screenshot).

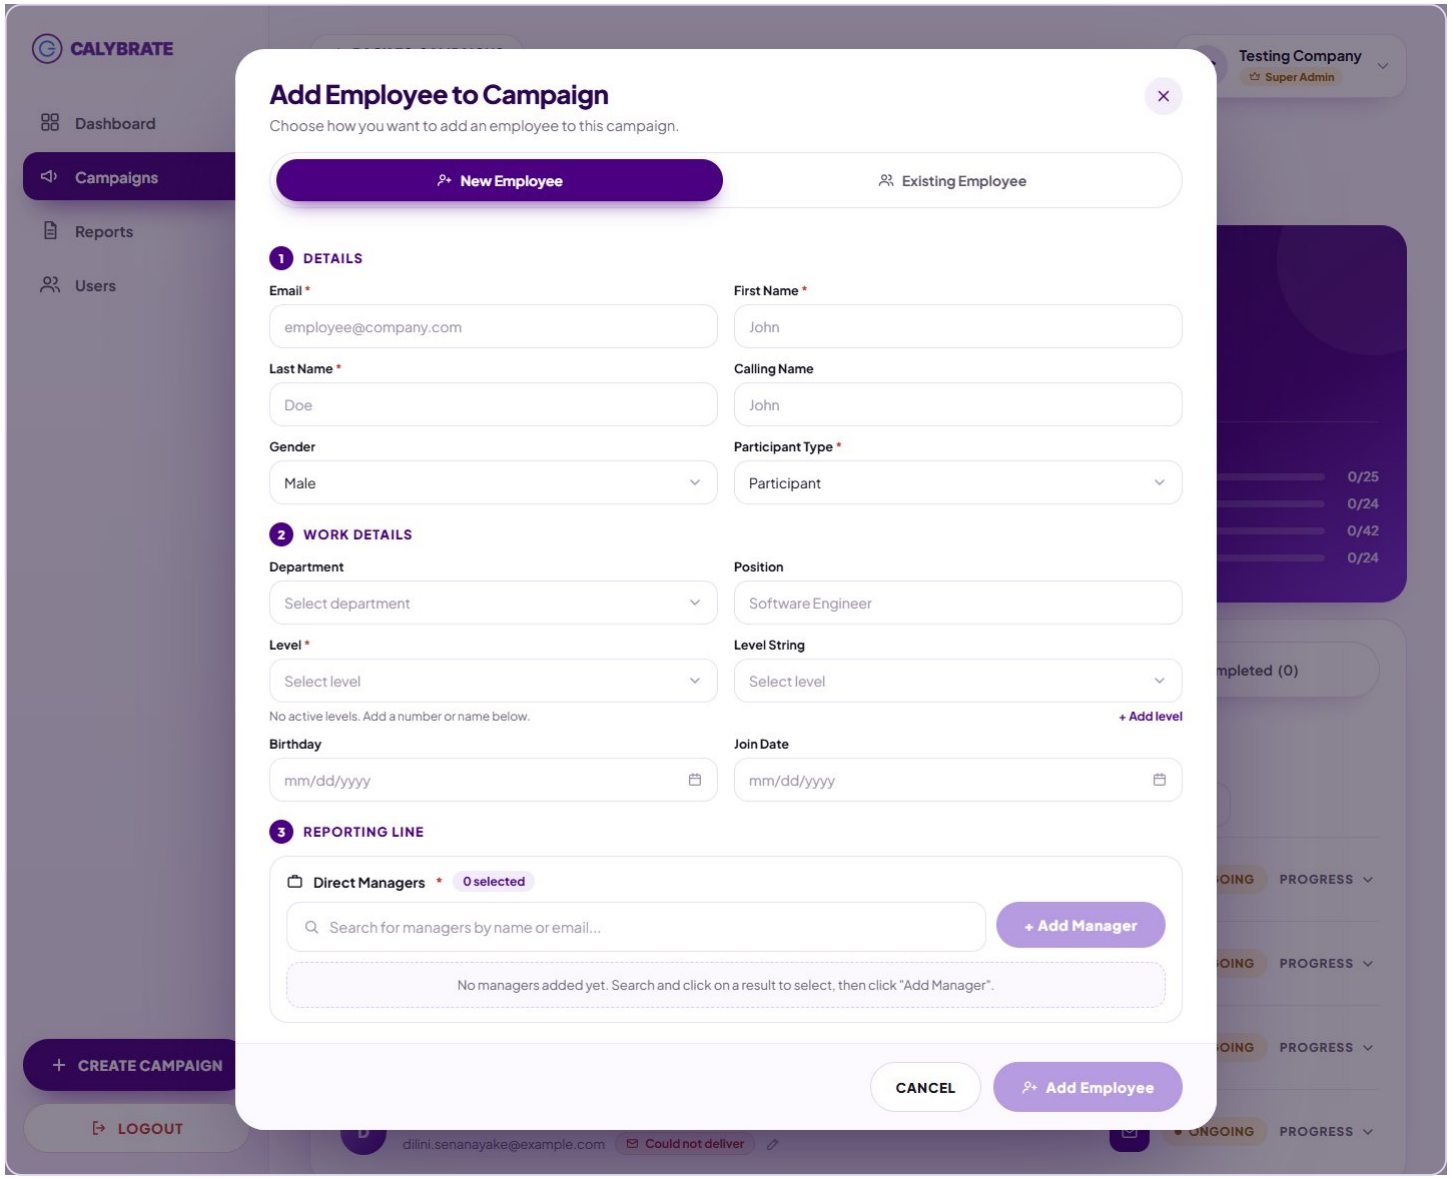
NOTES

- One long column; the Add Employee button is below the fold, so a scroll is needed.
- The Level list says "No active levels. Add a number or name below." and the "+ Add level" link is small.
- Birthday and Join Date use the browser's mm/dd/yyyy box.
- Add Employee looks disabled (pale) until the required fields are filled; only the colour shows it.
- From here an employee can be added to a closed campaign (see the detail page).
- Same for Super Admin and Admin.

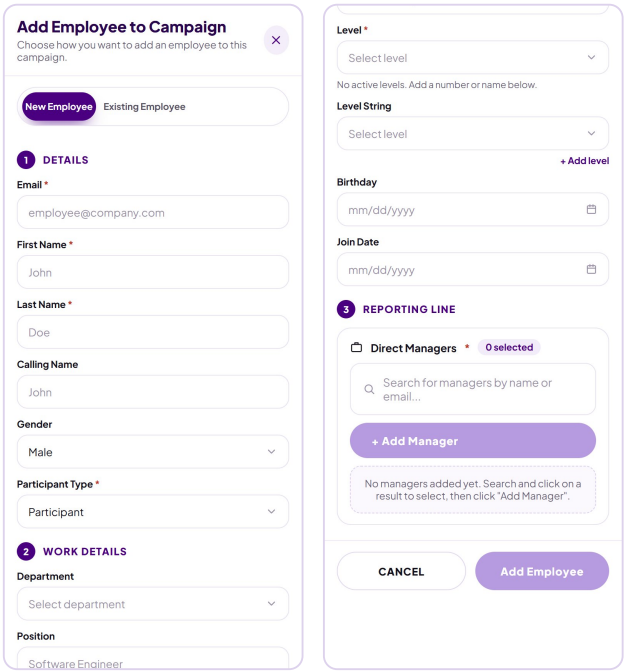
Left: top of the dialog. Right: scrolled down.

SUGGESTED

LAPTOP



MOBILE



ON SCREEN

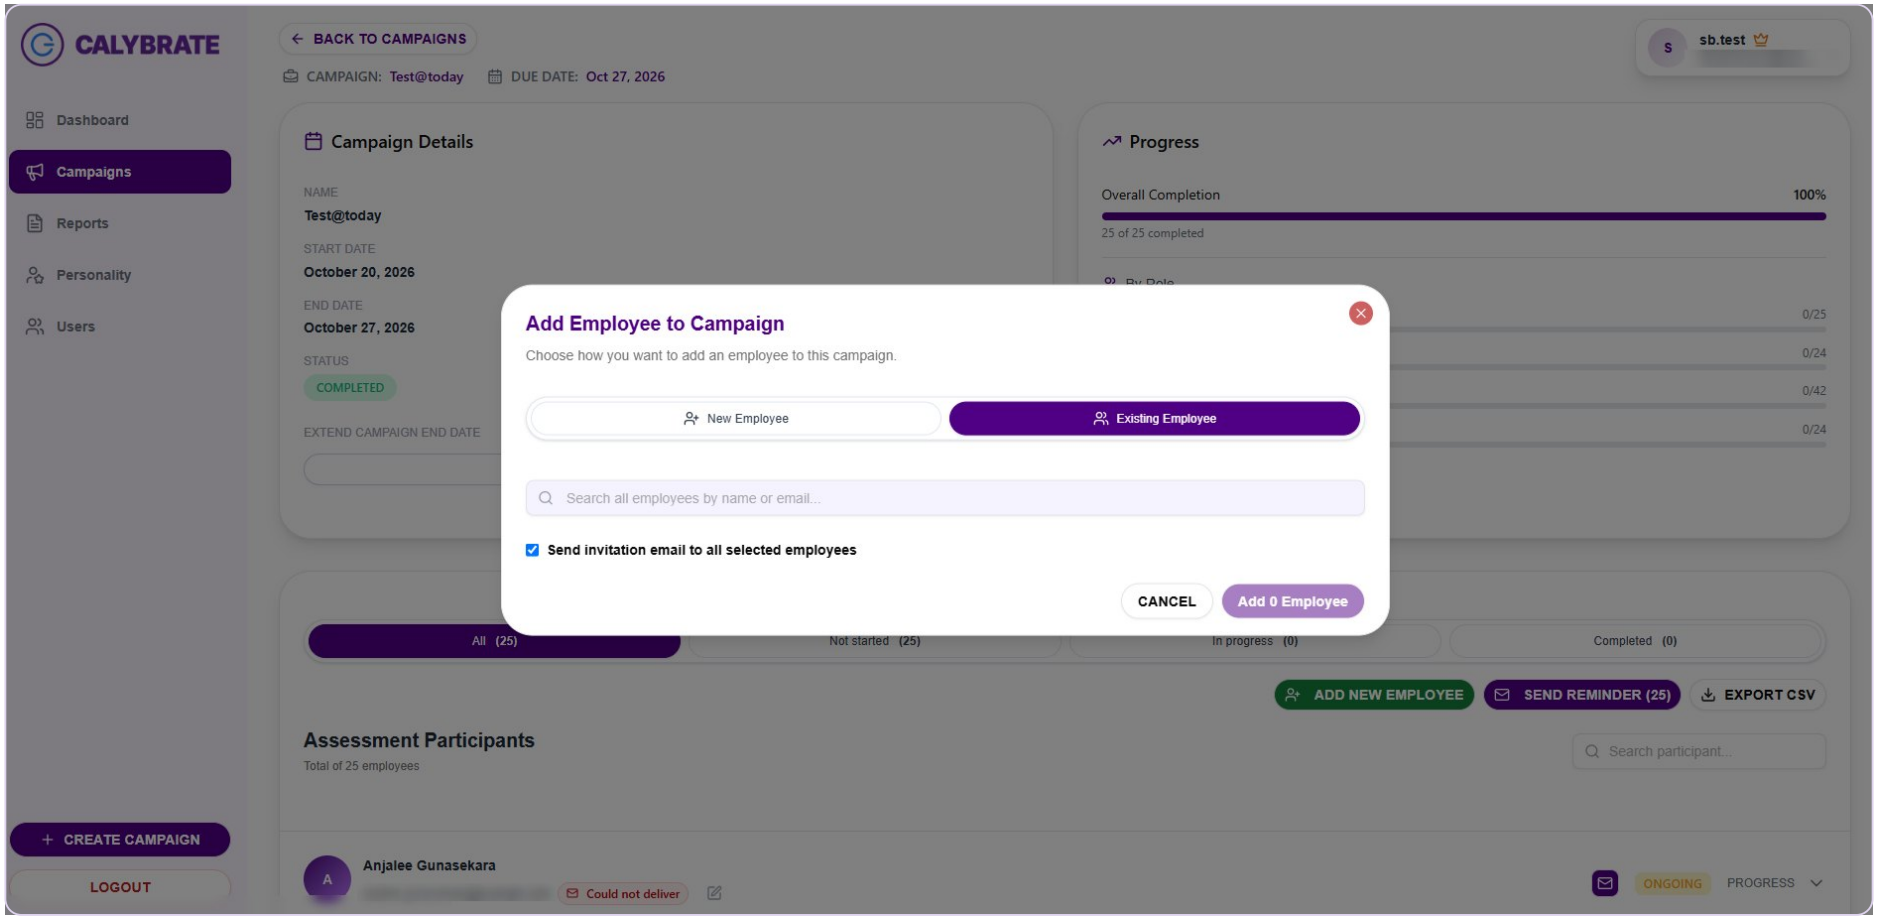
1. Dialog scales in → 2. Sections 1, 2, 3 → 3. Required fields marked → 4. Add Employee turns solid when ready

Same fields and labels. On phones it opens as a full screen form.

Super Admin | Campaigns | Add employee (existing)

CURRENT

SUPER ADMIN



WHAT YOU SEE

- Same dialog, tab Existing Employee.
- Search box: Search all employees by name or email...
- Checkbox: Send invitation email to all selected employees (ticked).
- CANCEL and Add 0 Employee.

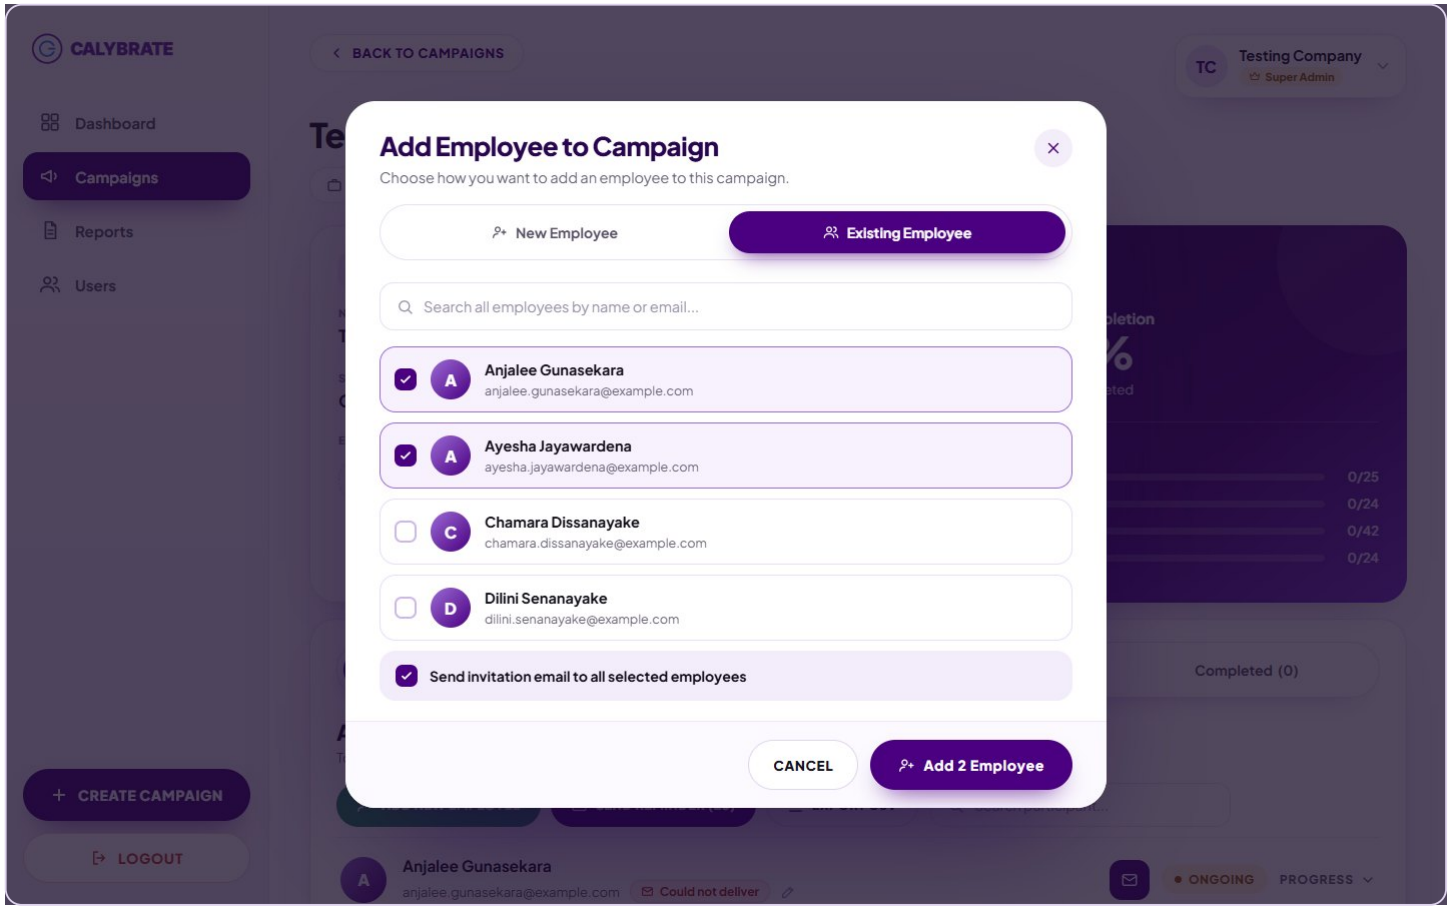
NOTES

- Nothing is listed until you type, so people cannot browse.
- "Add 0 Employee" reads oddly at 0 and 1.
- The blue native checkbox does not match the purple style elsewhere.
- The dialog is mostly empty space before a search.
- Same for Super Admin and Admin.

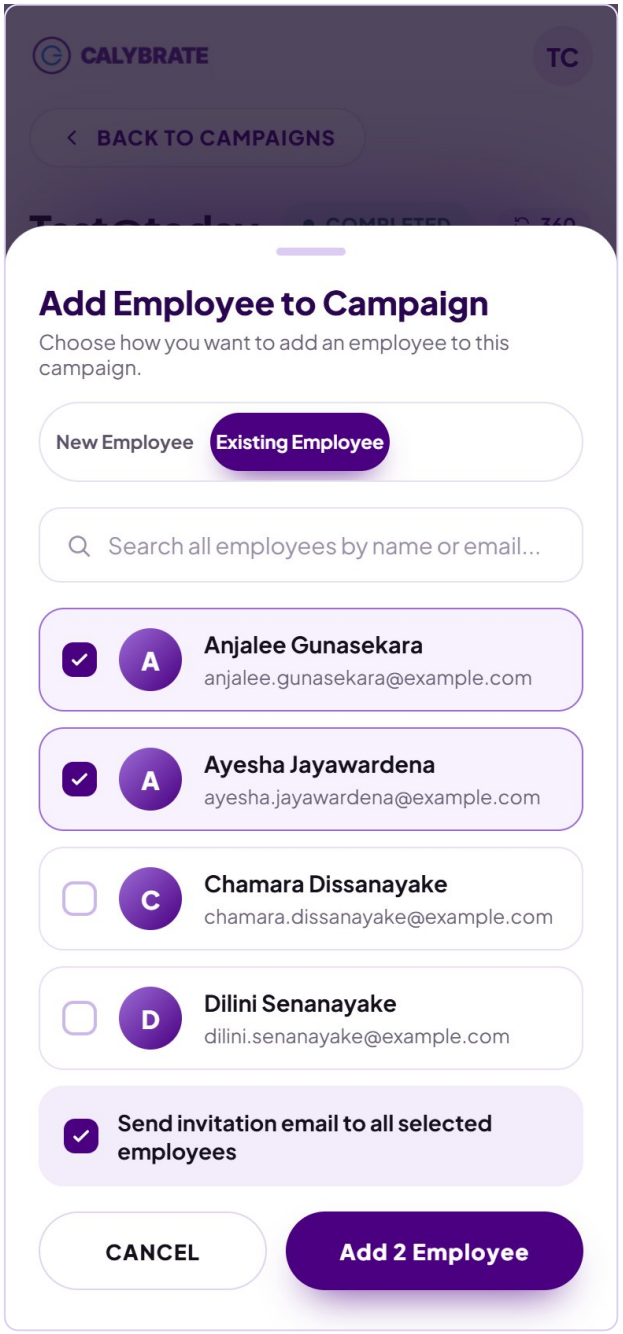
Email blurred.

SUGGESTED

LAPTOP



MOBILE

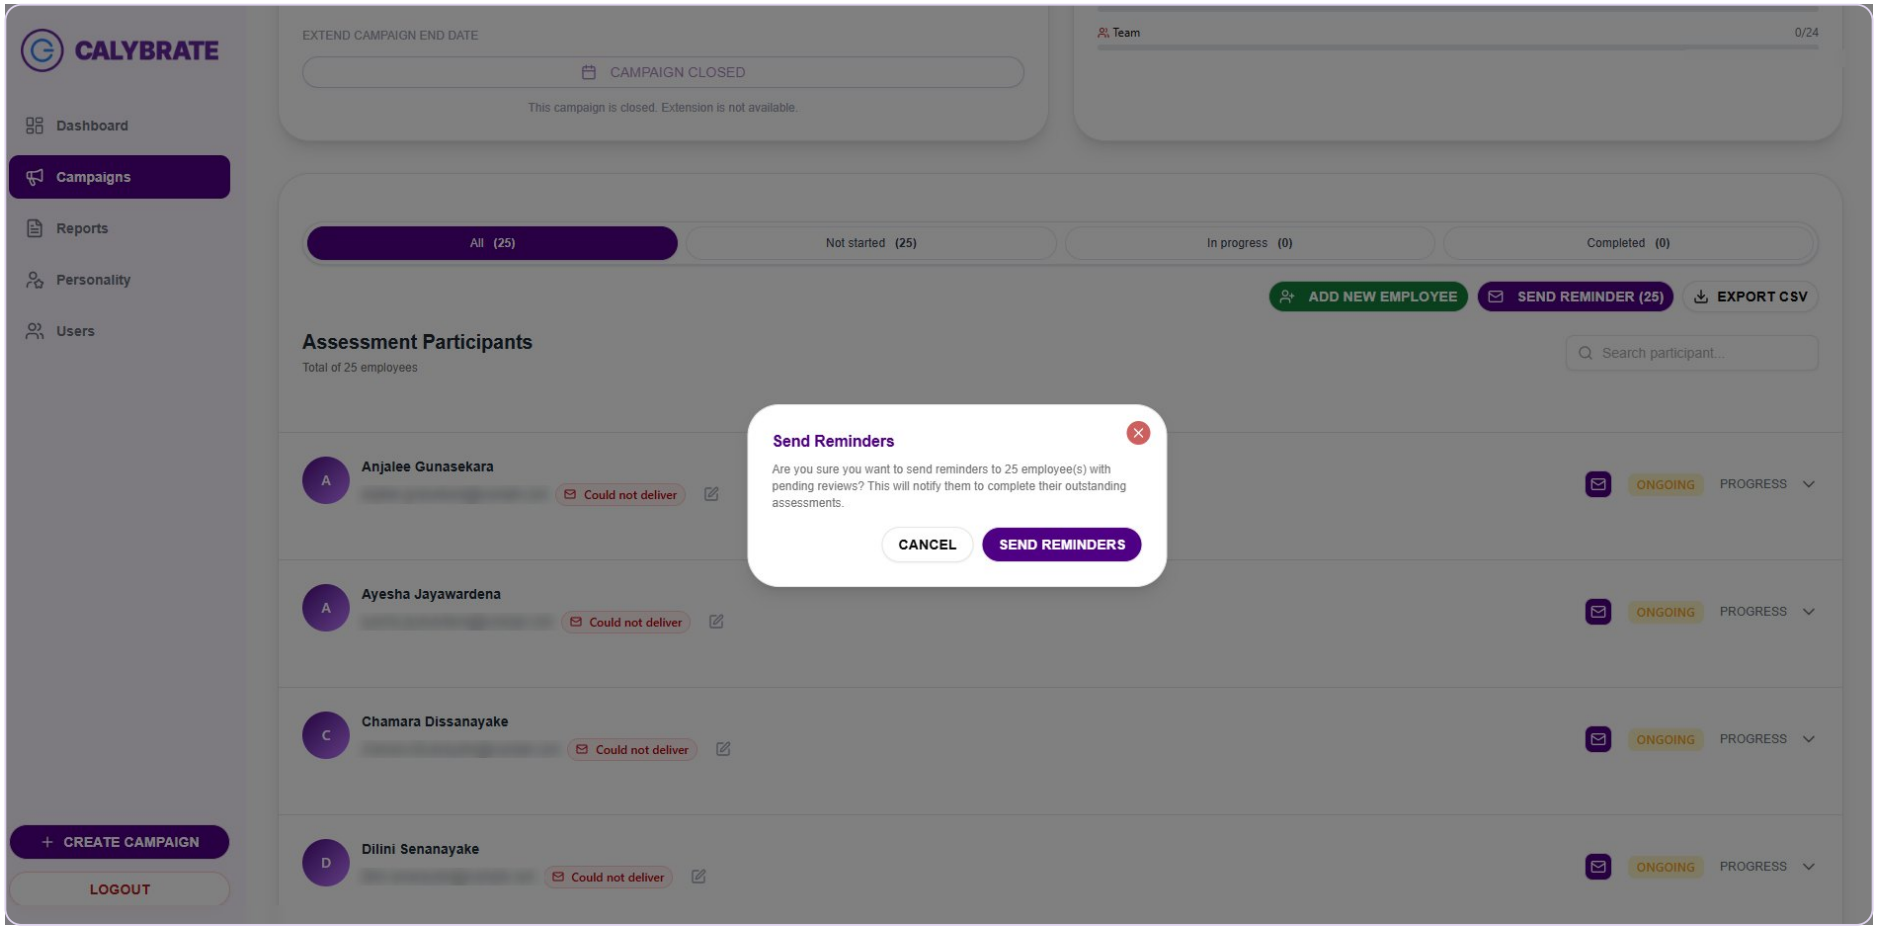


ON SCREEN

1. Search filters as you type → 2. Selected rows turn lilac → 3. Button count updates

Listed people are sample names from the campaign page.

SUPER ADMIN



WHAT YOU SEE

- Dialog "Send Reminders".
- Text: Are you sure you want to send reminders to 25 employee(s) with pending reviews? This will notify them to complete their outstanding assessments.
- CANCEL and SEND REMINDERS.

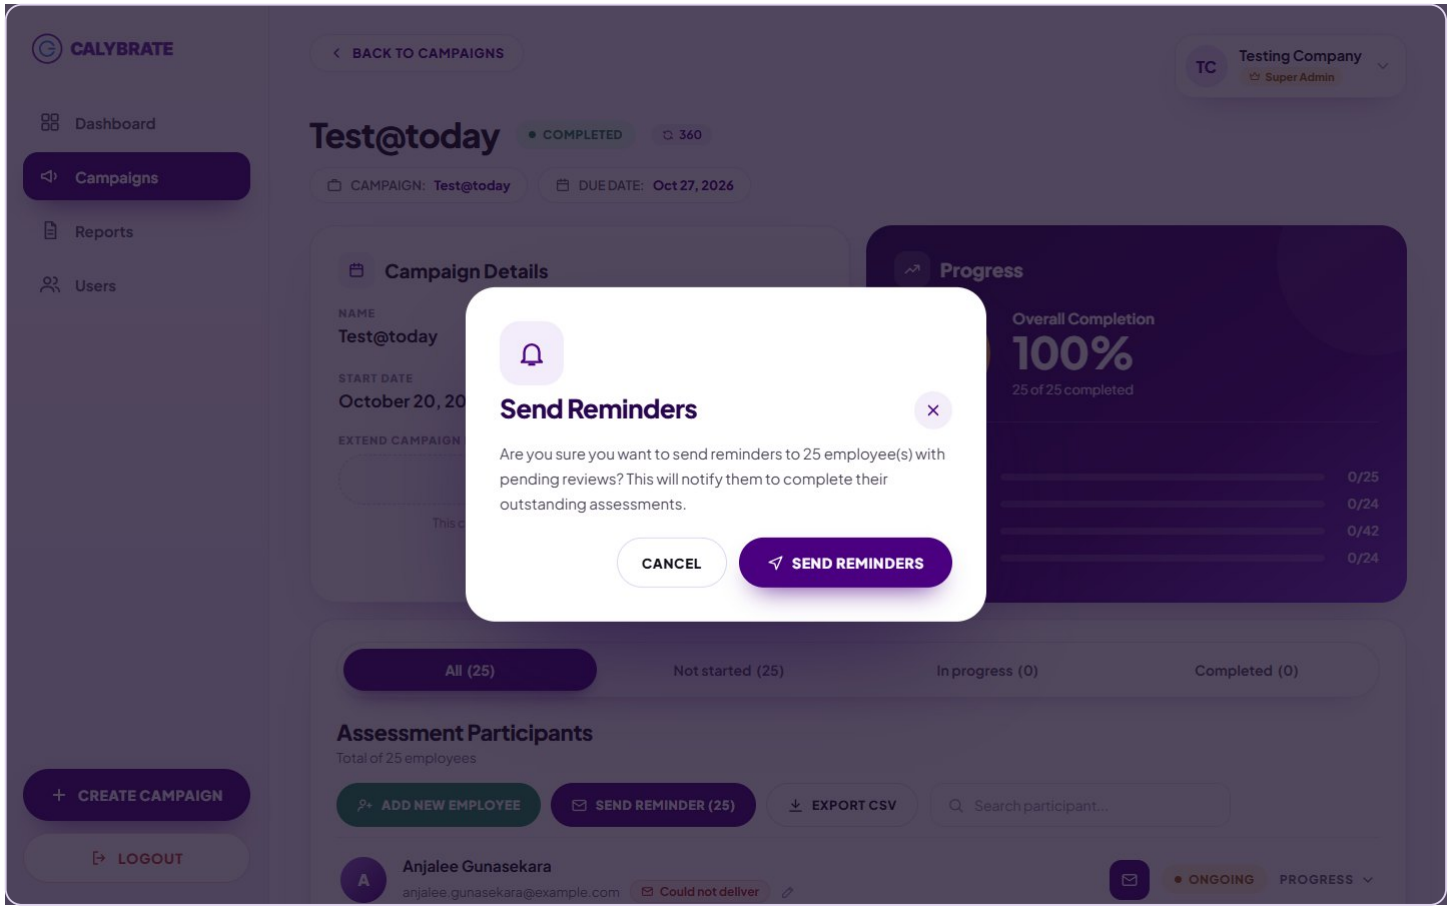
NOTES

- It offers reminders for a campaign that is closed and shows 100% complete.
- No preview of who receives them, and every visible participant shows "Could not deliver".
- The red round close button is the only red item; red usually means danger.
- Small dialog with small text.
- Same for Super Admin and Admin.

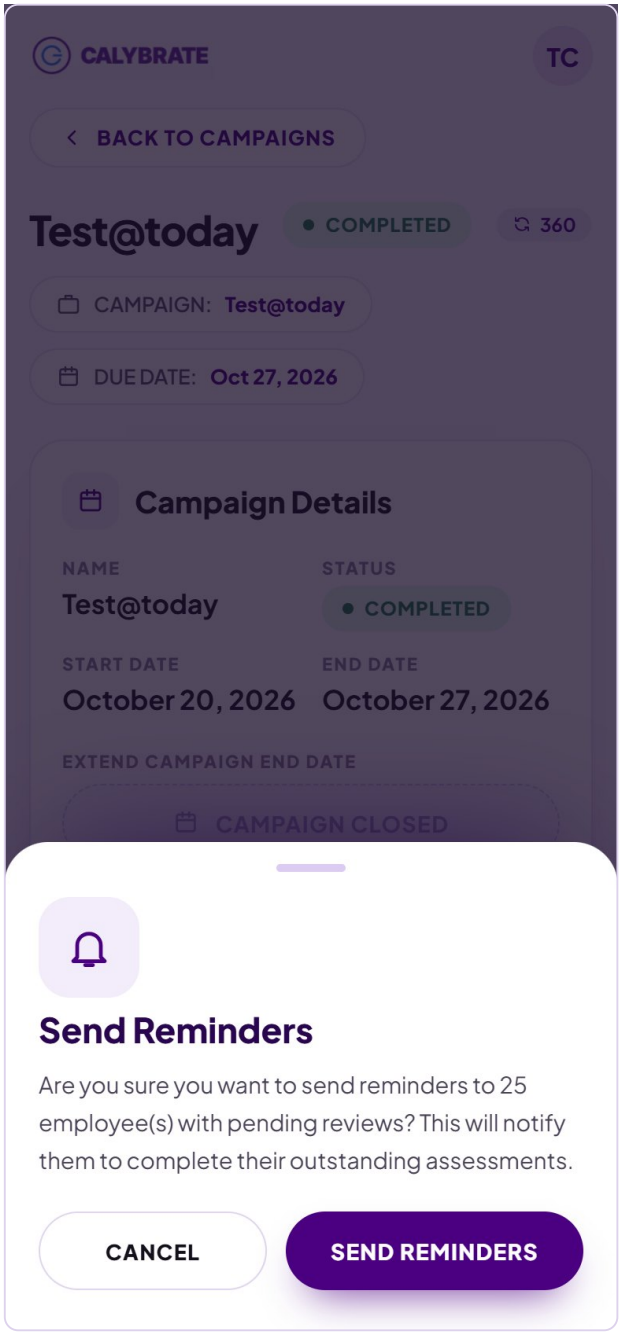
Email blurred.

SUGGESTED

LAPTOP



MOBILE



ON SCREEN

1. Dialog scales in → 2. Bell icon sets the topic → 3. SEND REMINDERS confirms

Wording is the live text, unchanged.

Campaigns | Personality is merged into Campaigns

FIXES

WHY

- The Personality page lists the same campaigns as the Campaigns page (360 reviews as well as Calybrate Me), then opens a second, different detail page for each one.
- The two pages disagree about the same campaign: Test@today shows 100% and 25 of 25 completed on the Campaigns detail page, but 0% and 0 of 25 on the Personality detail page. Test_Sep_30 is DRAFT at 0% on Campaigns and DRAFT at 86% (6 of 7) on Personality.
- People must remember which of two places holds a campaign. One place is easier.

What changes

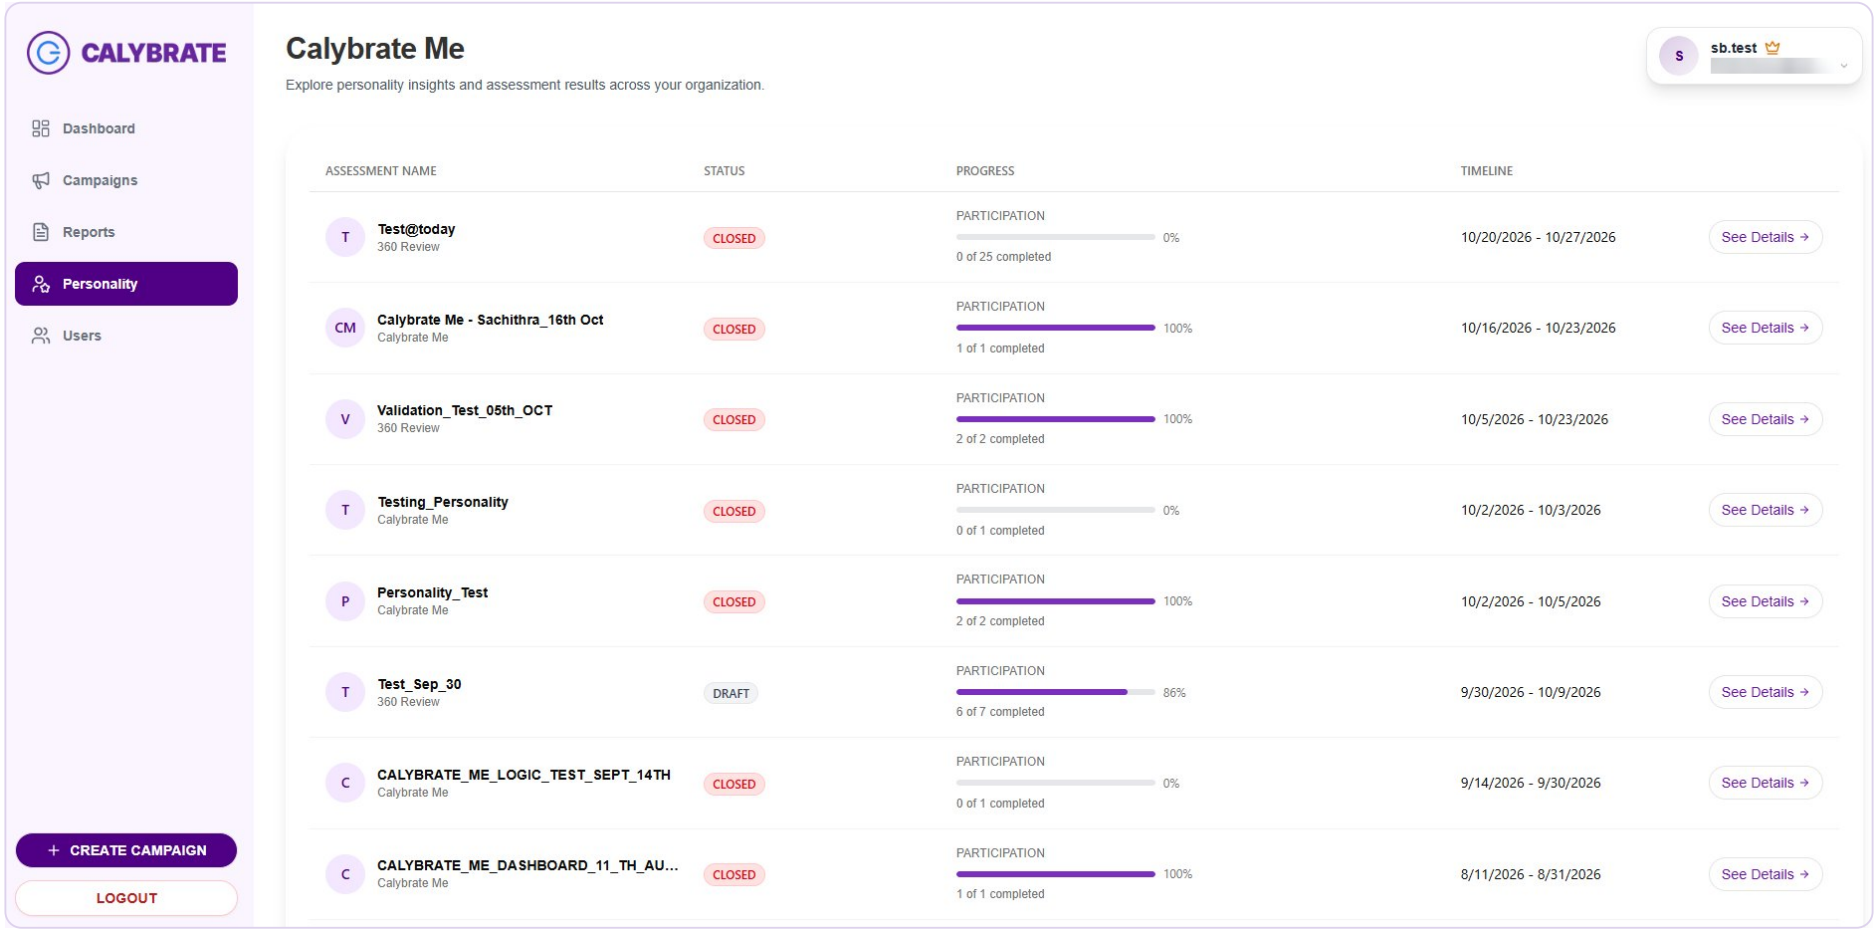
- The sidebar has four items: Dashboard, Campaigns, Reports, Users.
- A Calybrate Me campaign opens inside Campaigns, on the Calybrate Me card, with its personality results (type, summary, strengths, development areas, distribution) on the campaign page.
- The four cards (360, Culture, Calybrate Me and 180) already exist on the redesigned Campaigns home, so no new place is needed.
- Reports keeps the 180 / 360 and Culture reports; the Calybrate Me result lives with its campaign.
- The dashboard and tour pages (pages 9 to 14) now show the four-item sidebar, and the suggested tour has 13 steps: the Personality step is removed. The current (live) tour still has 14.

Not checked: whether the live Calybrate Me result page also exists inside a campaign today, and who can see personality results (Super Admin, Admin, C-suite, viewers: roadmap 52C).

Super Admin | Campaigns | Calybrate Me: current Personality list

CURRENT

SUPER ADMIN



WHAT YOU SEE

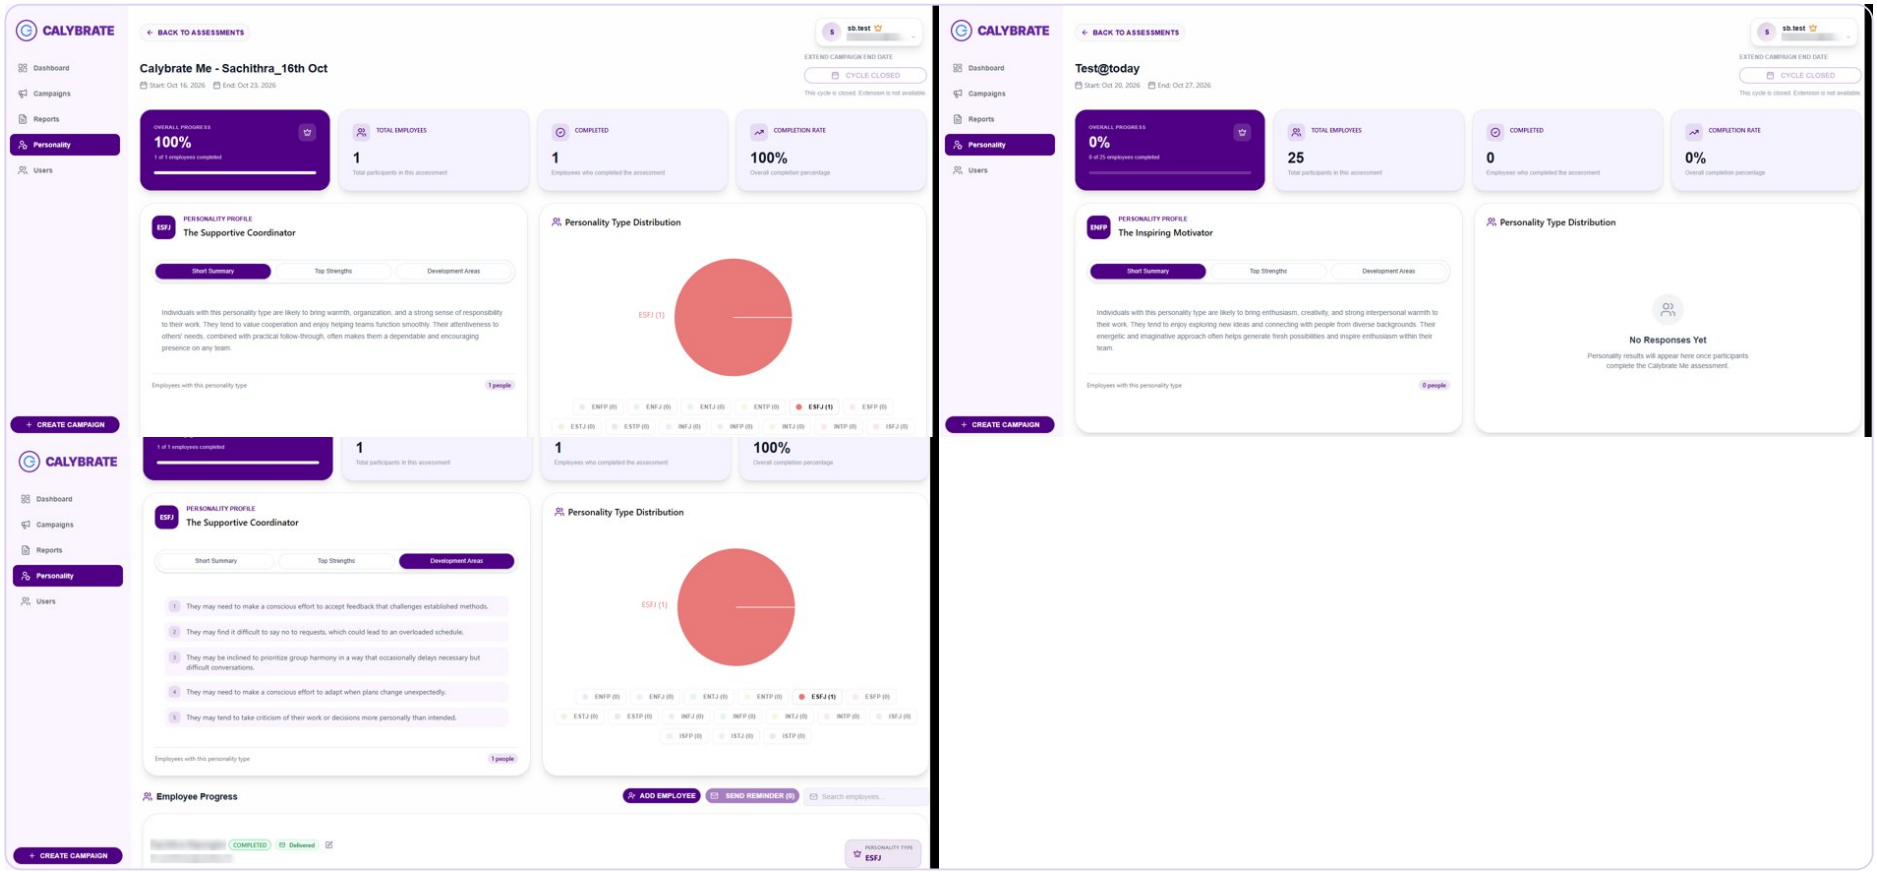
- Title Calybrate Me: Explore personality insights and assessment results across your organization.
- Table: Assessment name, Status, Progress (Participation, x of y completed), Timeline, See Details.
- Rows include 360 Review campaigns (Test@today, Validation_Test_05th_OCT, Test_Sep_30) and Calybrate Me campaigns.

NOTES

- The same campaigns also appear on the Campaigns page.
- CLOSED is red, DRAFT grey; the dates use 10/20/2026 here and "20th Oct" on Campaigns.
- A name is cut off (CALYBRATE_ME_DASHBOARD_11_TH_AU...).
- The sidebar says Personality; the page title says Calybrate Me.

Email blurred.

SUPER ADMIN



WHAT YOU SEE

- Back to assessments, campaign name, start and end date, EXTEND CAMPAIGN END DATE (CYCLE CLOSED).
- Four tiles: Overall progress, Total employees, Completed, Completion rate.
- Personality Profile (ESFJ, The Supportive Coordinator) with tabs Short Summary, Top Strengths, Development Areas, and Personality Type Distribution (pie plus 16 type chips).
- Employee Progress: ADD EMPLOYEE, SEND REMINDER, search, and the employee row with PERSONALITY TYPE.

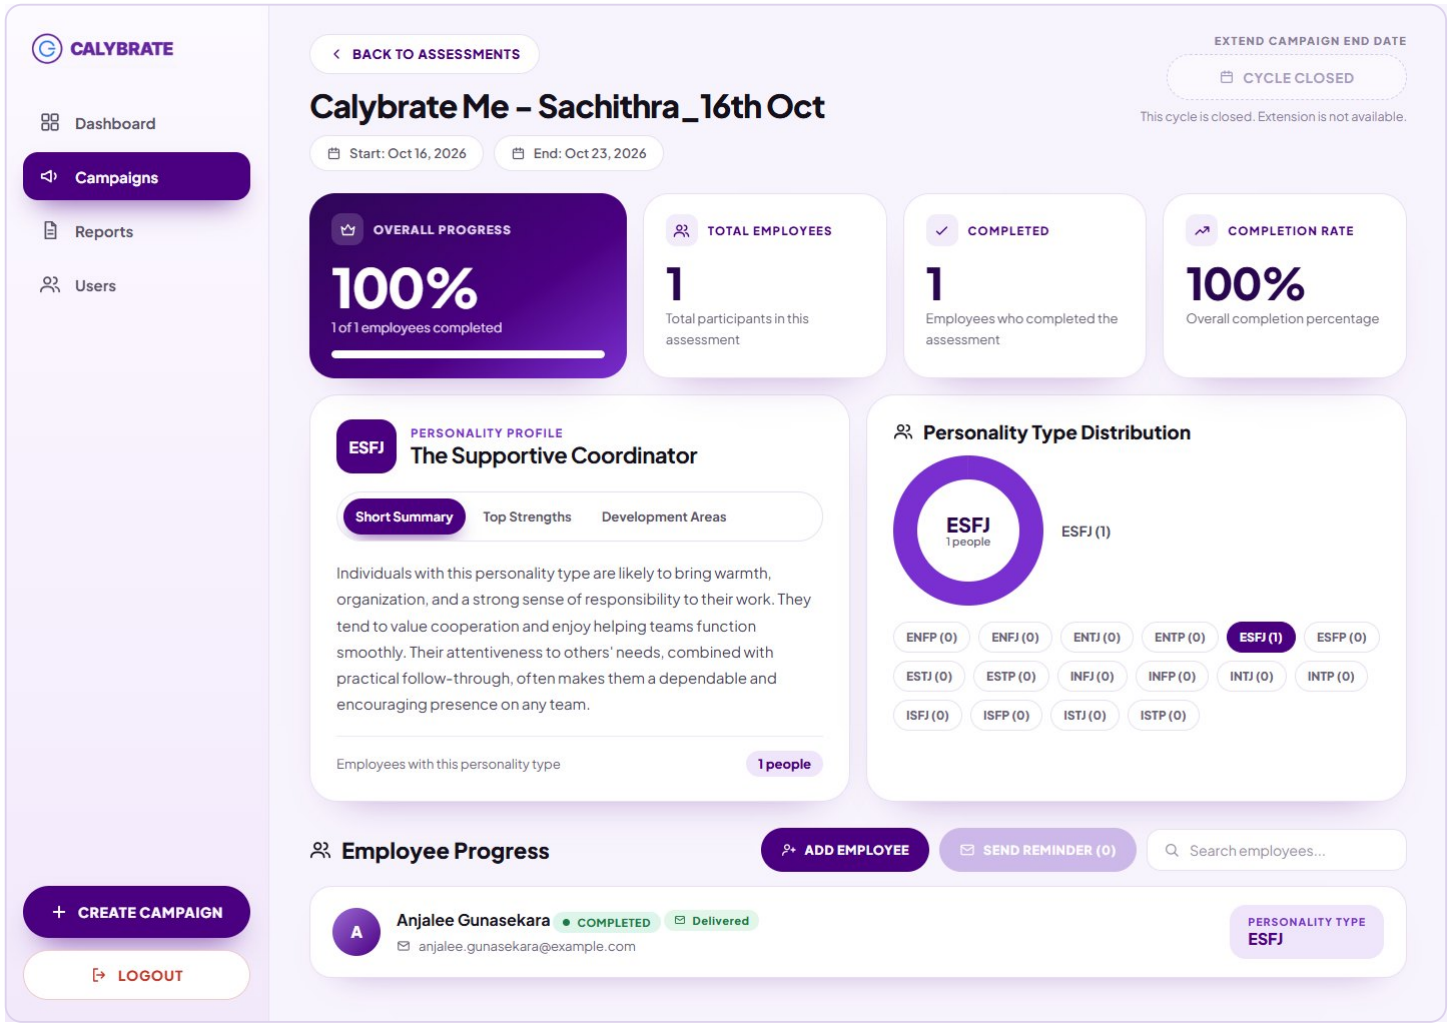
NOTES

- Top left: a campaign with one result. Top right: a campaign with 0 of 25 (No Responses Yet). Bottom left: the Development Areas tab.
- A sample profile (ENFP) shows even when nobody has responded.
- The pie colour is salmon red, which matches nothing else.
- Sixteen type chips mostly say (0), so the useful chip is hard to find.
- The employee row and the summary use different spacing from the Campaigns detail page.

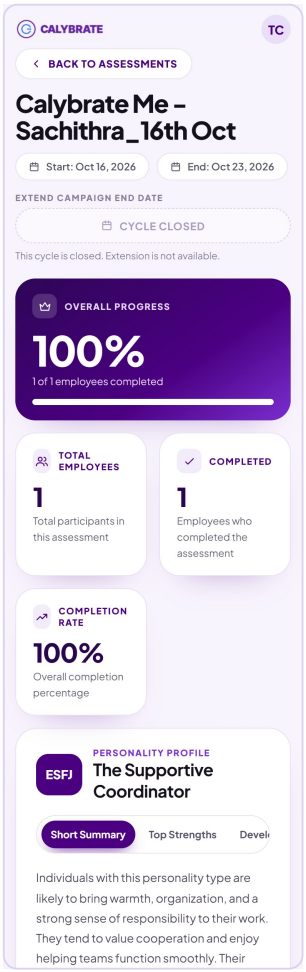
Names and emails blurred.

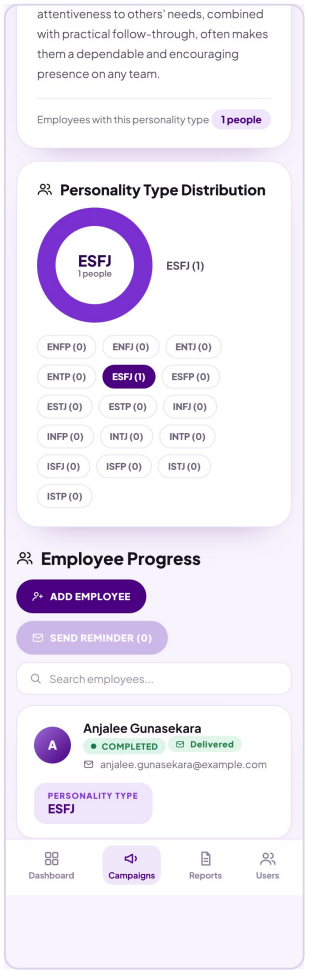
SUGGESTED

LAPTOP



MOBILE





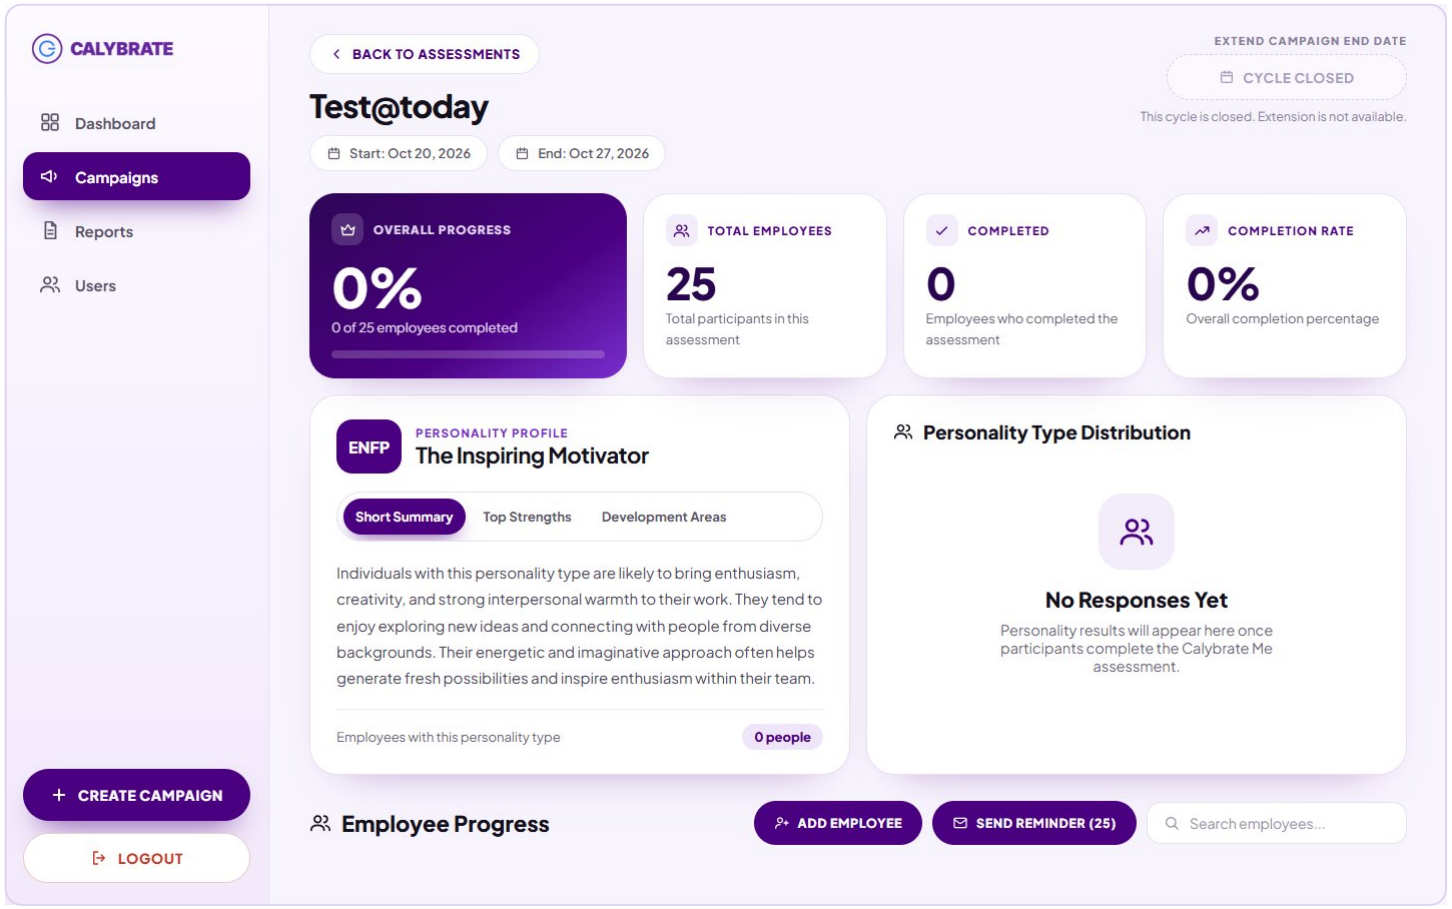
ON SCREEN

1. Four tiles count up → 2. Donut draws to ESFJ → 3. Tabs switch the summary → 4. Employee row opens details

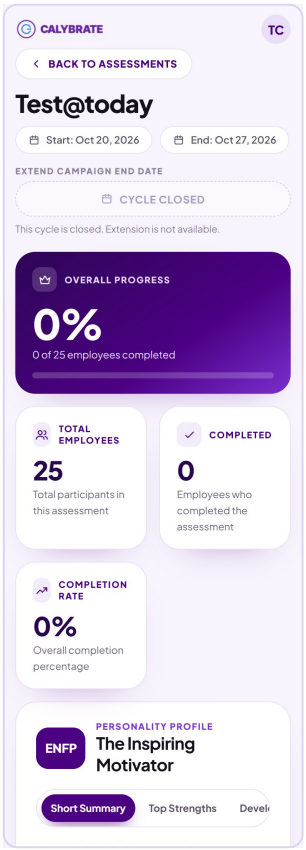
The same page as the campaign detail, with the personality result added. The sidebar has four items. The employee shown is a sample.

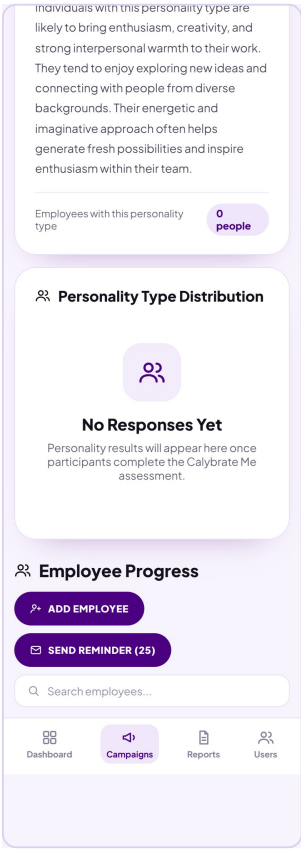
SUGGESTED

LAPTOP



MOBILE





ON SCREEN

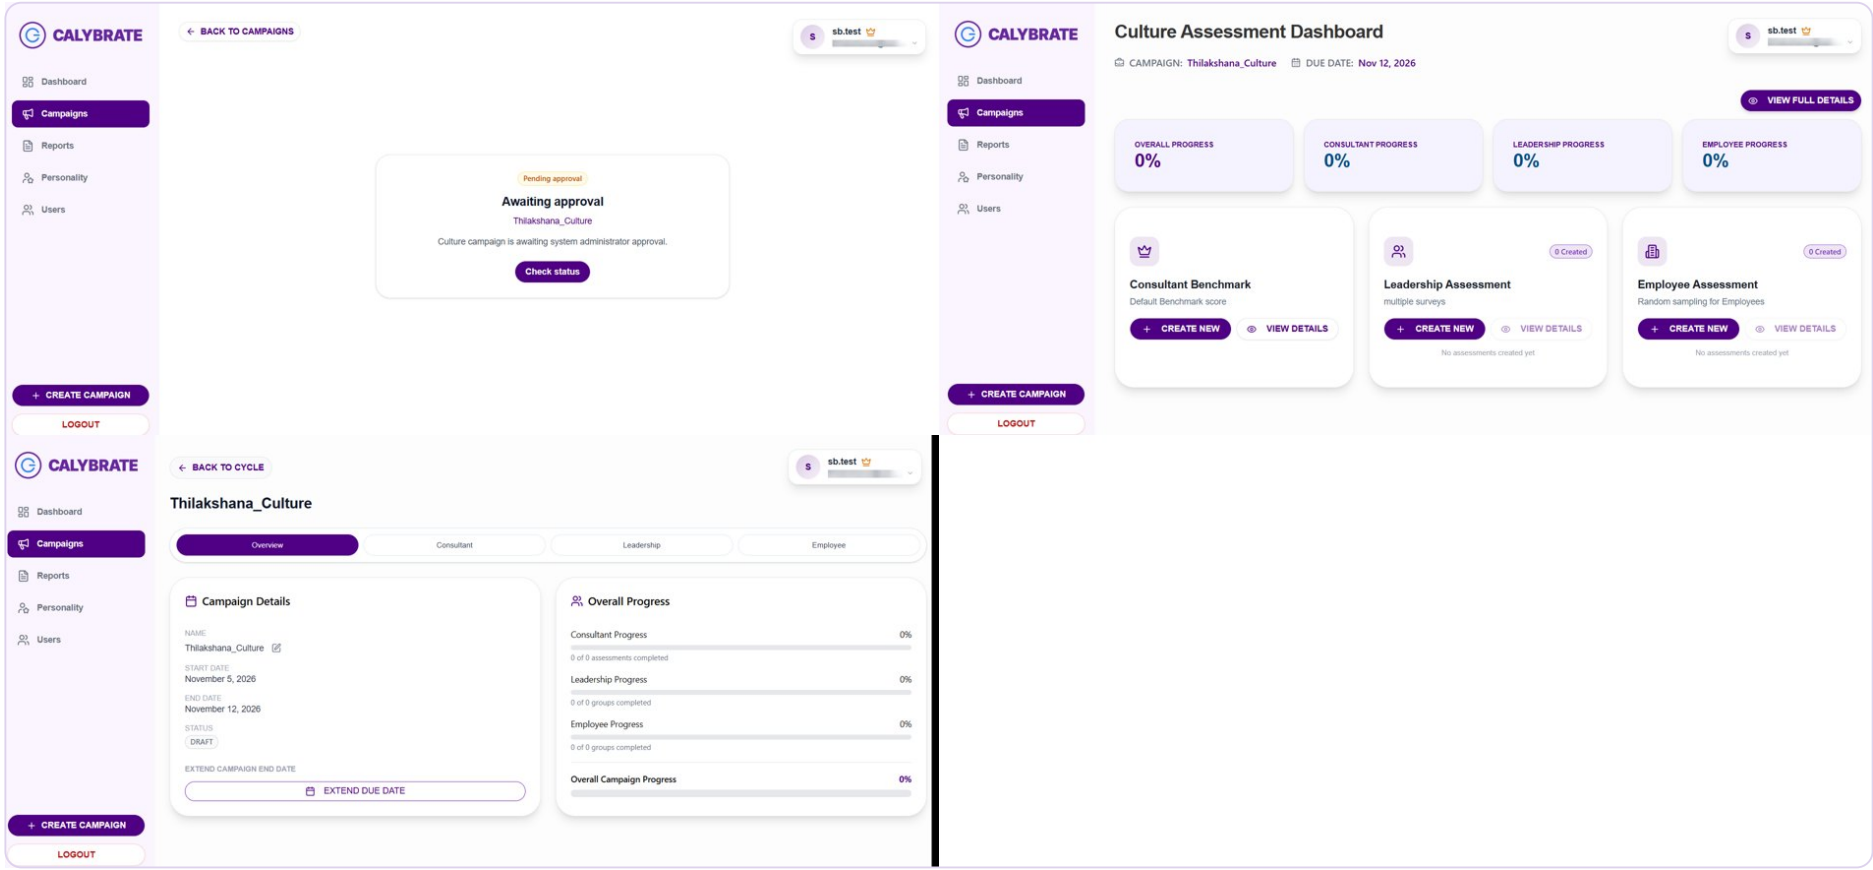
1. 0 of 25 shown honestly → 2. No Responses Yet explains why → 3. SEND REMINDER (25) is the next step

Wording is live: No Responses Yet, Personality results will appear here once participants complete the Calybrate Me assessment.

Super Admin | Campaigns | Culture request flow: current

CURRENT

SUPER ADMIN



WHAT YOU SEE

- Top left: Awaiting approval. Pending approval tag, the campaign name Thilakshana_Culture, "Culture campaign is awaiting system administrator approval." and Check status.
- Top right: Culture Assessment Dashboard with CAMPAIGN and DUE DATE, VIEW FULL DETAILS, four progress tiles, and cards Consultant Benchmark, Leadership Assessment, Employee Assessment (0 Created).
- Bottom left: campaign page with tabs Overview, Consultant, Leadership, Employee; Campaign Details and Overall Progress.

NOTES

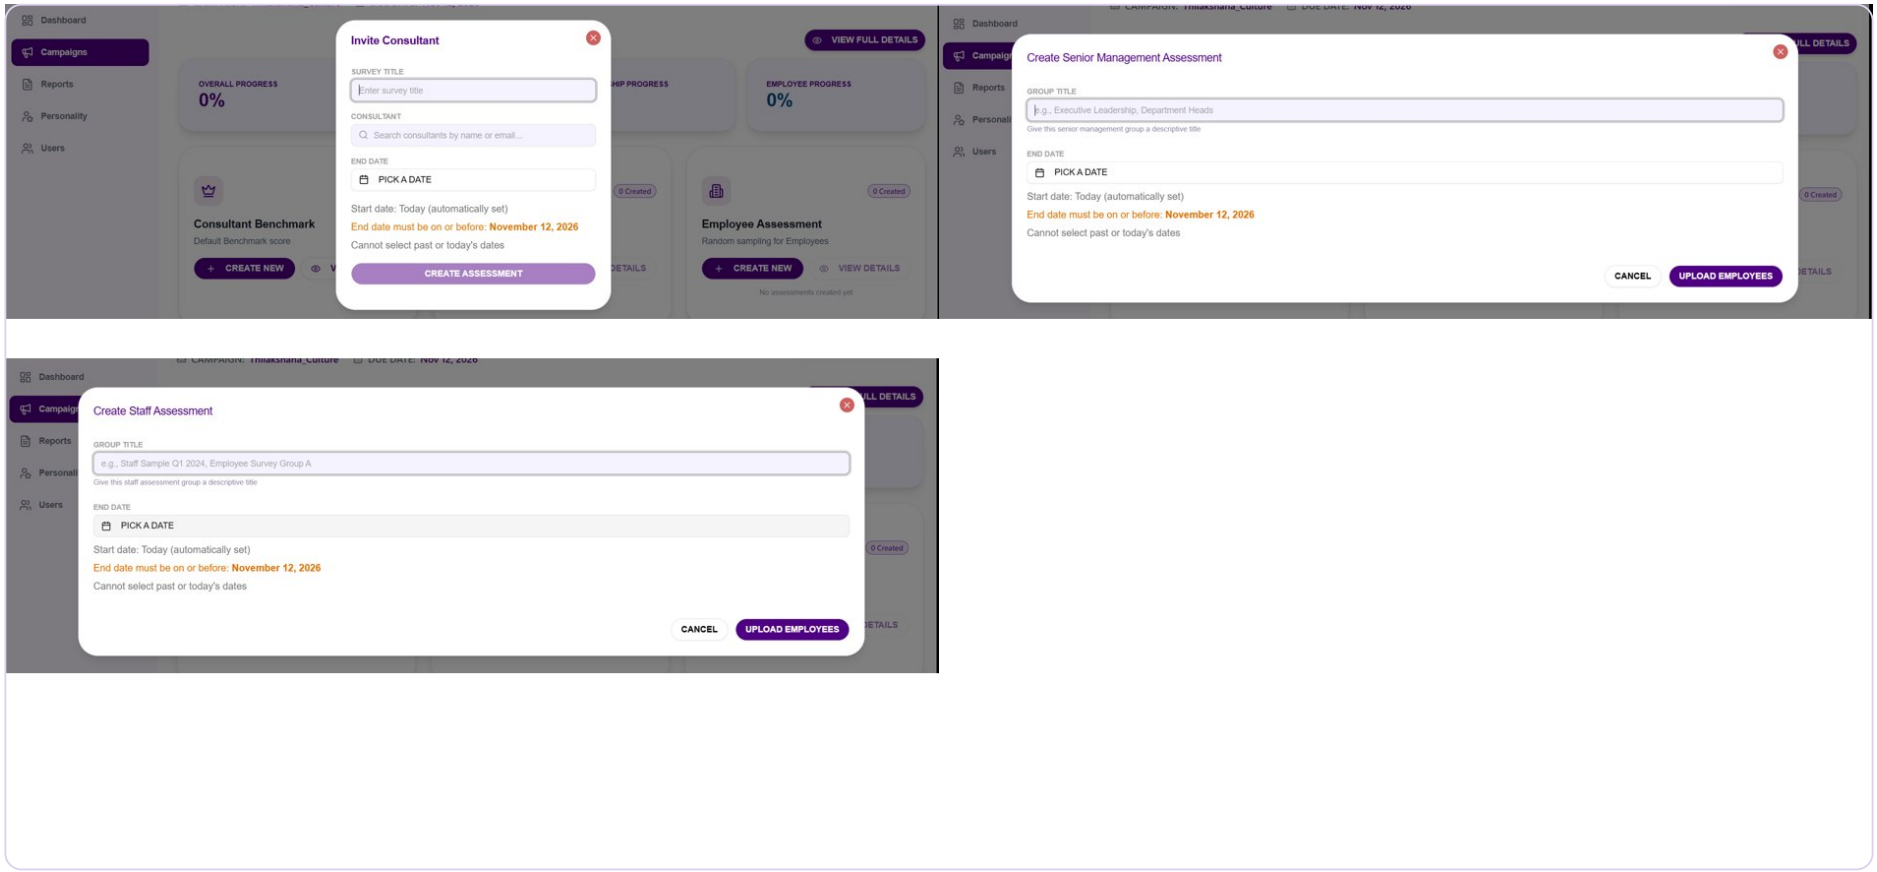
- Awaiting approval has one button and no sign of when, or who to contact.
- The status is DRAFT on the campaign page while it is awaiting approval.
- "Default Benchmark score" and "multiple surveys" are in different cases; the first card has no 0 Created tag.
- VIEW DETAILS is pale on the two empty cards, which is right, but nothing says it will unlock after CREATE NEW.
- The back buttons say BACK TO CAMPAIGNS, BACK TO CYCLE and BACK TO ASSESSMENTS in the three flows.

Emails blurred.

Super Admin | Campaigns | Culture request flow: create dialogs (current)

CURRENT

SUPER ADMIN



WHAT YOU SEE

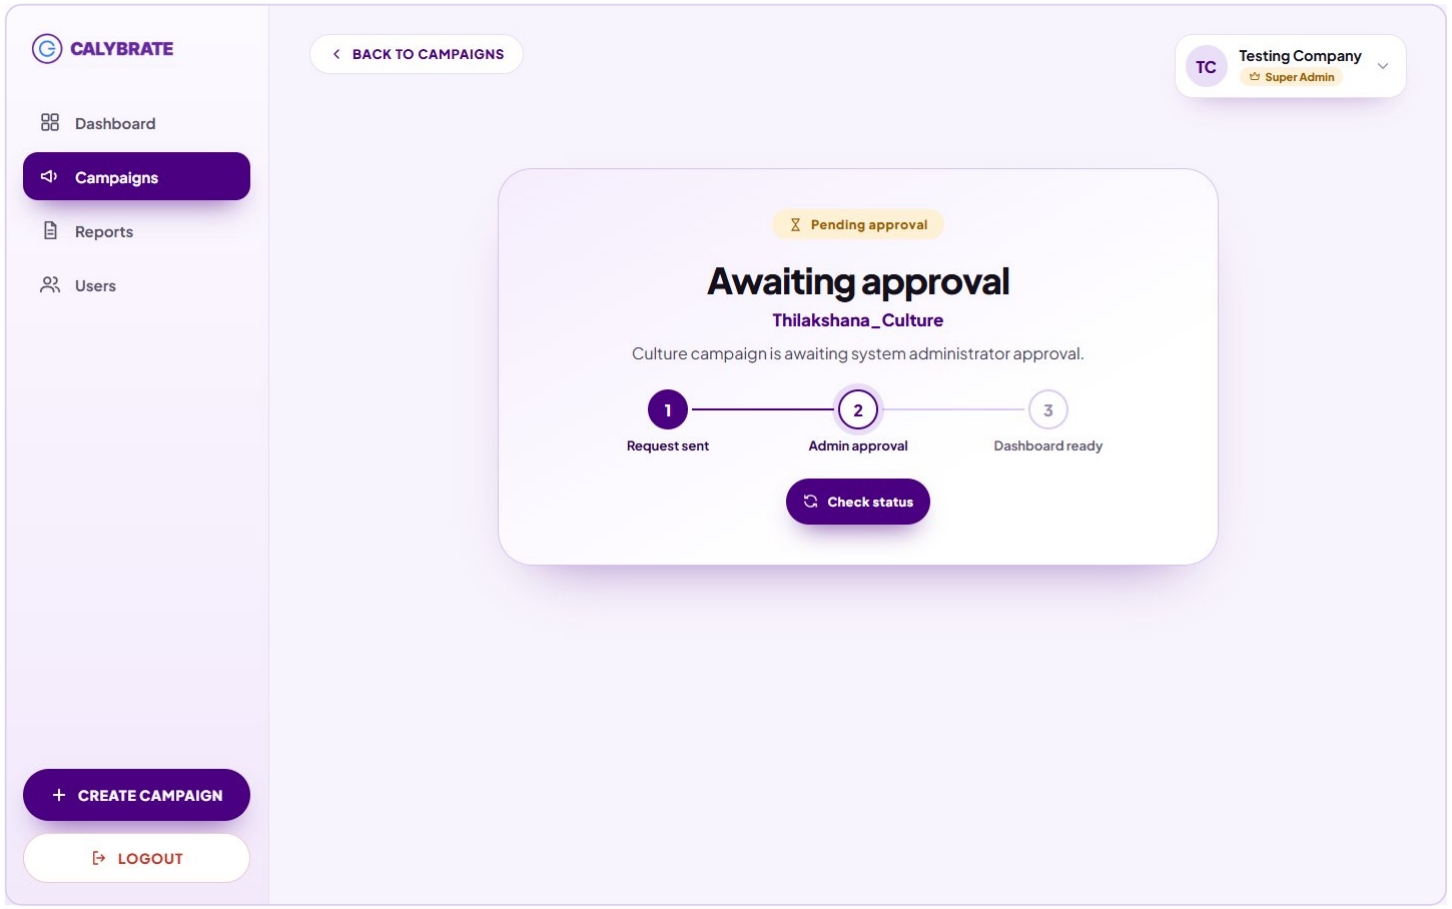
- Invite Consultant: Survey title, Consultant (search by name or email), End date, CREATE ASSESSMENT (pale).
- Create Senior Management Assessment: Group title (e.g., Executive Leadership, Department Heads), End date, CANCEL, UPLOAD EMPLOYEES.
- Create Staff Assessment: the same form with other example text.
- All three show: Start date: Today (automatically set); End date must be on or before: November 12, 2026; Cannot select past or today's dates.

NOTES

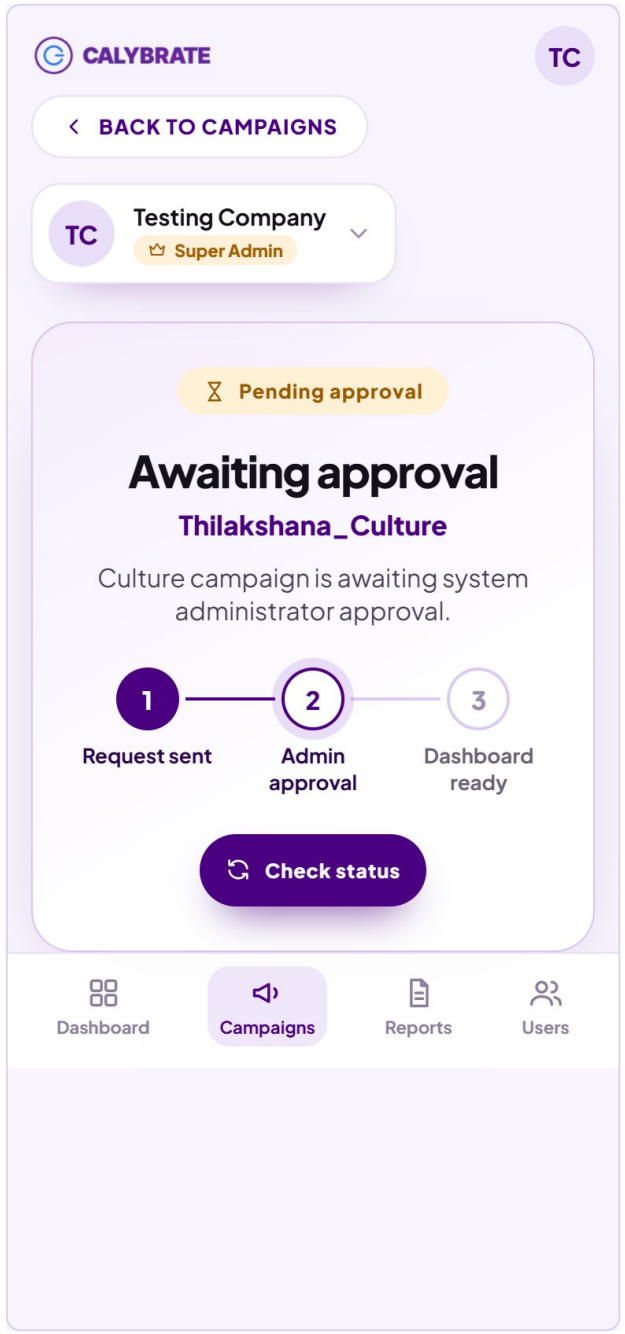
- The three dialogs have different widths and button sets.
- The wide dialogs leave a large empty area between the date and the buttons.
- The rules sit as three loose lines in grey and orange.
- Invite Consultant has no CANCEL button.
- Card names (Leadership, Employee) and dialog titles (Senior Management, Staff) differ.

SUGGESTED

LAPTOP



MOBILE



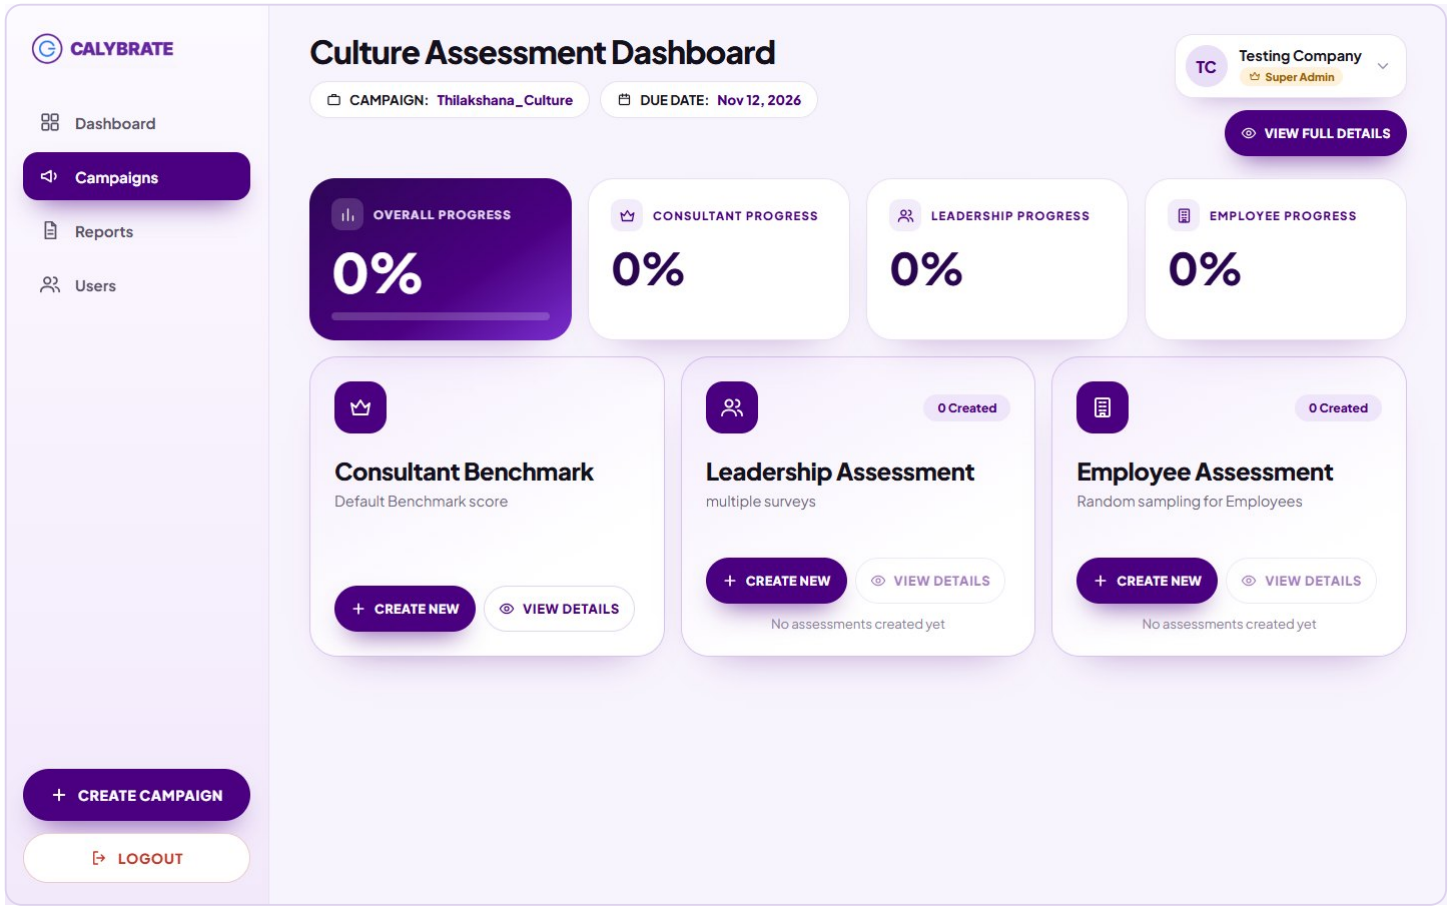
ON SCREEN

1. Three-step progress → 2. Check status refreshes → 3. Back button returns

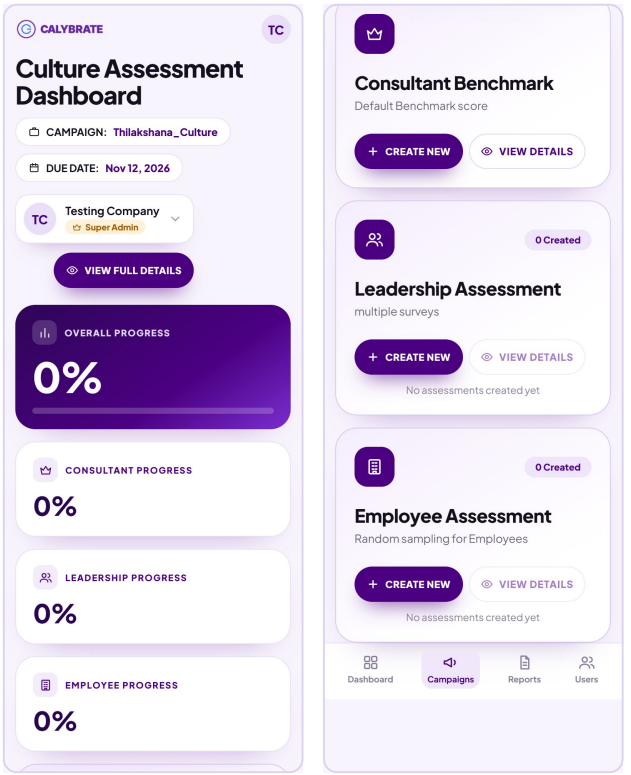
New: the three-step line (Request sent, Admin approval, Dashboard ready). Live wording kept; "System administrator approval" is shortened to "Admin approval" in the step label only.

SUGGESTED

LAPTOP



MOBILE



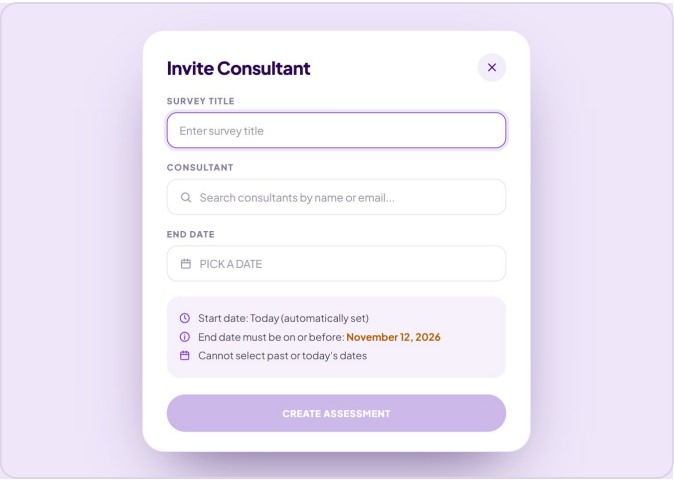
ON SCREEN

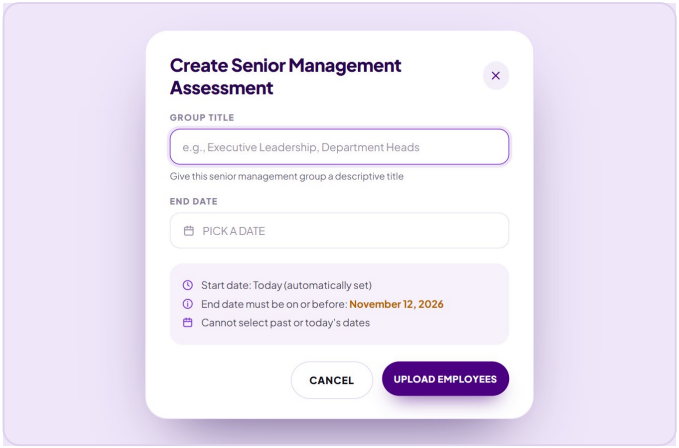
1. Tiles in one row → 2. Cards rise in → 3. CREATE NEW starts a dialog

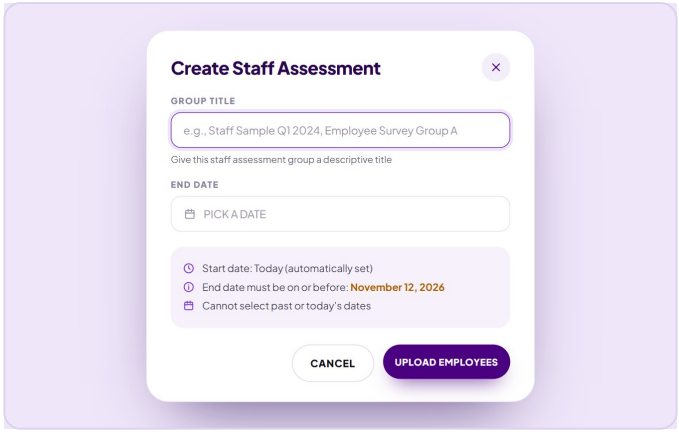
All labels are live. 0 Created is shown on the two empty cards as before.

SUGGESTED

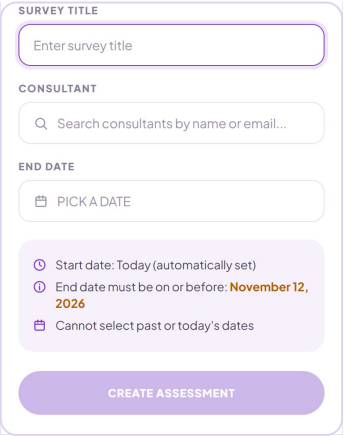
LAPTOP - one style for all three

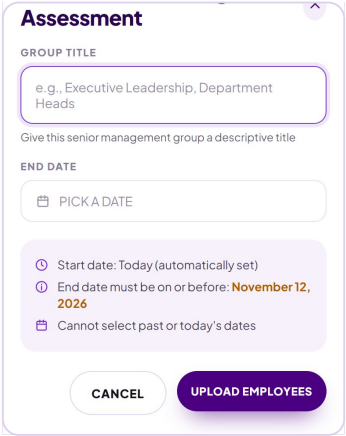


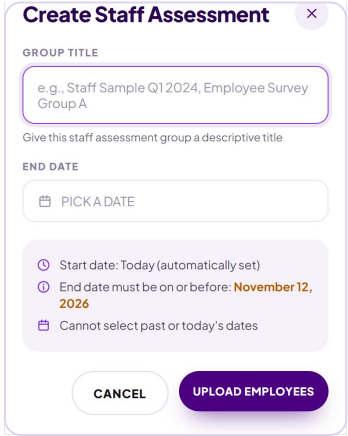




MOBILE - bottom sheet







WHAT CHANGED

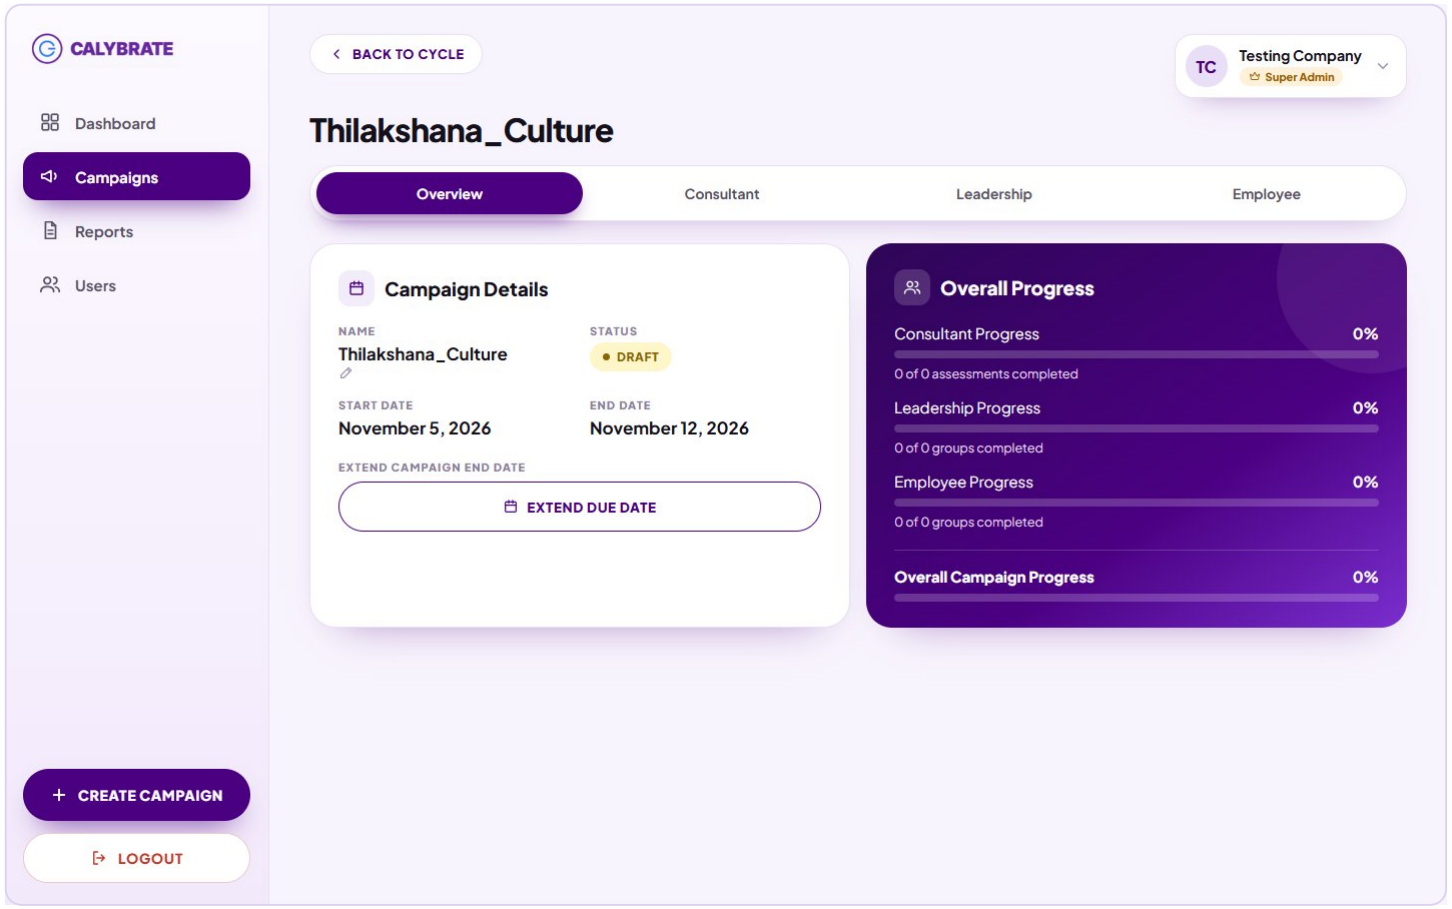
- One dialog style: same width, a numbered rules box, CANCEL always present.
- The three live rules are kept word for word, in one grey box with icons.
- CREATE ASSESSMENT is pale until the title and date are filled; UPLOAD EMPLOYEES stays as on the live page.

ON SCREEN

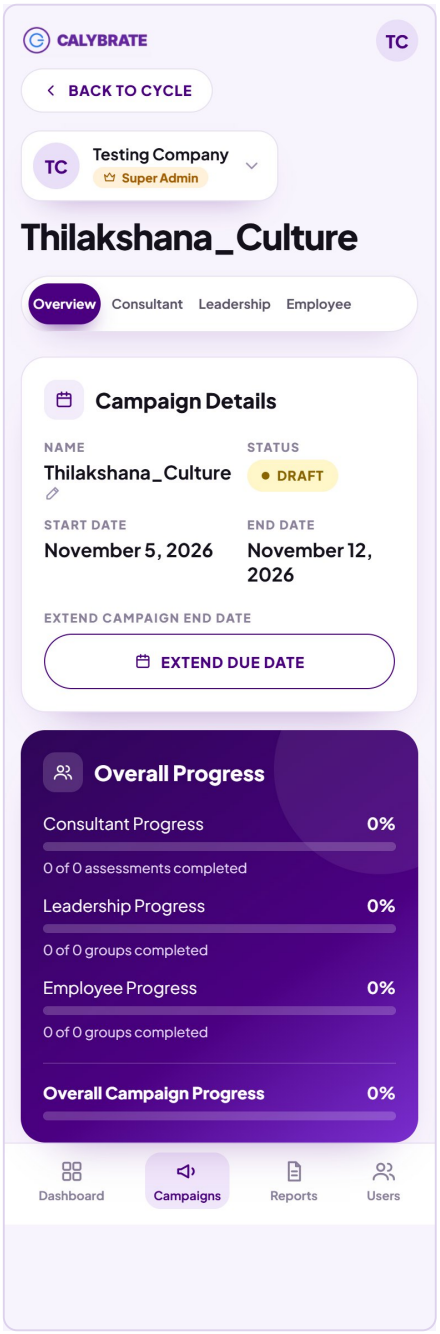
1. Dialog scales in → 2. Rules box shows the limit → 3. Button turns solid when ready

SUGGESTED

LAPTOP



MOBILE



ON SCREEN

1. Tabs stay on top → 2. Details card and dark progress card → 3. Extend due date at the end

Same fields and numbers as the live page.

HIGH	**Personality page**	It duplicates Campaigns and disagrees with it (Test@today: 100% and 25 of 25 on Campaigns, 0% and 0 of 25 on Personality; Test_Sep_30: 0% on Campaigns, 86% on Personality). Merge it into Campaigns.
MED	**360 under Me**	360 Review campaigns are listed under Calybrate Me. After the merge each campaign sits under its own card.
MED	**No-response profile**	A sample ENFP profile shows on a campaign with 0 of 25 responses, which can be read as a real result. Show the empty state only.
MED	**Awaiting approval**	One button (Check status), no hint of how long it takes, and the campaign status says DRAFT. Add a step line, and say who approves (roadmap 28 to 31: SB Admin).
MED	**Culture dialogs**	Three dialogs with three widths and different buttons; Invite Consultant has no CANCEL. The rules are three loose lines. Use one style.
MED	**Naming**	Cards say Leadership and Employee, dialogs say Senior Management and Staff; back buttons say Campaigns, Cycle and Assessments. Pick one word for each.
LOW	**Pie colour**	The distribution pie is salmon red, matching nothing else. The redesign uses purple.
LOW	**Wording**	"Default Benchmark score" and "multiple surveys" start in different cases; one name is cut off (CALYBRATE_ME_DASHBOARD_11_TH_AU...).
LOW	**Roadmap**	Matches 28 to 31 (Culture through SB Admin) and 52C (Me reports). Open: who approves, how the requester is told, and what the Consultant Benchmark is.

NEW IN THE MOCKUPS (NOT ON THE LIVE PAGE)

The merged Calybrate Me result inside a campaign, the three-step line on Awaiting approval, the rules box and unified size of the three dialogs, the purple donut, and the four-item sidebar. Wording, fields and numbers are the live ones. Names and emails are examples.

HIGH	**Detail page**	100% complete and 25 of 25 completed, while Not started is 25, Completed is 0, every role is 0/n and the list shows 0%. One source of truth is needed for completion.
HIGH	**Closed campaign**	ADD NEW EMPLOYEE and SEND REMINDER (25) are active on a closed campaign, and participants are labelled ONGOING. Decide what is allowed after closing.
HIGH	**Delivery**	Every visible participant shows "Could not deliver". Reminders would not reach them, and nothing explains why or how to fix the email.
MED	**Status colours**	CLOSED is red like an error. The redesign uses grey for CLOSED, red only for REJECTED, amber for PENDING, green for ONGOING and COMPLETED.
MED	**Status words**	The list says CLOSED, the detail page says COMPLETED, participants say ONGOING. Use one set of words, or explain the difference.
MED	**Filter**	Two drop-downs hide the options. The redesign uses chips in a side panel so the rows do not jump.
MED	**Add employee**	One very long form with the button below the fold. The redesign numbers the sections and keeps the buttons in view; all fields stay.
LOW	**Data format**	"20th Oct - 27th Oct" on Campaigns and "10/20/2026 - 10/27/2026" on Personality; Test_Sep_30 is 0% in one place and 86% in the other.
LOW	**Wording**	"Add 0 Employee" at zero selected; the sample campaign is named "Test campaing" (sample data).
LOW	**Roadmap**	Campaign flow is roadmap steps 24 to 41. The list, detail, add employee and reminders here cover 33 (team setup), 37 to 38 (add employee) and 52B (manage assessments). Create Campaign itself is next.

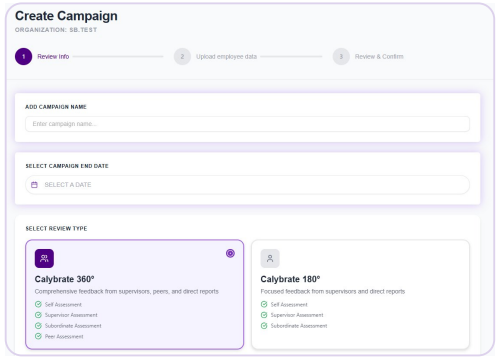
NEW IN THE MOCKUPS (NOT ON THE LIVE PAGE)

Four bento cards by review type, then a mosaic inside each (list), status and type chips with icons, the ring and the sparkline-style visuals, the side drawer and bottom sheet for Filter, the numbered sections in Add Employee, the list of people in Existing Employee, and the bell icon in Send Reminders. All labels, buttons and sample data are the live ones.

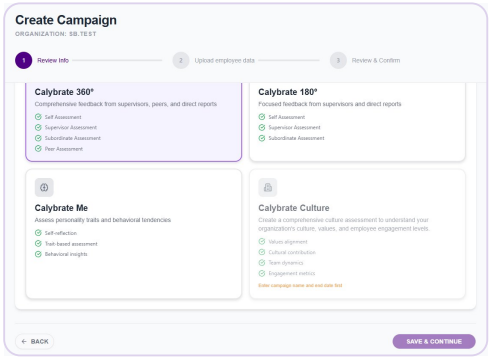
Campaigns | Create Campaign: current screens

CURRENT

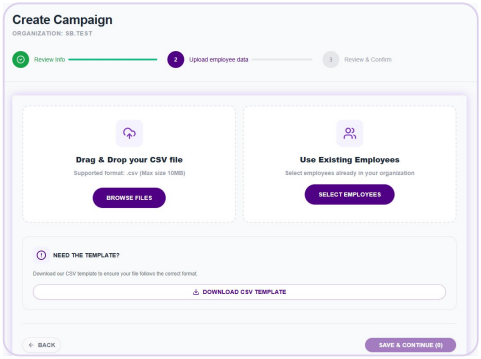
STEP 1 Review Info | STEP 2 Upload employee data | STEP 3 Review & Confirm | CULTURE



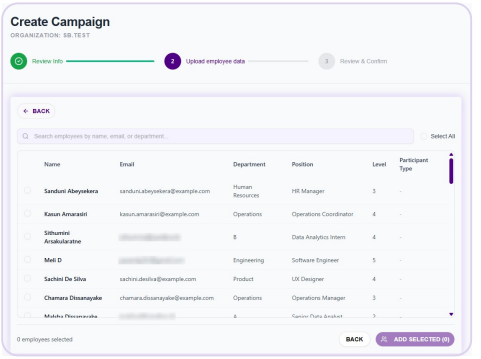
1 Name, end date, type



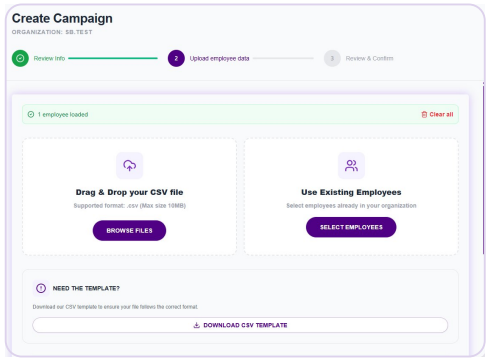
1 Types (Culture locked)



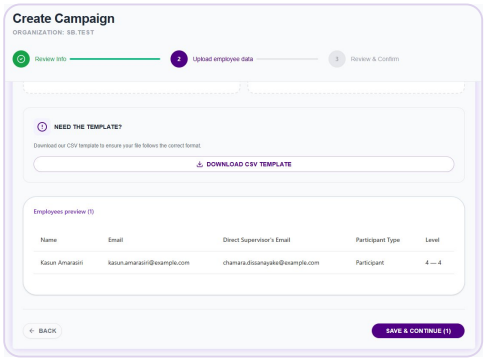
2 Upload or existing



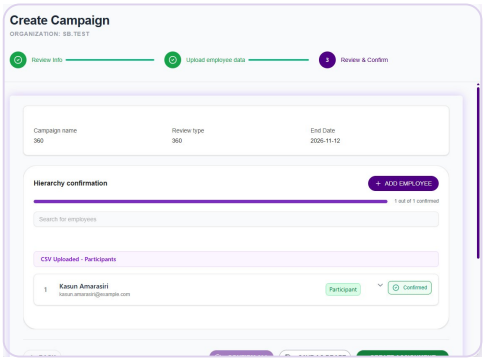
2 Existing employees



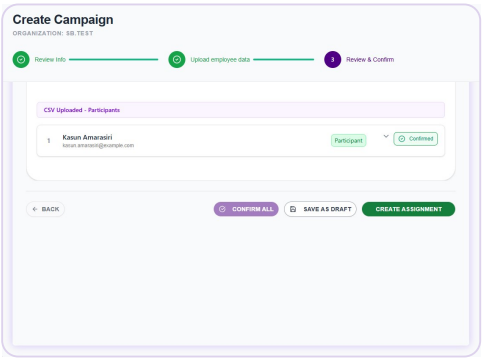
2 1 employee loaded



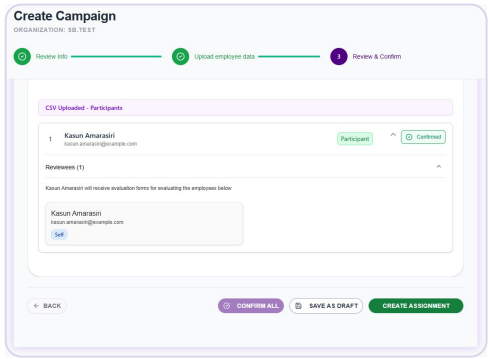
2 Employees preview



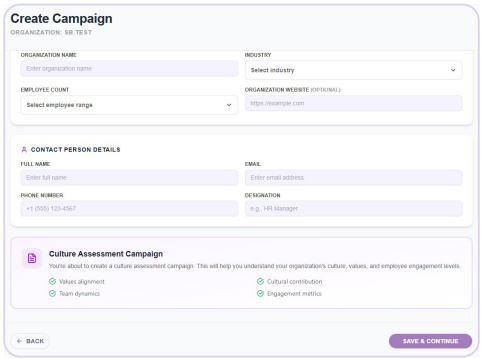
3 Hierarchy confirmation



3 Confirm / draft / create



3 Reviewees expanded



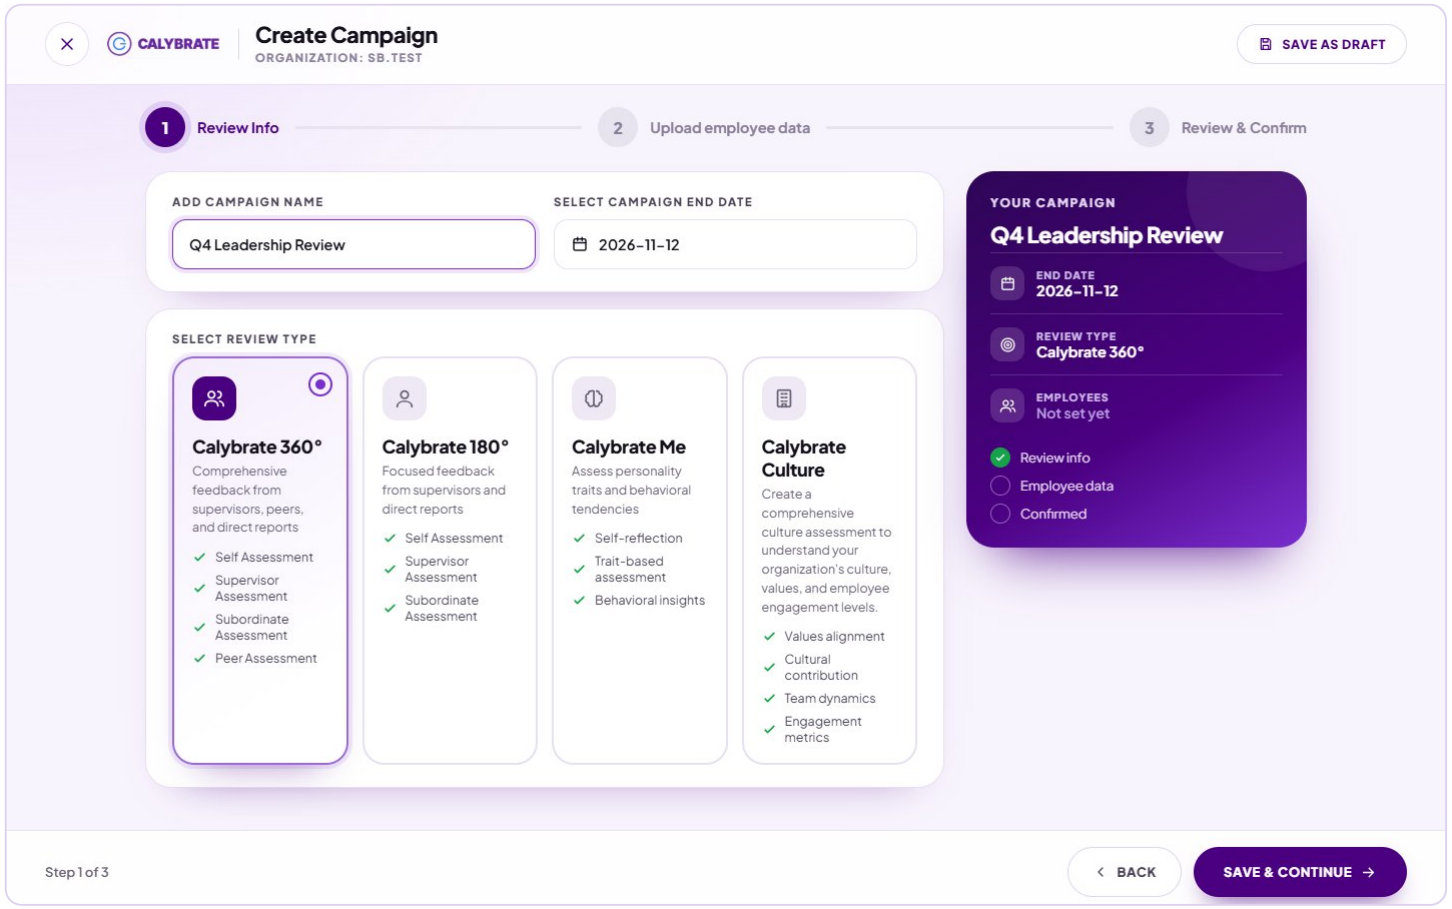
Culture: organization form

Employee emails that were not example addresses are blurred.

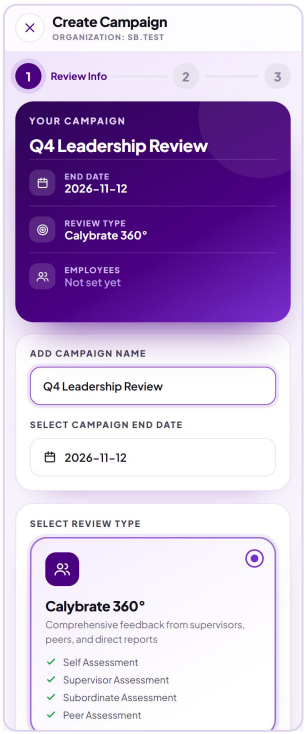
Create Campaign | Step 1: Review Info

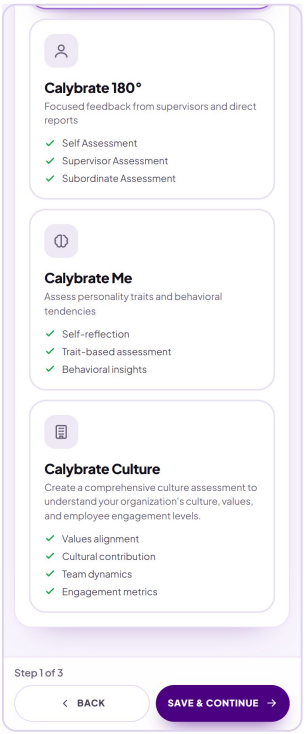
SUGGESTED

LAPTOP



MOBILE



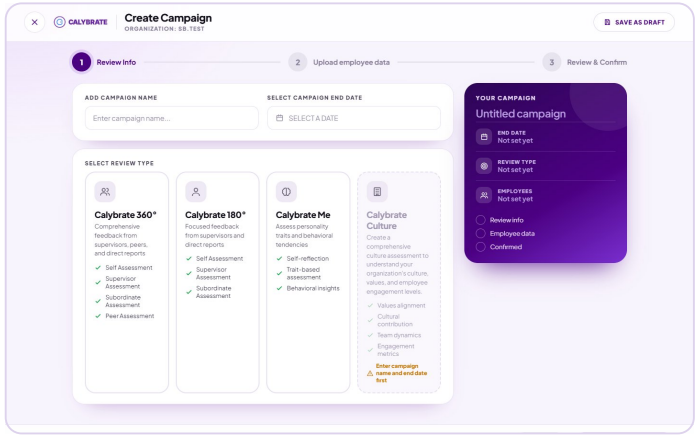


ON SCREEN

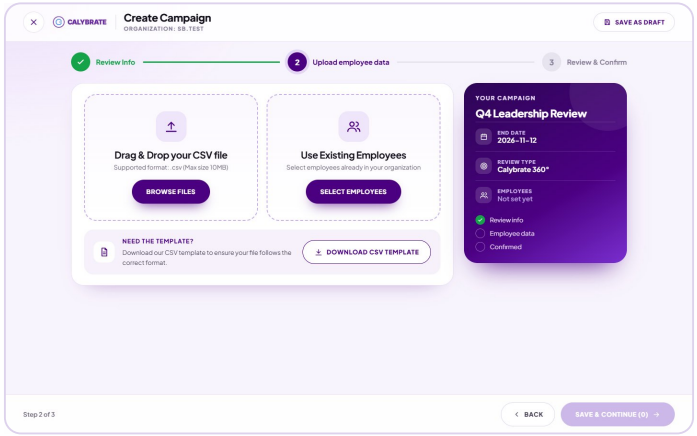
1. Full window, no scrolling card → 2. Live summary panel → 3. Four type cards in one row → 4. Save & Continue asks first

All live labels kept. New: the summary panel, the SAVE AS DRAFT button in the top bar, and a close X.

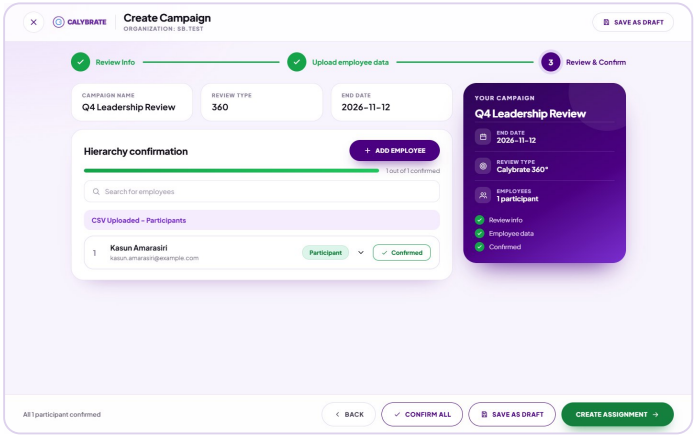
SUGGESTED



1 **Step 1 empty: Culture locked, with its live hint**



2 **Step 2 empty: Save & Continue (0) is pale**



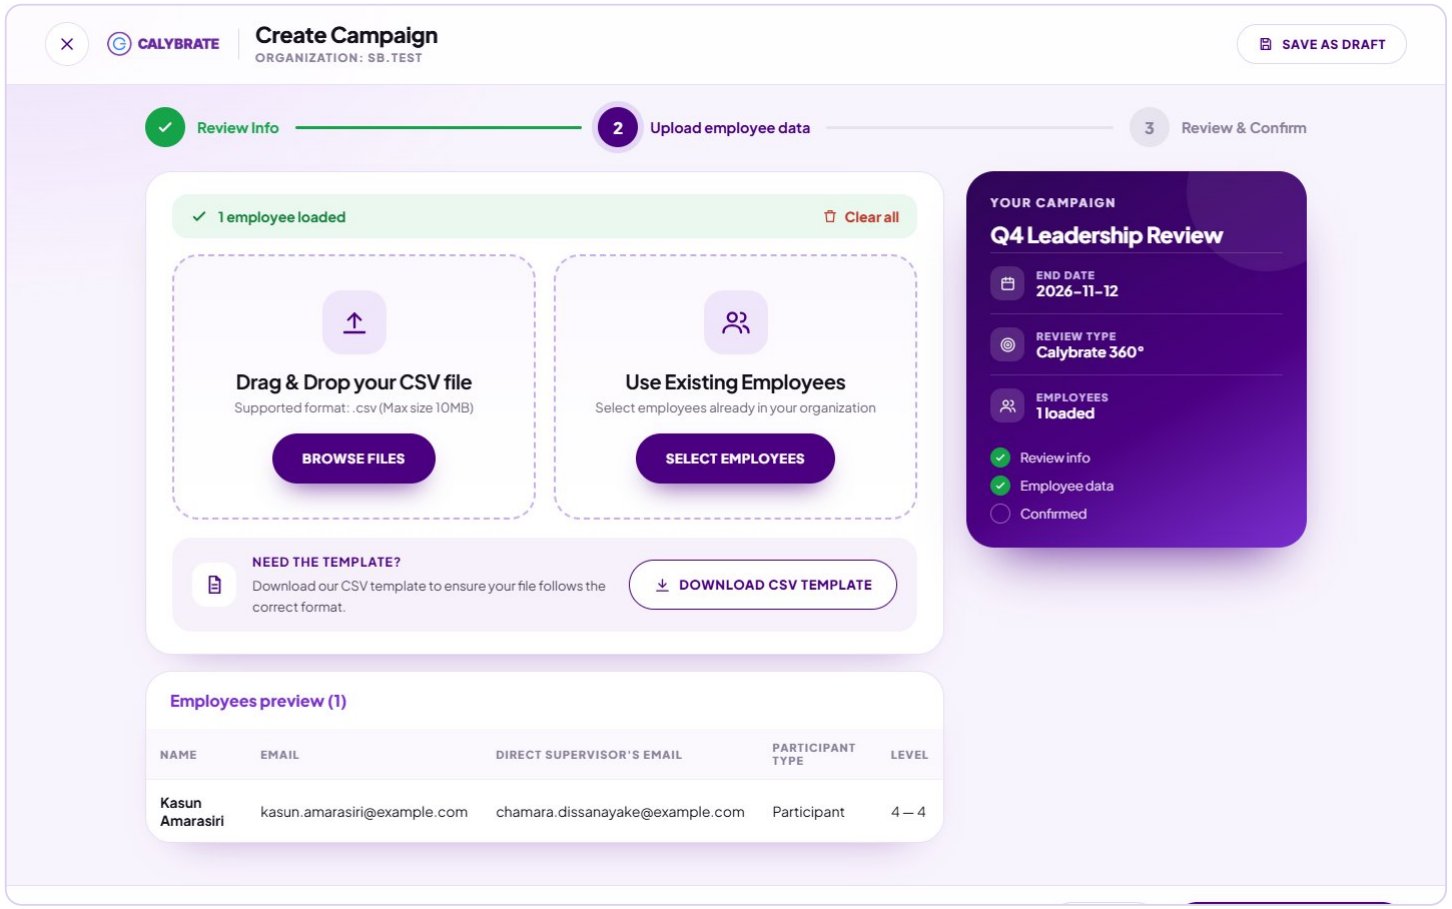
3 **Step 3: one participant confirmed**

- Culture stays locked until a name and end date are filled, exactly as on the live page. When unlocked it is selectable like the others.
- The summary panel on the right fills in as you go and shows which steps are done, so nobody has to guess where they are.
- Save & Continue stays pale until the step is complete; the left of the bar says which step you are on.
- On a phone the summary moves to the top and the bar keeps BACK and SAVE & CONTINUE at the bottom.

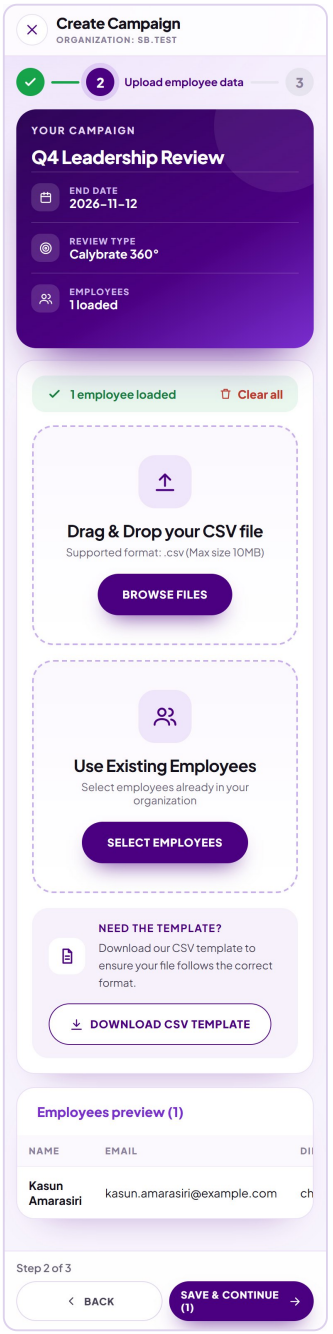
Create Campaign | Step 2: Upload employee data

SUGGESTED

LAPTOP



MOBILE



ON SCREEN

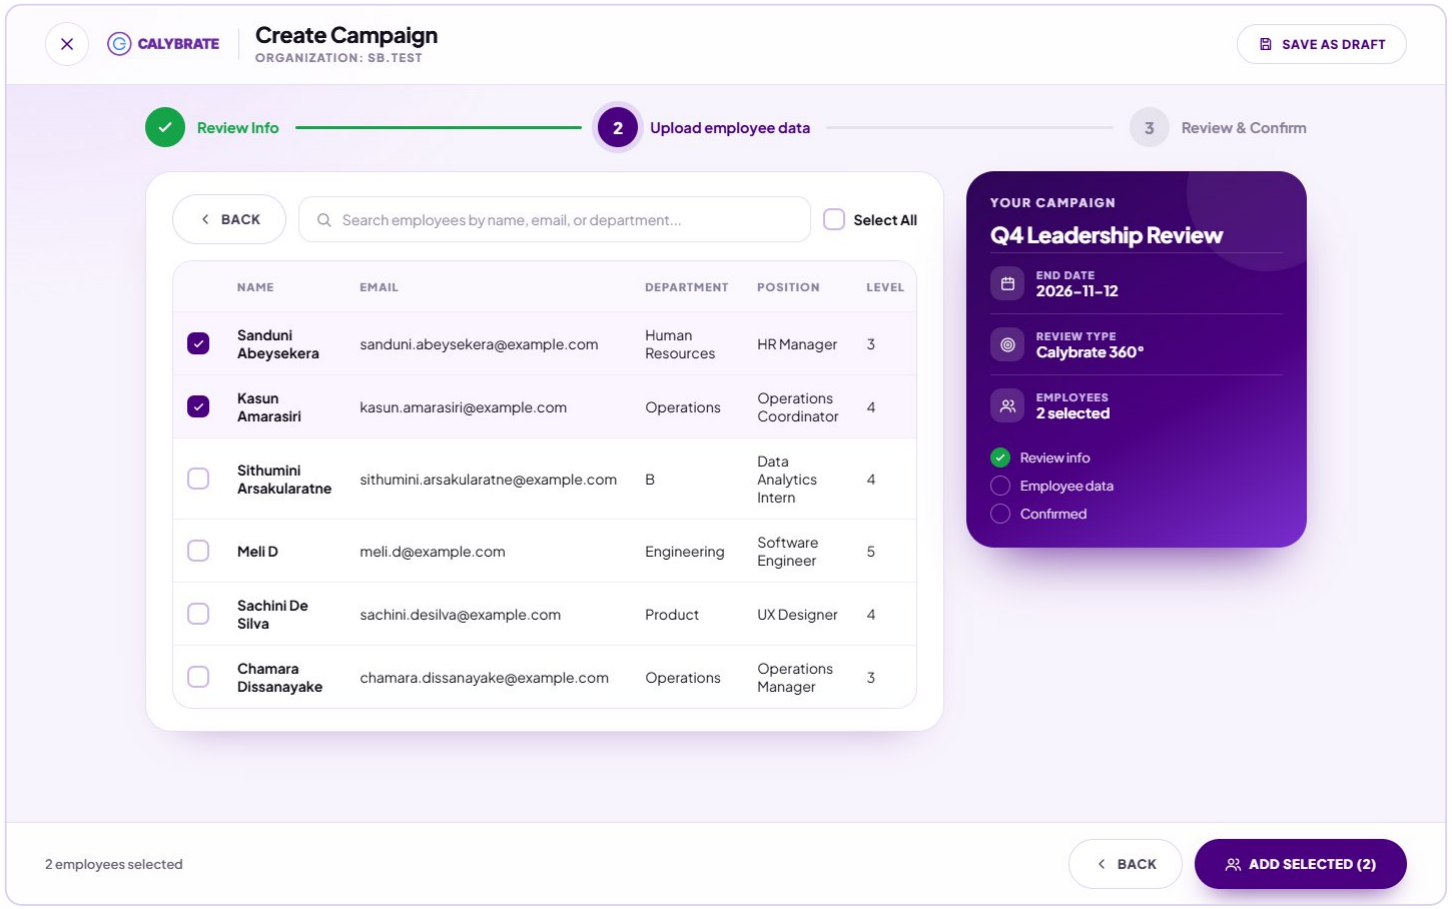
1. Two large choices → 2. Template box → 3. Employees preview fills in → 4. Clear all asks first

Live wording kept: Drag & Drop your CSV file, Use Existing Employees, NEED THE TEMPLATE?, 1 employee loaded, Employees preview (1).

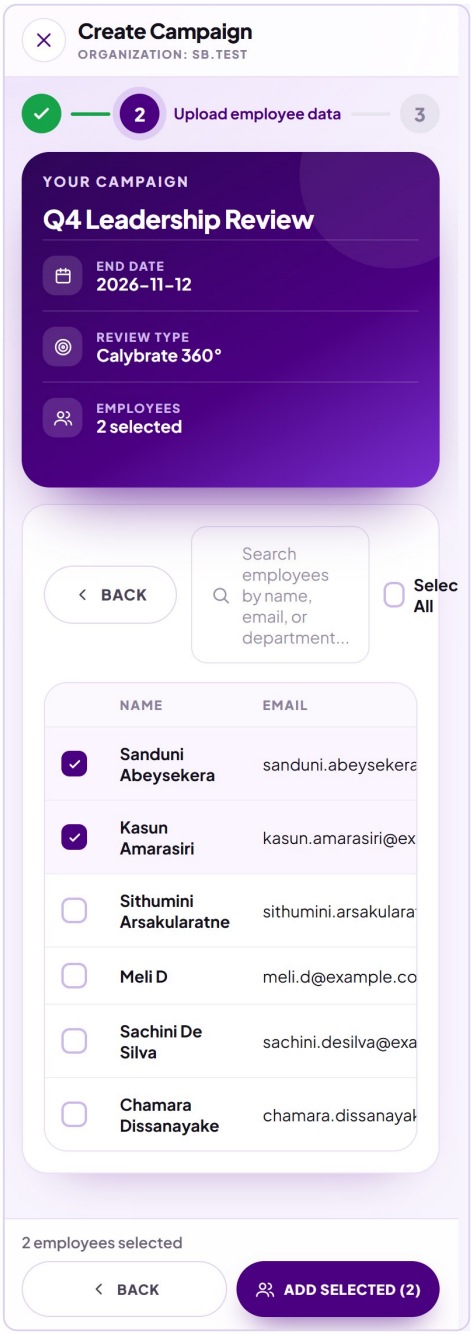
Create Campaign | Step 2: Select existing employees

SUGGESTED

LAPTOP



MOBILE



ON SCREEN

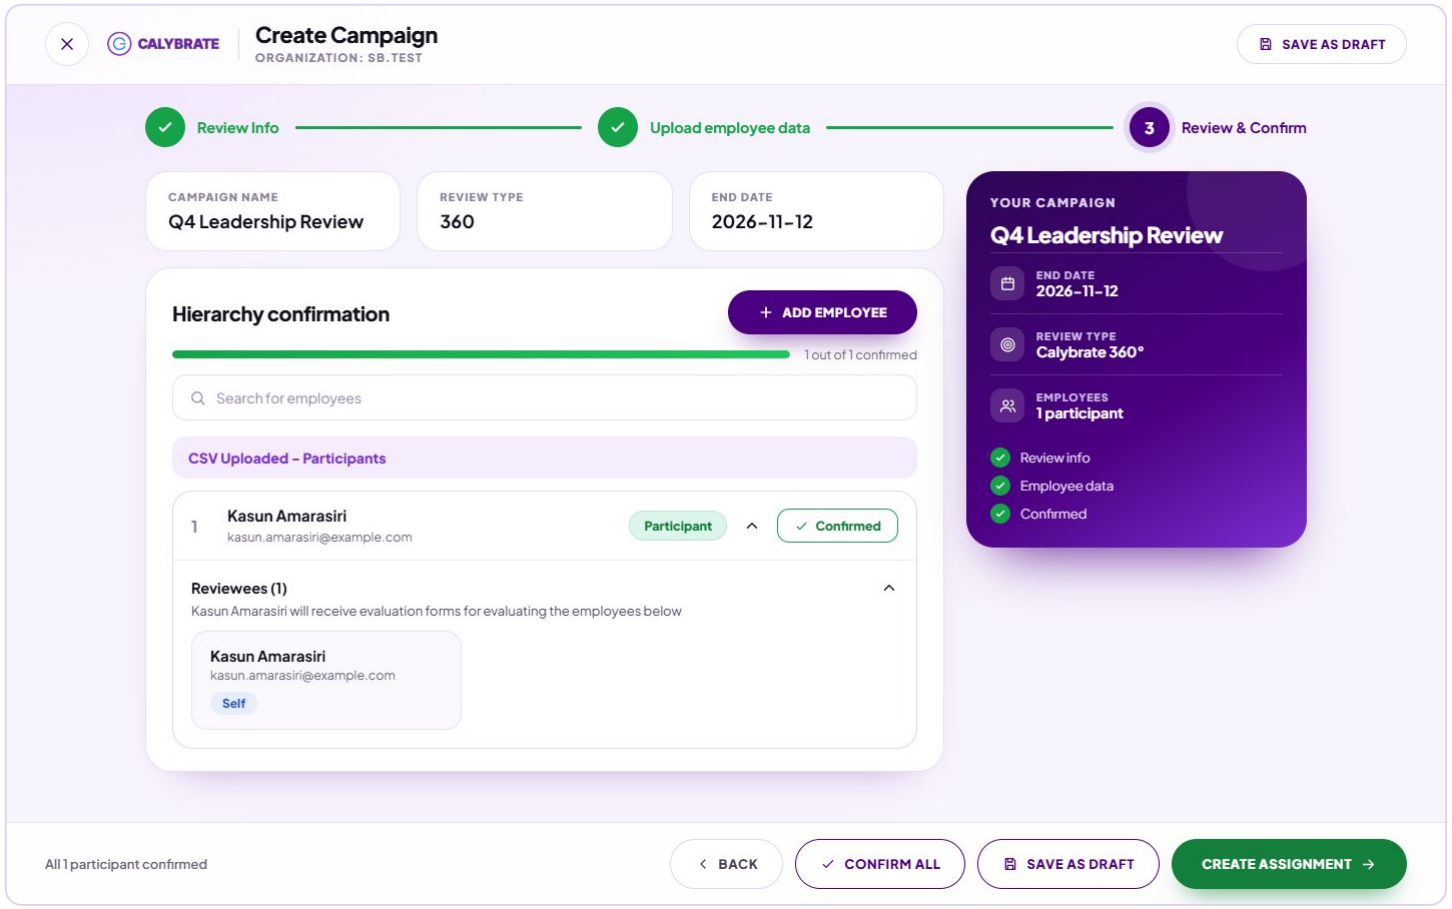
1. Search filters the list → 2. Rows tick purple → 3. Counter in the bar → 4. ADD SELECTED (2)

Same columns as live (Name, Email, Department, Position, Level, Participant Type). Names are examples.

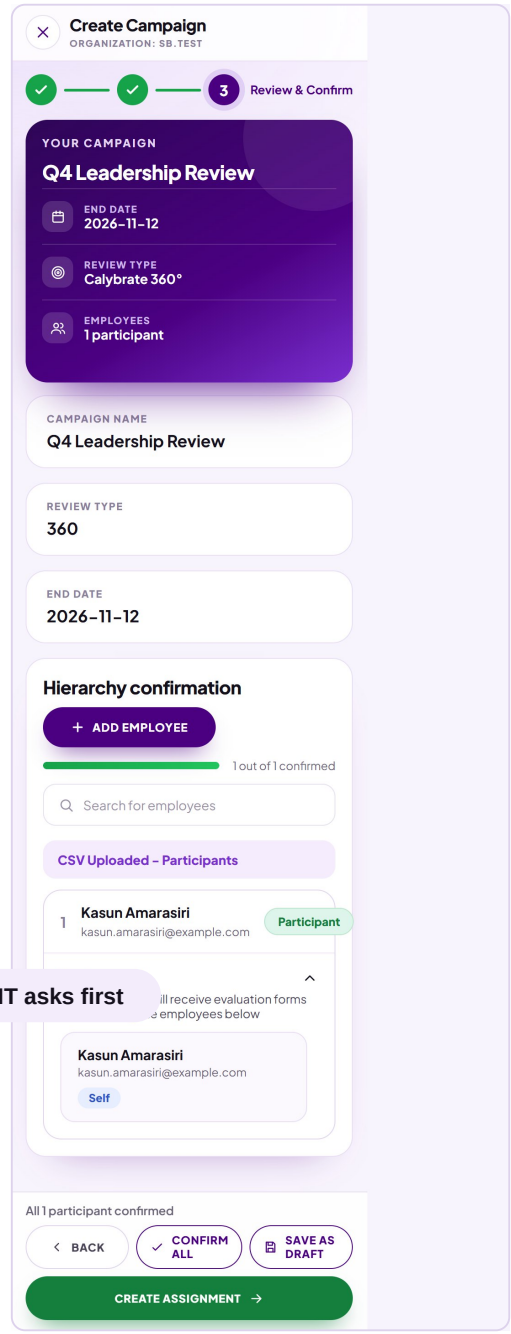
Create Campaign | Step 3: Review & Confirm

SUGGESTED

LAPTOP



MOBILE



ON SCREEN

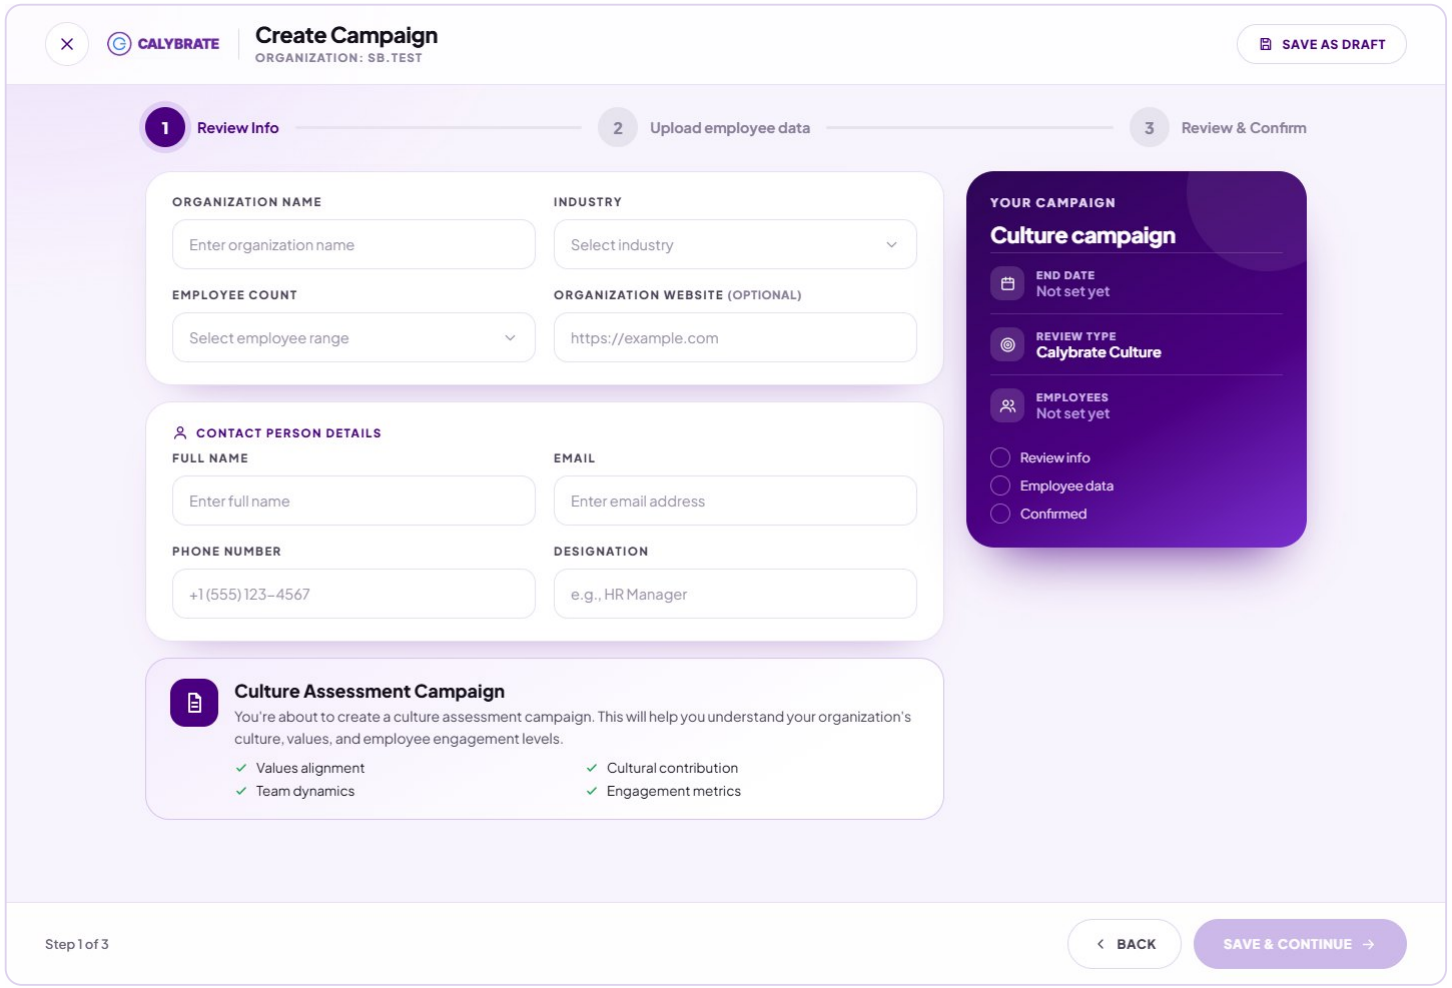
1. Three summary tiles → 2. Progress bar fills → 3. Row expands to reviewees → 4. CREATE ASSIGNMENT asks first

Live wording kept: Hierarchy confirmation, 1 out of 1 confirmed, CSV Uploaded - Participants, Reviewees (1), CONFIRM ALL, SAVE AS DRAFT, CREATE ASSIGNMENT.

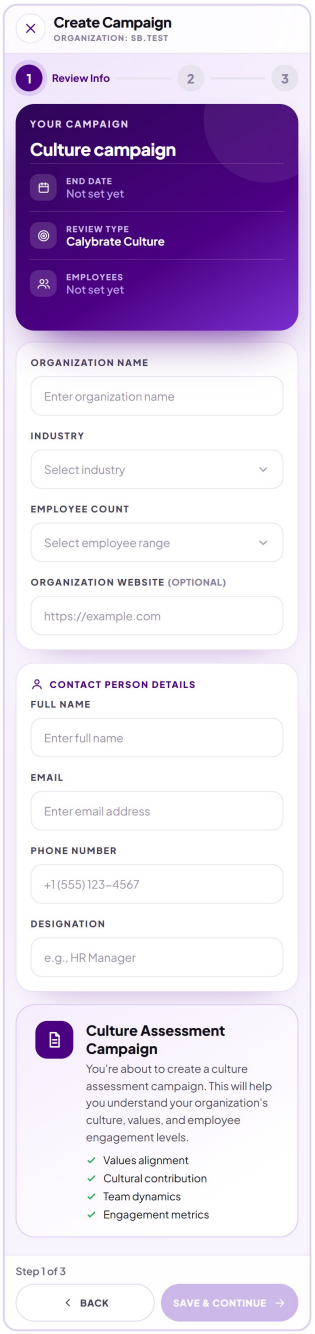
Create Campaign | Culture: organization form

SUGGESTED

LAPTOP



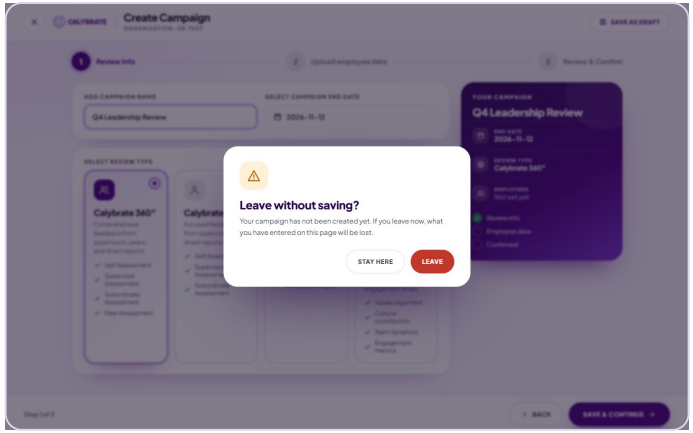
MOBILE



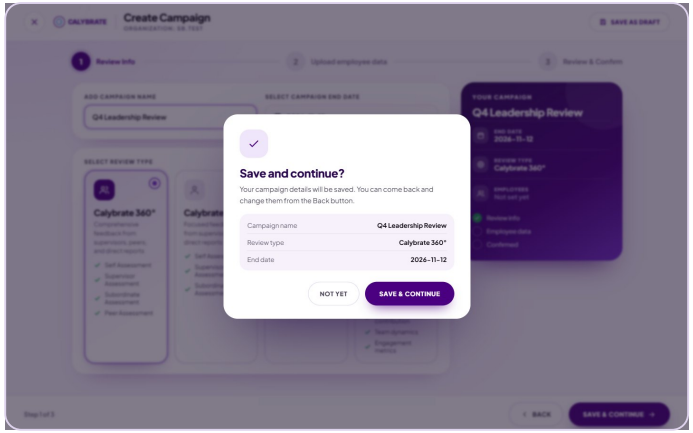
ON SCREEN

1. Two cards, same fields → 2. Info card keeps live text → 3. Summary shows Culture

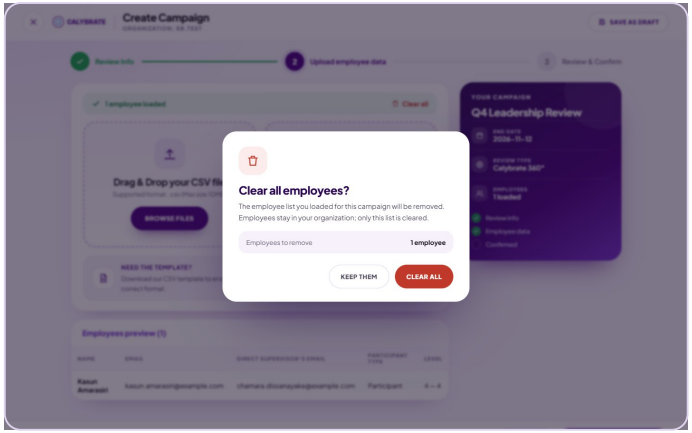
All fields and the info card text are the live ones. The 3-step bar is assumed, because the stepper was not visible in your screenshot.



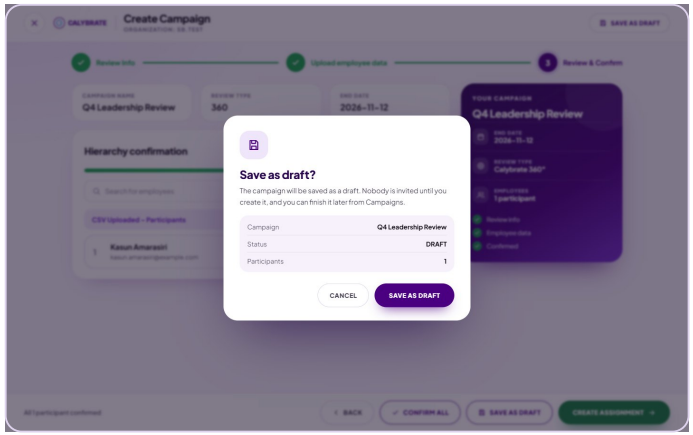
Leave without saving? (X or Back on step 1)



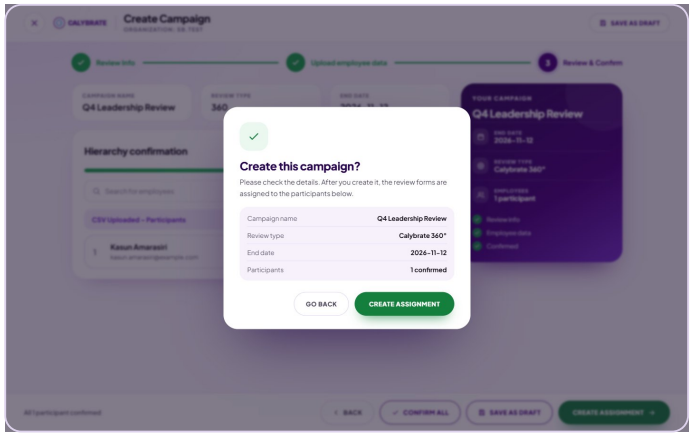
Save and continue?



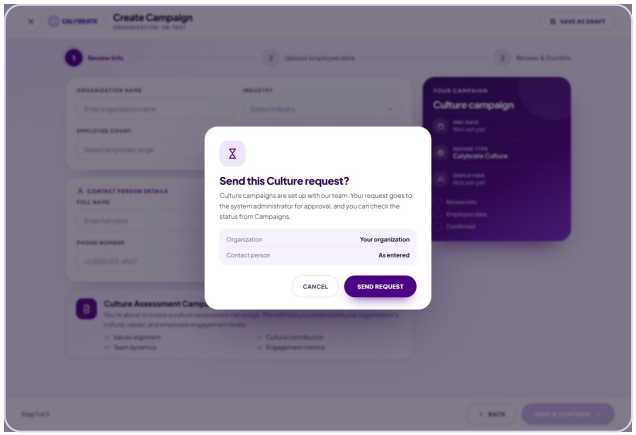
Clear all employees?



Save as draft?



Create this campaign?

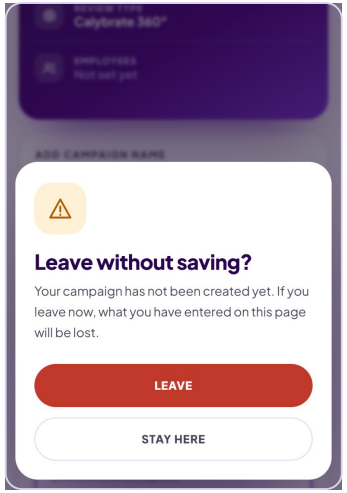


Send this Culture request?

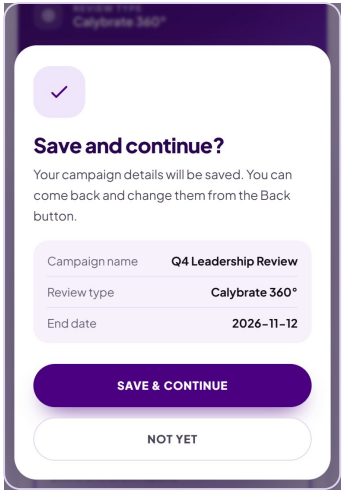
Every important action asks first: leaving, continuing, clearing, saving a draft, creating, and sending a Culture request. Each popup repeats the details that matter and has a clear cancel button. All popup wording is new, because the live flow has no confirmations.

Create Campaign | Confirmation popups (mobile)

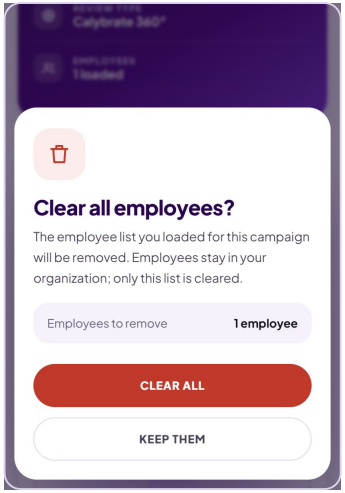
SUGGESTED



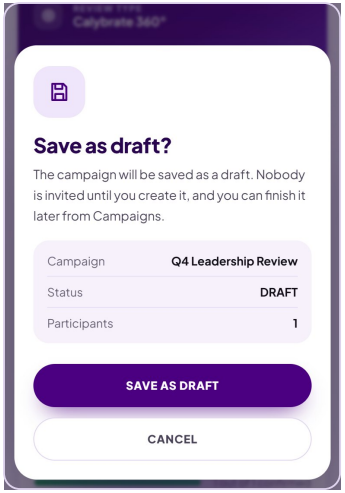
Leave without saving?



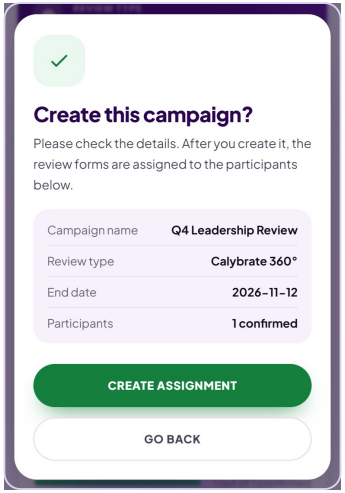
Save and continue?



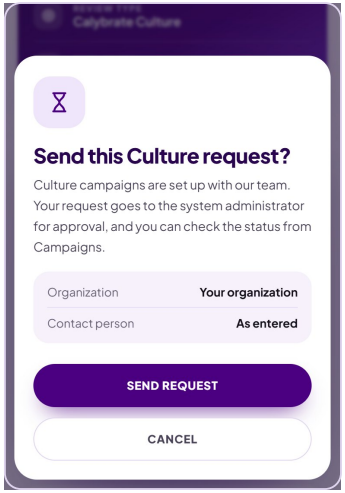
Clear all employees?



Save as draft?



Create this campaign?



Send this Culture request?

ON SCREEN

1. Sheet slides up → 2. Details repeated → 3. Confirm is the full-width button

HIGH	**No confirmations**	Clear all, SAVE AS DRAFT, CREATE ASSIGNMENT, leaving with the Back button, and sending a Culture request all happen with no question. The redesign asks first, with the key details in each popup.
HIGH	**Culture looks unavailable**	The Culture card is greyed with a small orange hint, and the flow then shows a request form. It is not clear that the request goes to approval (roadmap 28 to 31). The popup now says so; the Awaiting approval page follows.
MED	**Name shows the type**	In the step 3 screenshot the Campaign name reads 360, the same as the review type. Check the name you type is carried through.
MED	**Where am I?**	The live page is a scrolling card inside a page with a header that takes space. The redesign is a full window with a fixed bar and a live summary of name, end date, type and employees.
MED	**Participant Type**	The existing-employee list shows a dash for every Participant Type, yet step 3 shows Participant. How the type gets set is not visible.
MED	**Upload only**	The roadmap also lists HRIS sync (34A) and Quick assessment (36). Neither appears in this flow; only CSV and existing employees do.
MED	**Create is not Launch**	Roadmap 41 is Launch. This flow ends with CREATE ASSIGNMENT. Say whether the campaign goes live now or stays a draft.
LOW	**Small things**	Dates read 2026-11-12 here and Nov 12, 2026 elsewhere; Level shows 4 - 4; Save & Continue (0) is pale without a reason; CONFIRM ALL is pale when everything is confirmed.
LOW	**Roadmap**	Matches 24 to 26 (create, choose type), 30 and 33 to 38 (CSV or existing team members, add employee) and 40A (revise and confirm).

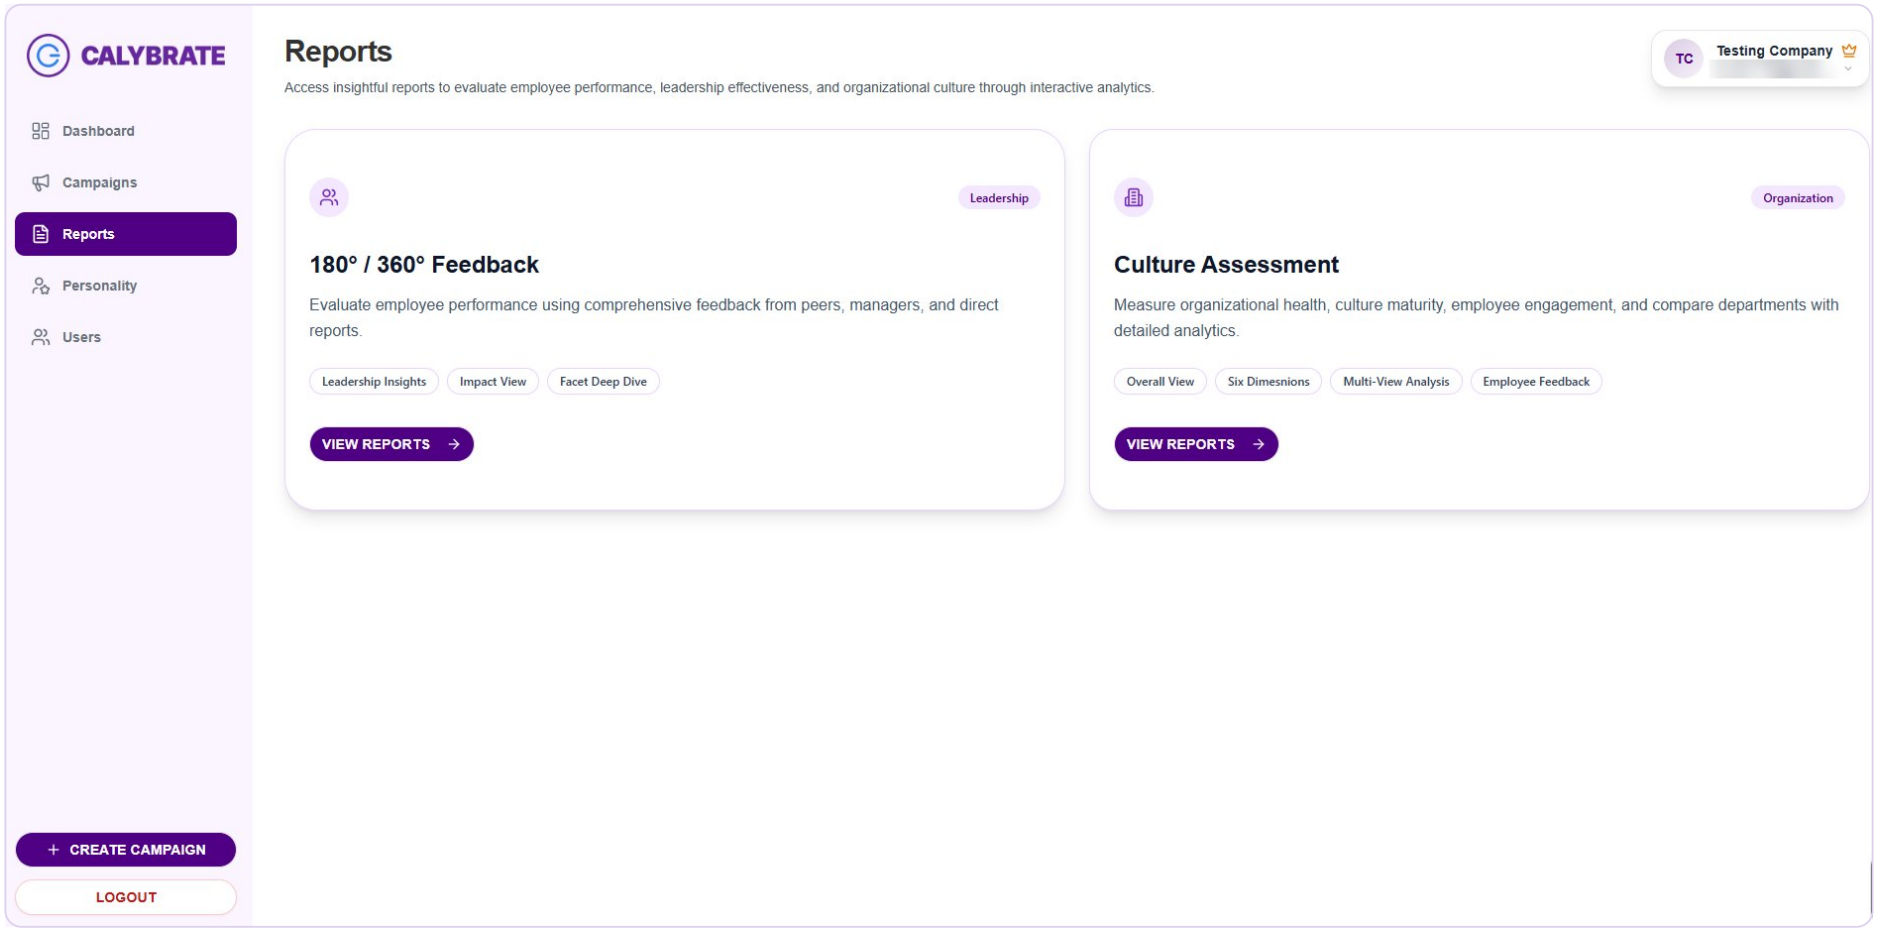
NEW IN THE MOCKUPS (NOT ON THE LIVE PAGE)

The full-window layout, the summary panel, the close X and SAVE AS DRAFT in the top bar, the six confirmation popups, and the example campaign name Q4 Leadership Review. All labels, fields, checklists and helper text are the live ones. Employee names are examples.

Super Admin | Reports | Landing

CURRENT

SUPER ADMIN



WHAT YOU SEE

- Title "Reports": Access insightful reports to evaluate employee performance, leadership effectiveness, and organizational culture through interactive analytics.
- Card 180° / 360° Feedback (tag Leadership): Leadership Insights, Impact View, Facet Deep Dive.
- Card Culture Assessment (tag Organization): Overall View, Six Dimesnions, Multi-View Analysis, Employee Feedback.
- Each card has VIEW REPORTS.

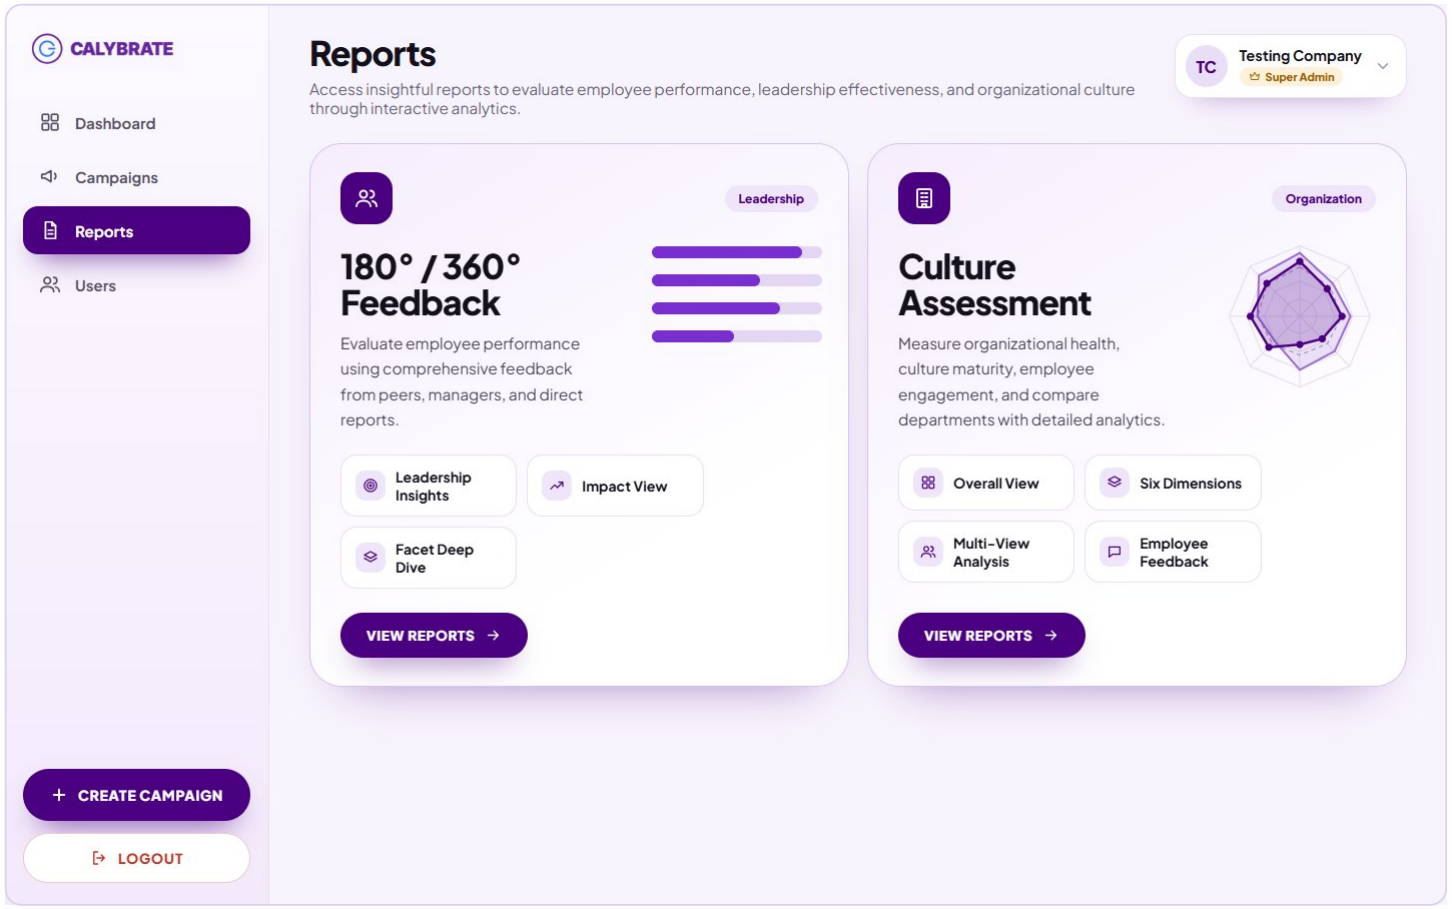
NOTES

- Same for Super Admin and Admin (to confirm).
- "Six Dimesnions" is misspelled on the live page.
- The small labels under each card look like buttons but it is not clear that they open that tab.
- Two cards fill the top third; the rest of the page is empty.
- The role shows only as a crown icon beside the company name.

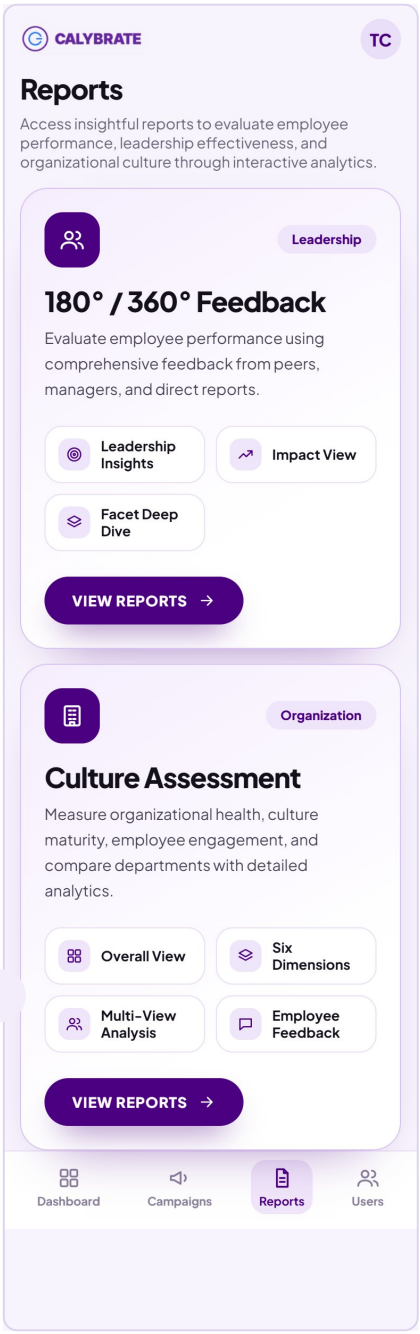
Email blurred.

SUGGESTED

LAPTOP



MOBILE

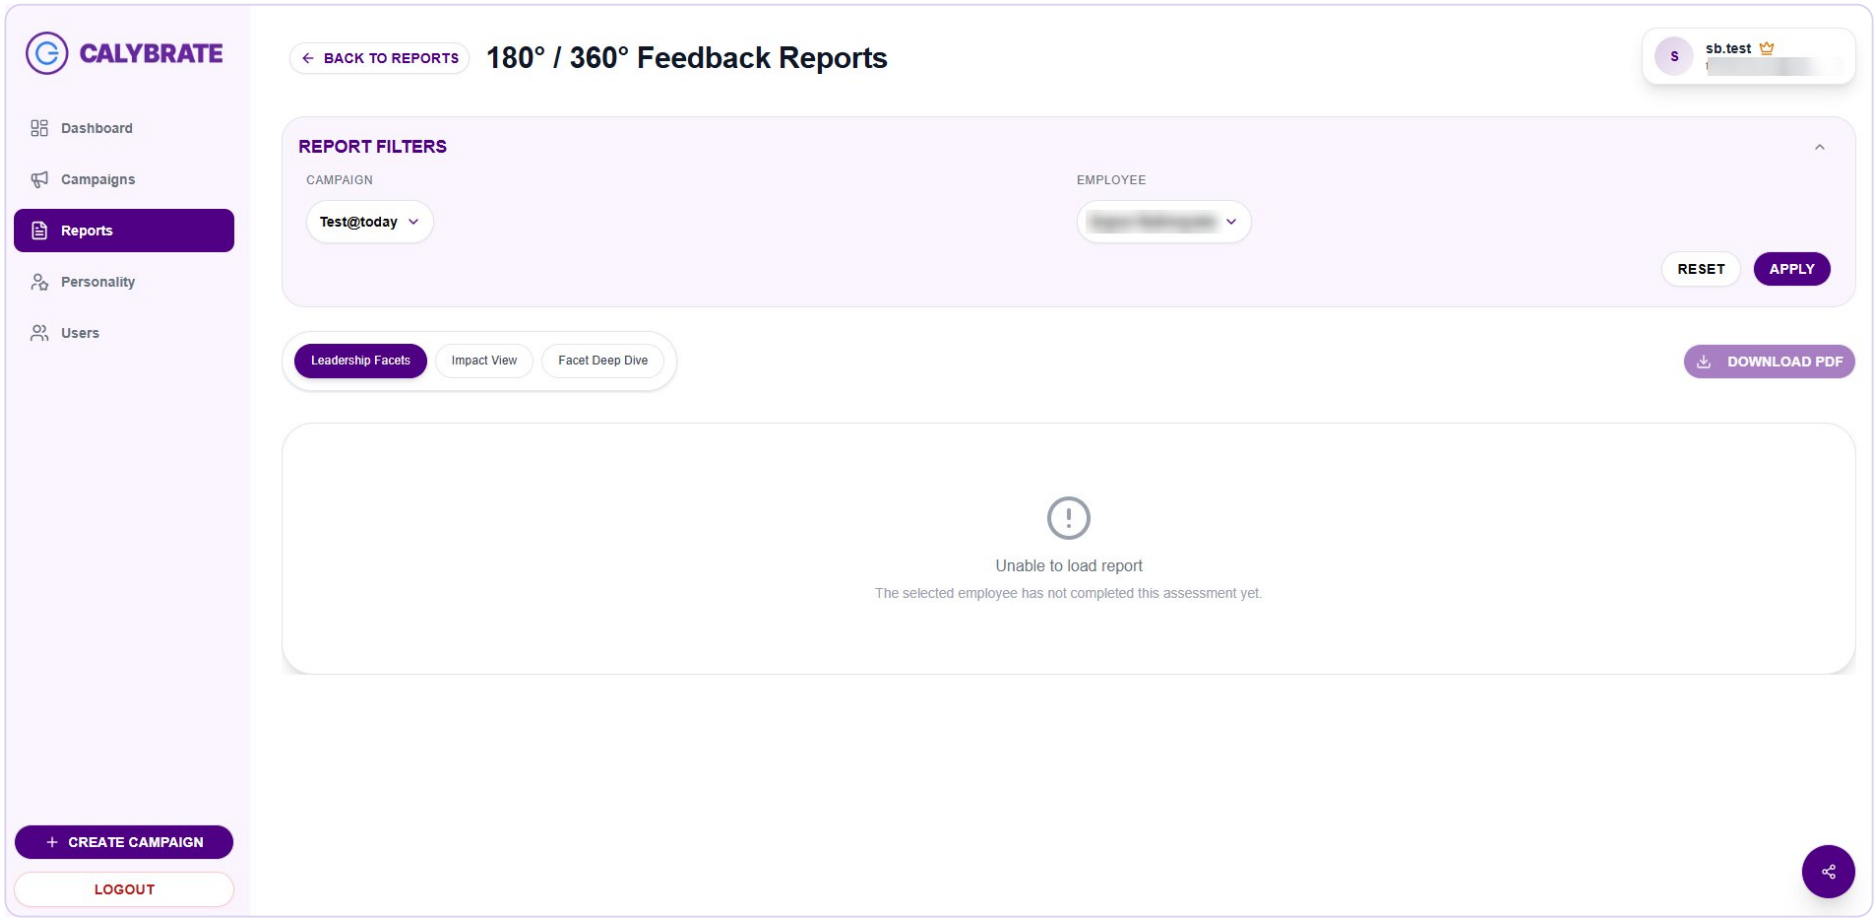


ON SCREEN

1. Cards rise in → 2. Chart picture draws in → 3. Tiles lift on hover → 4. VIEW REPORTS opens the report

Wording is the live wording; "Six Dimensions" is spelled correctly here.

SUPER ADMIN



WHAT YOU SEE

- Back to reports and the title 180° / 360° Feedback Reports.
- REPORT FILTERS (collapsible): Campaign (Test@today), Employee, RESET, APPLY.
- Tabs: Leadership Facets, Impact View, Facet Deep Dive; DOWNLOAD PDF (pale).
- Message: Unable to load report. The selected employee has not completed this assessment yet.
- A round share button sits at the bottom right.

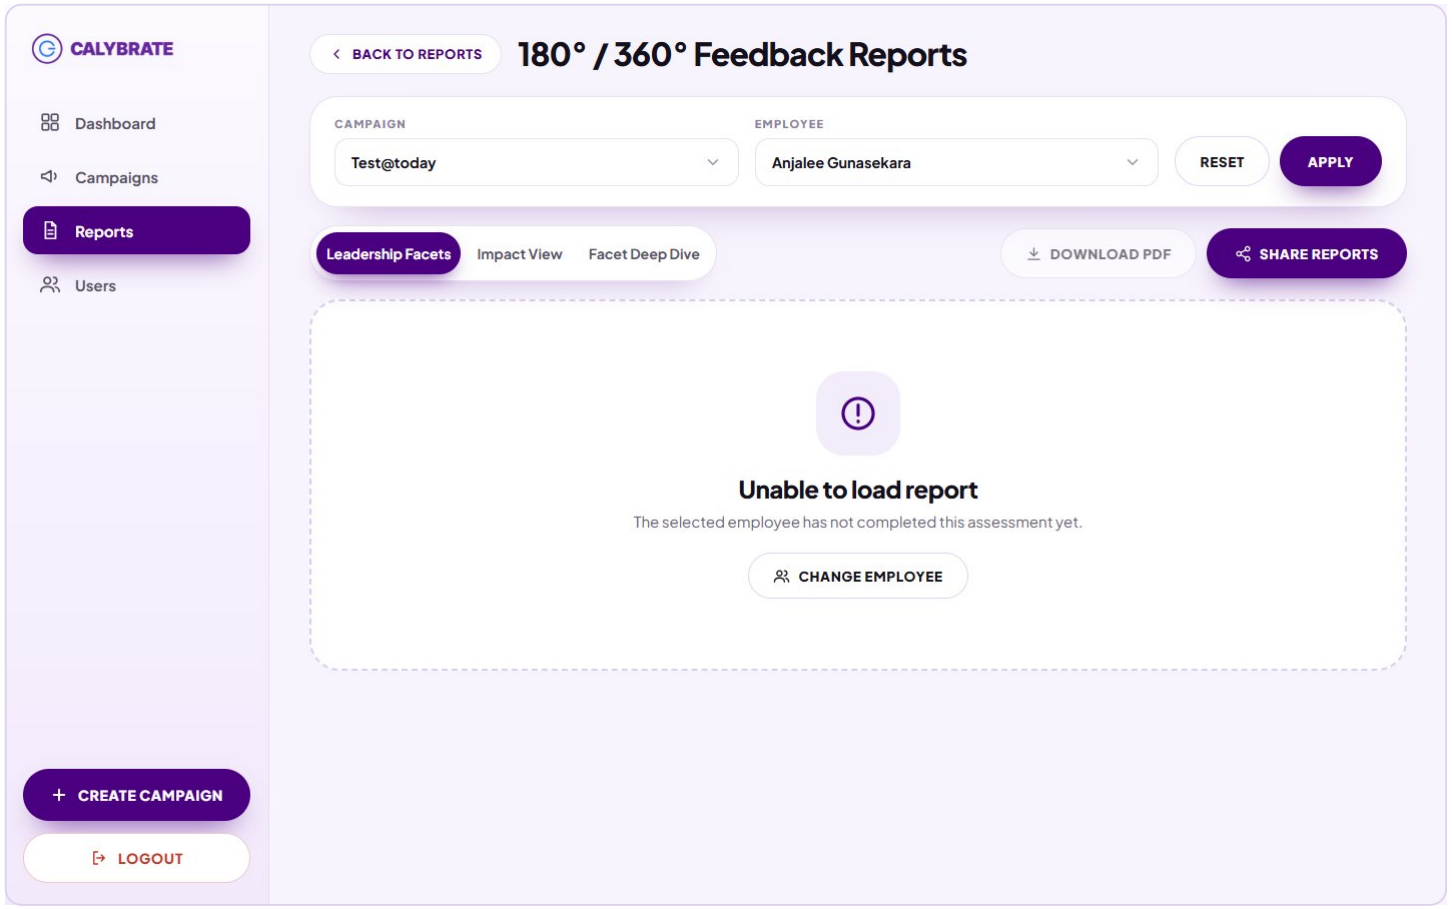
NOTES

- The first view people get is an error: the page opens on an employee who has not completed the assessment.
- The message gives no next step and does not say who has completed.
- DOWNLOAD PDF is pale with no reason shown.
- The share button is an unlabelled icon floating over the page.
- Report content (the three tabs) was not in the screenshots, so only the empty state is redesigned.
- Same for Super Admin and Admin (to confirm).

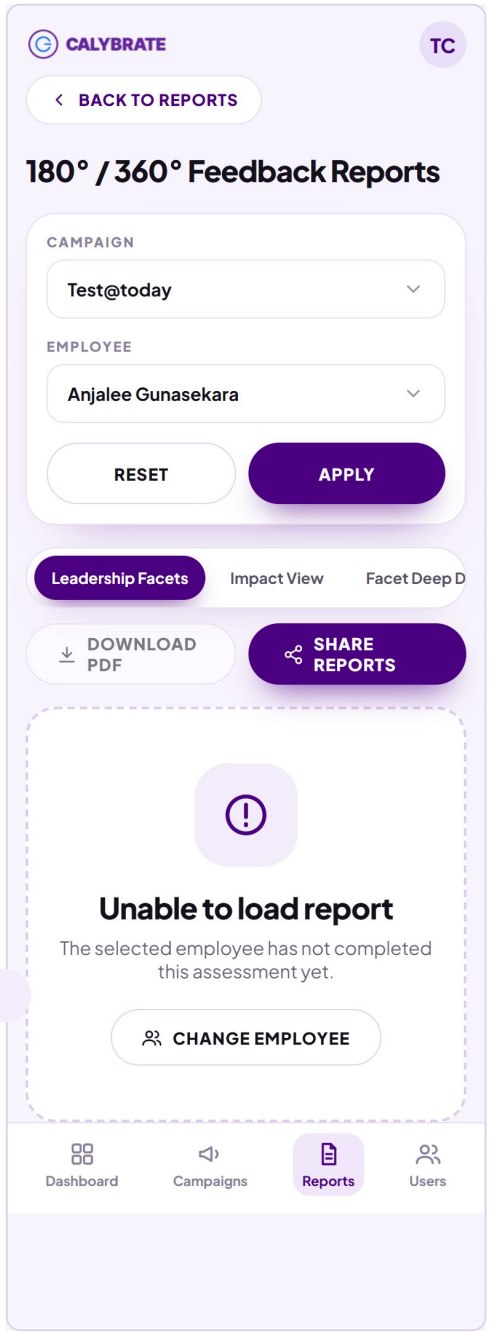
Email and employee name blurred.

SUGGESTED

LAPTOP



MOBILE

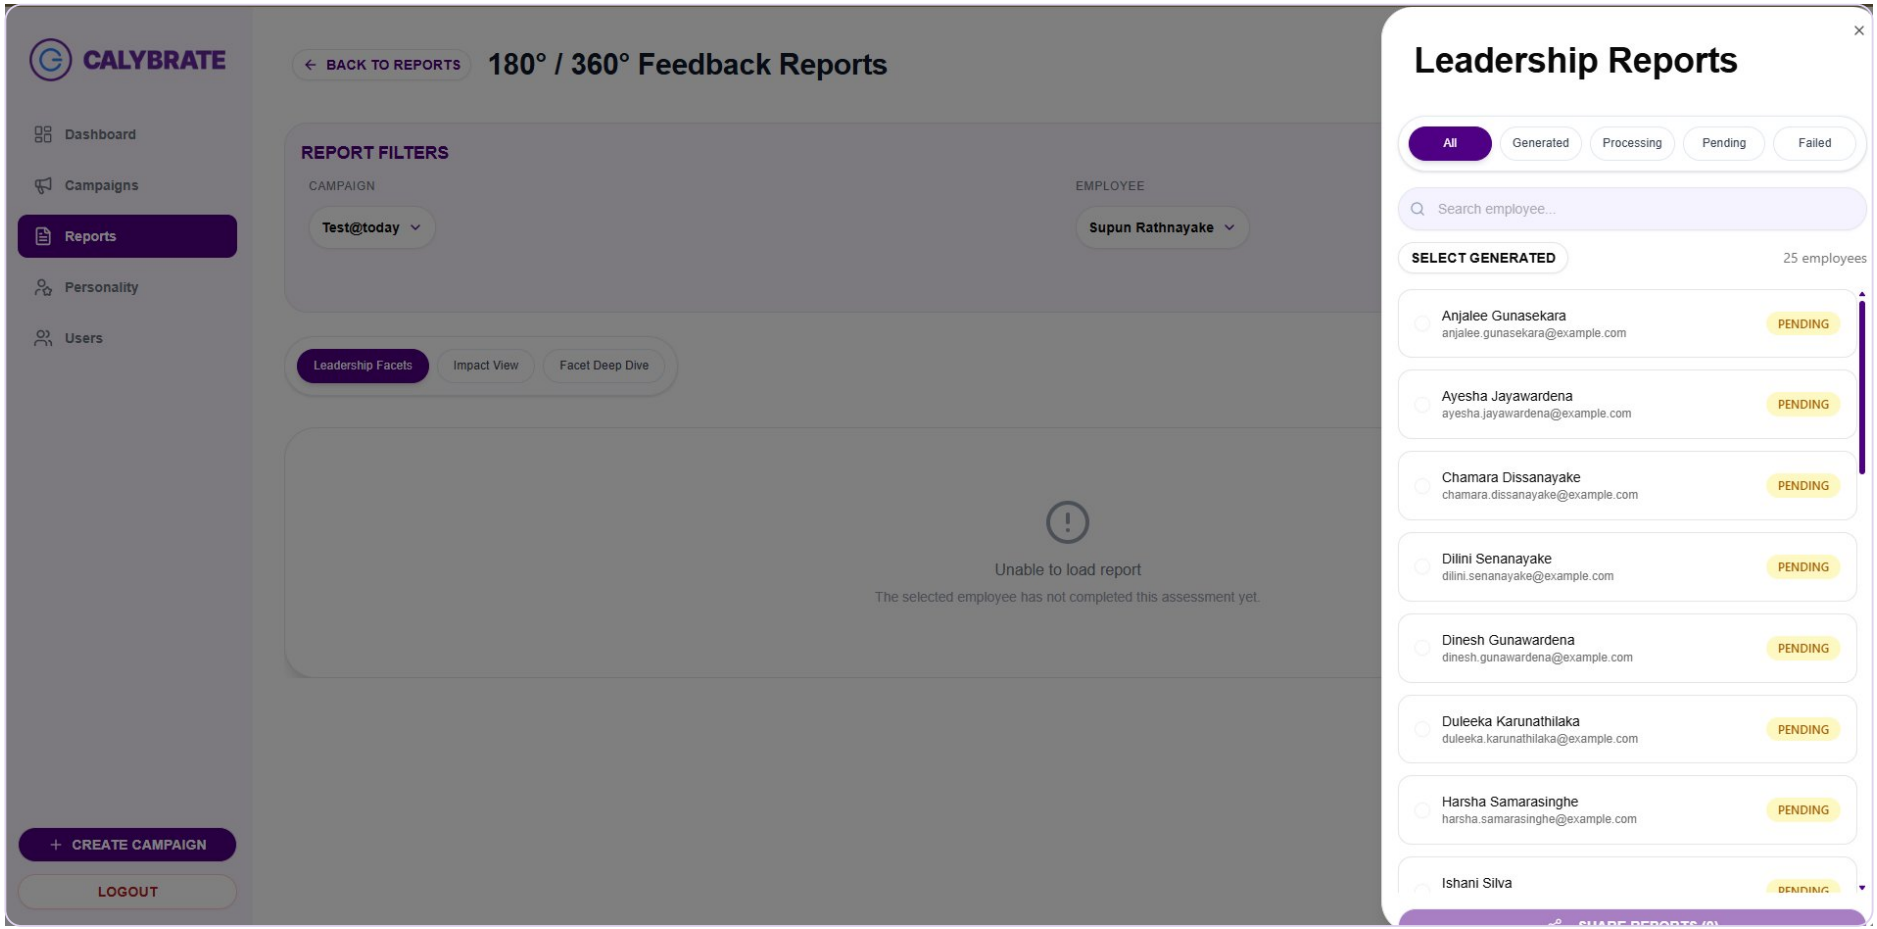


ON SCREEN

1. Filters stay in one card → 2. Tabs, download and share in one row → 3. Empty state offers CHANGE EMPLOYEE

New: the SHARE REPORTS label, the CHANGE EMPLOYEE button, and the dashed empty-state card. The employee shown is a sample.

SUPER ADMIN



WHAT YOU SEE

- Panel "Leadership Reports" opens from the right with a close X.
- Tabs: All, Generated, Processing, Pending, Failed. Search employee.
- SELECT GENERATED and "25 employees".
- Each employee shows name, email and PENDING. SHARE REPORTS (0) at the bottom.

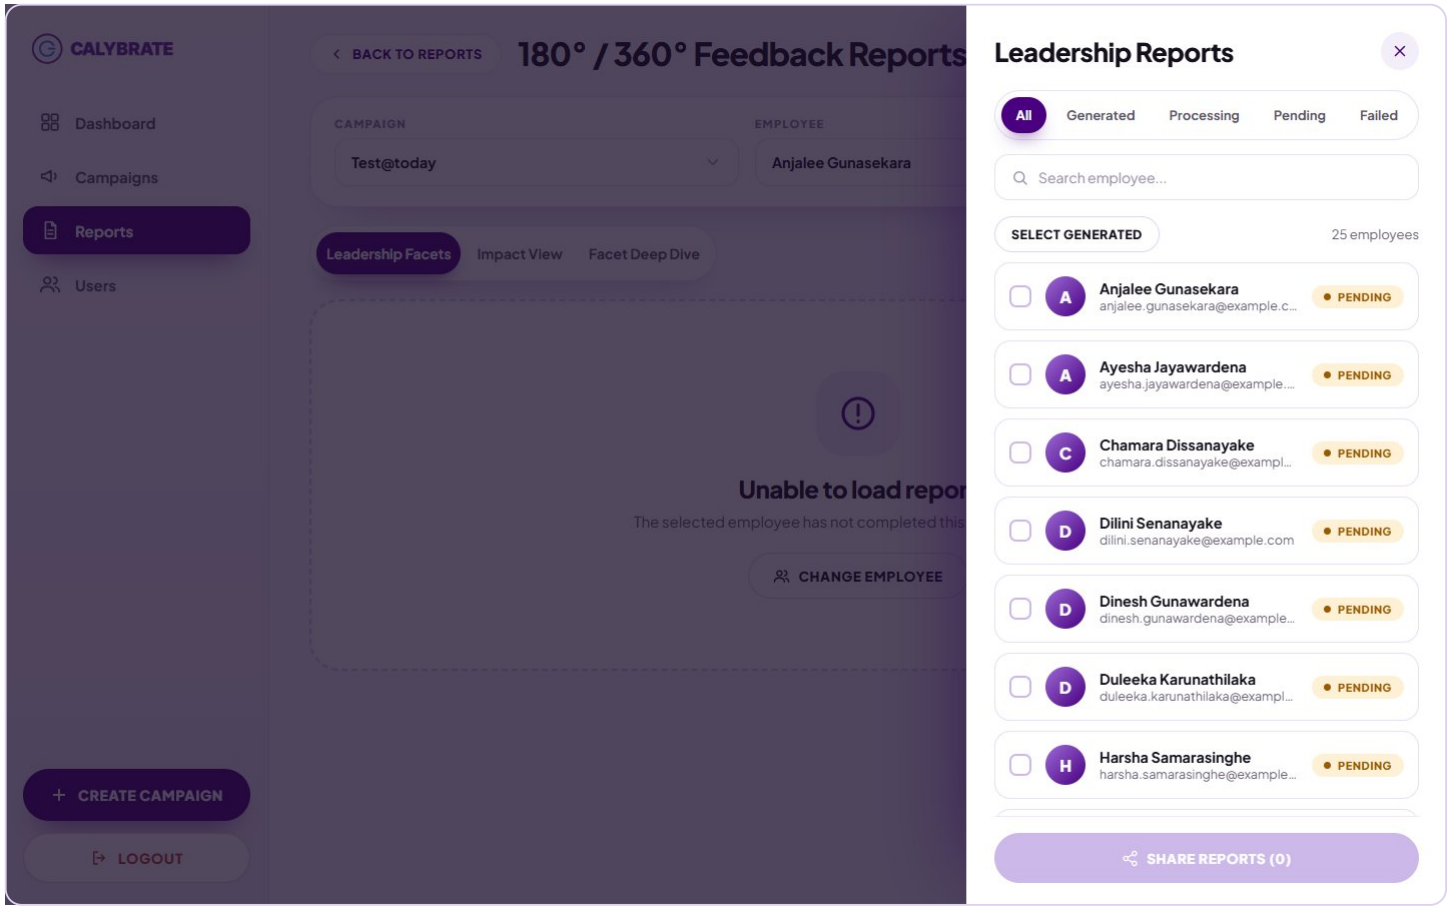
NOTES

- Every row is PENDING, so SHARE REPORTS (0) cannot be used and nothing explains why.
- The selection circles are tiny and faint.
- The SHARE REPORTS button is cut off at the bottom edge of the screen.
- SELECT GENERATED is available even when nothing is generated.
- Same for Super Admin and Admin (to confirm).

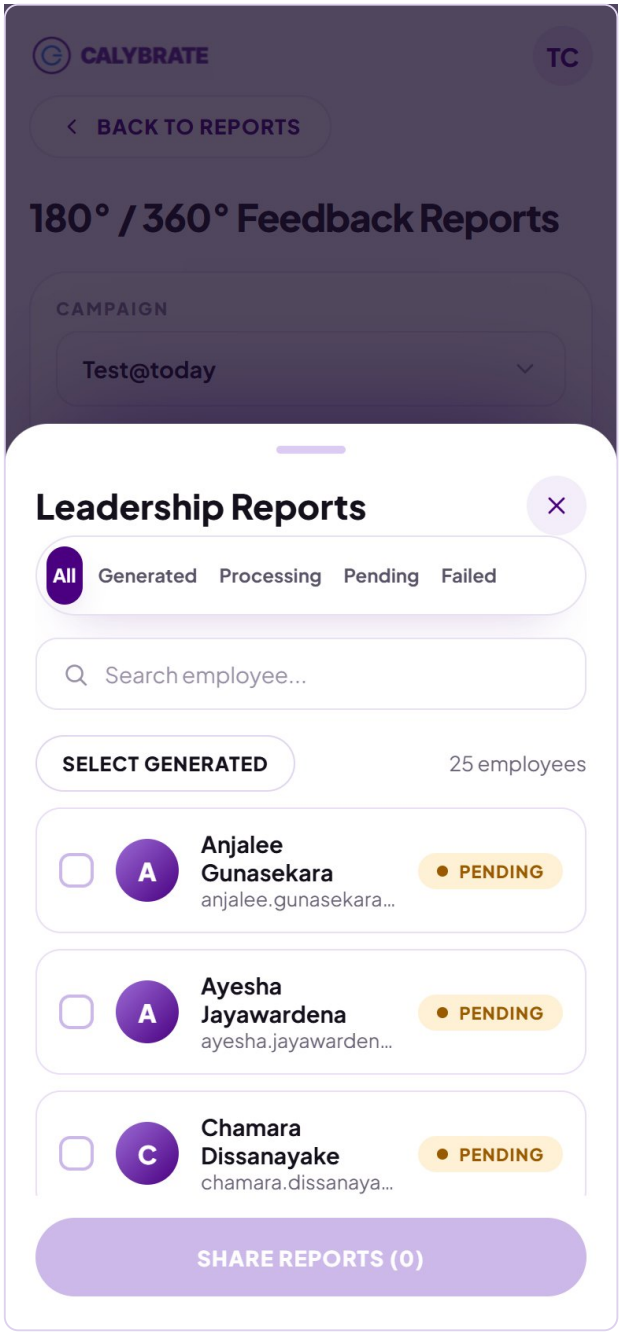
Employee emails are example addresses.

SUGGESTED

LAPTOP



MOBILE

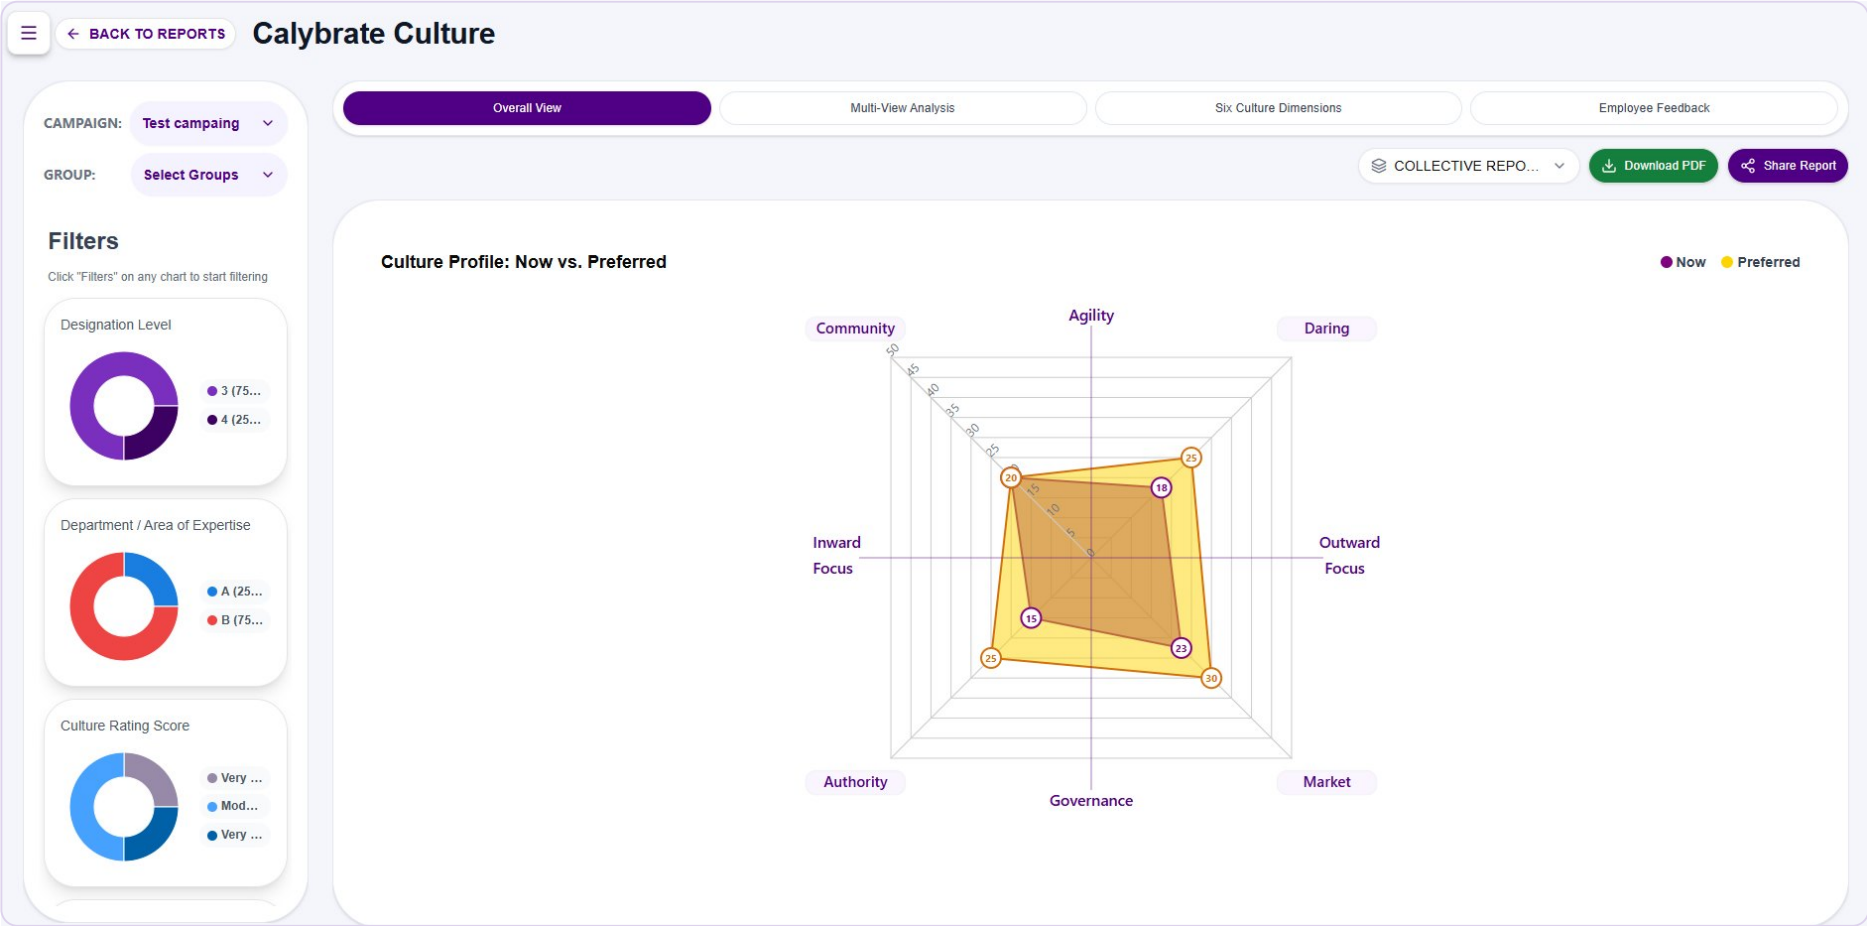


ON SCREEN

1. Panel slides in → 2. Tabs filter the list → 3. Button enables on select

On a phone the panel is a bottom sheet. Counts per tab were not visible, so none are shown.

SUPER ADMIN



WHAT YOU SEE

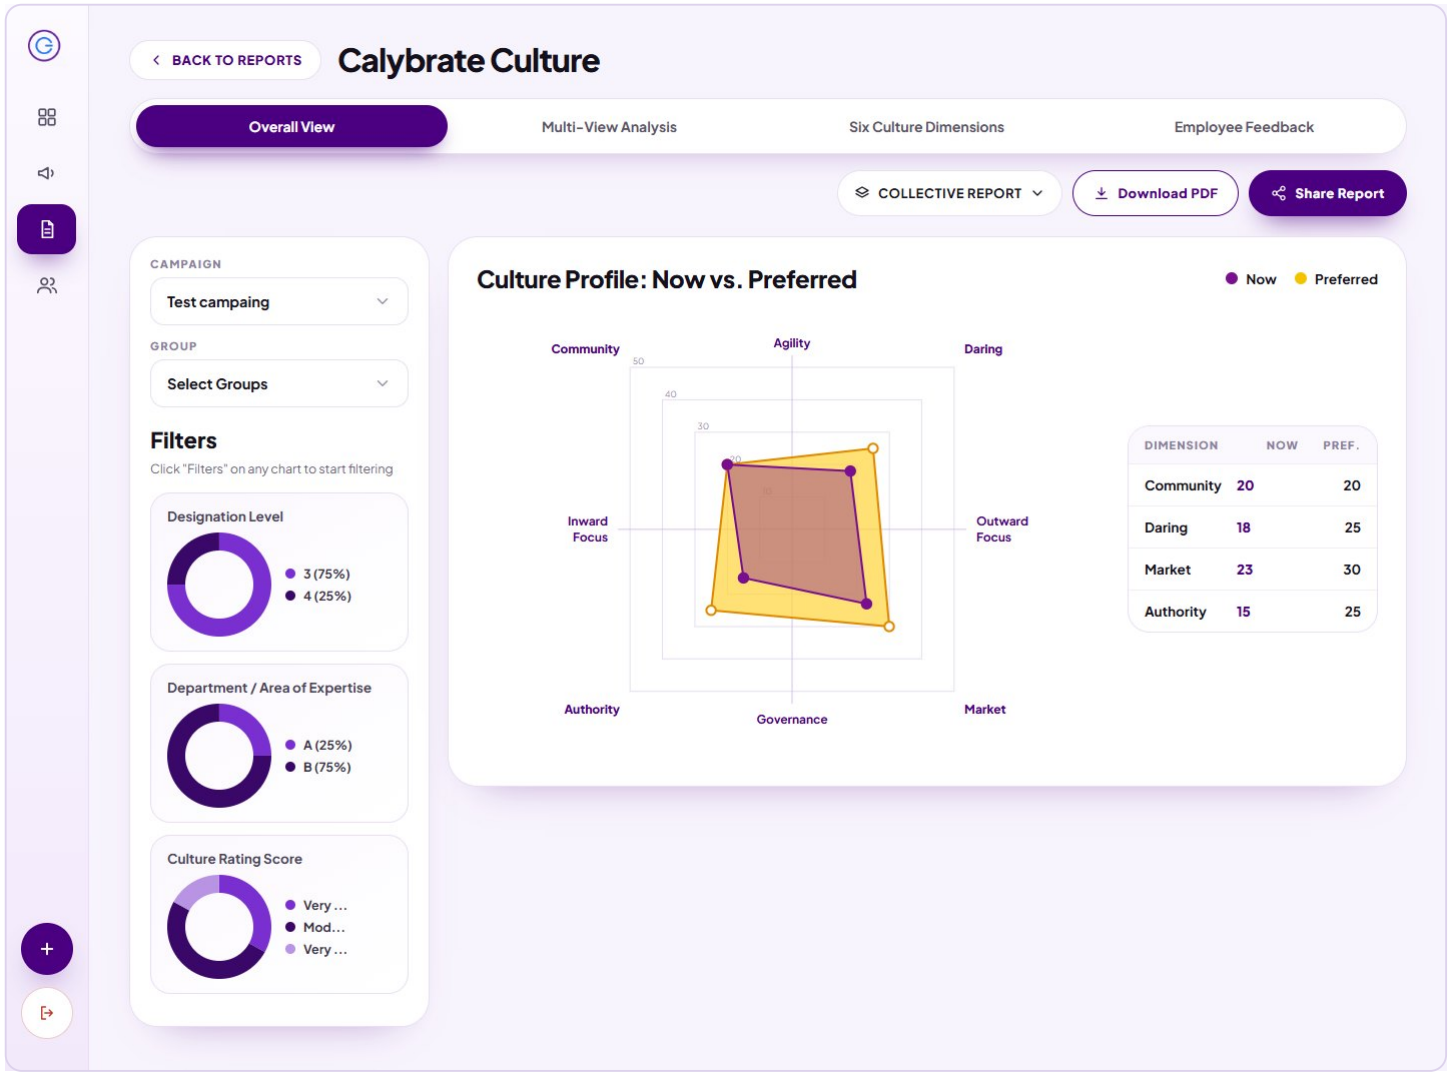
- Title Calybrate Culture, BACK TO REPORTS, menu button (sidebar is collapsed).
- Tabs: Overall View, Multi-View Analysis, Six Culture Dimensions, Employee Feedback.
- Campaign (Test campaing) and Group (Select Groups); Filters with donut charts: Designation Level, Department / Area of Expertise, Culture Rating Score.
- COLLECTIVE REPO... menu, Download PDF, Share Report.
- Chart: Culture Profile: Now vs. Preferred, with eight labels (Agility, Daring, Outward Focus, Market, Governance, Authority, Inward Focus, Community).

NOTES

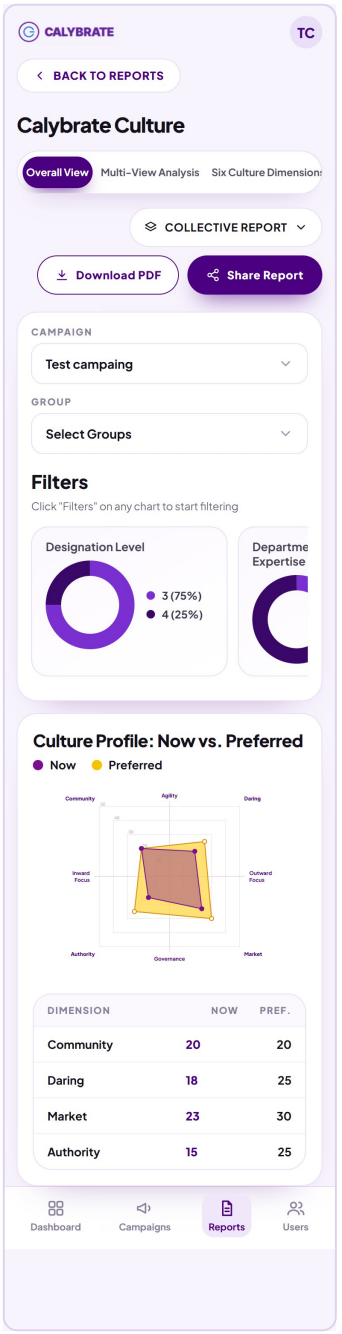
- The sidebar is hidden behind a menu button here, unlike every other page.
- The donut charts use blue, red and grey, which do not match the purple theme.
- Legend text is cut off: "3 (75...", "Very ...", "Mod...", and the menu says "COLLECTIVE REPO...".
- Download PDF is green and Share Report is purple.
- The hint says to click "Filters" on any chart, but no Filters button is visible on the charts.
- Values (20, 18, 25 and so on) sit in small circles on the chart; there is no table.
- Same for Super Admin and Admin (to confirm).

SUGGESTED

LAPTOP



MOBILE

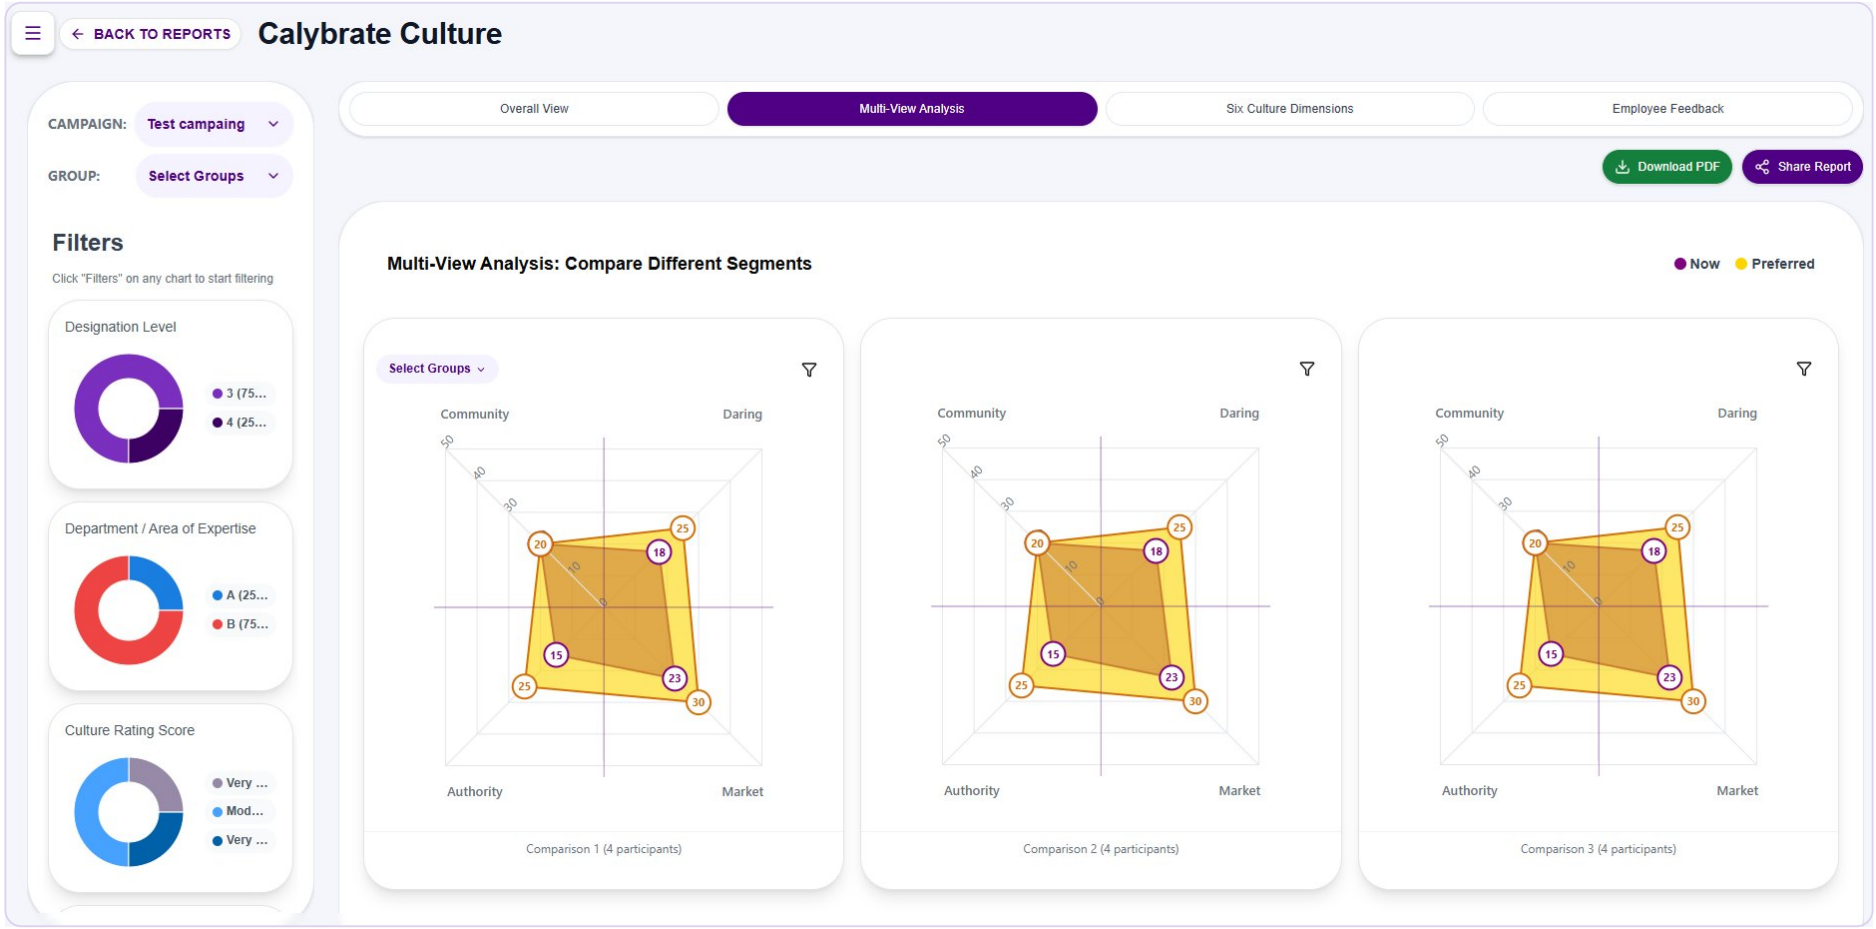


ON SCREEN

1. Filters stay on the left → 2. Radar draws in → 3. Values table fills → 4. Tabs switch the view

Chart colours (purple Now, yellow Preferred) are kept from the live page; the filter panel is the purple one. Table values are read from your chart.

SUPER ADMIN



WHAT YOU SEE

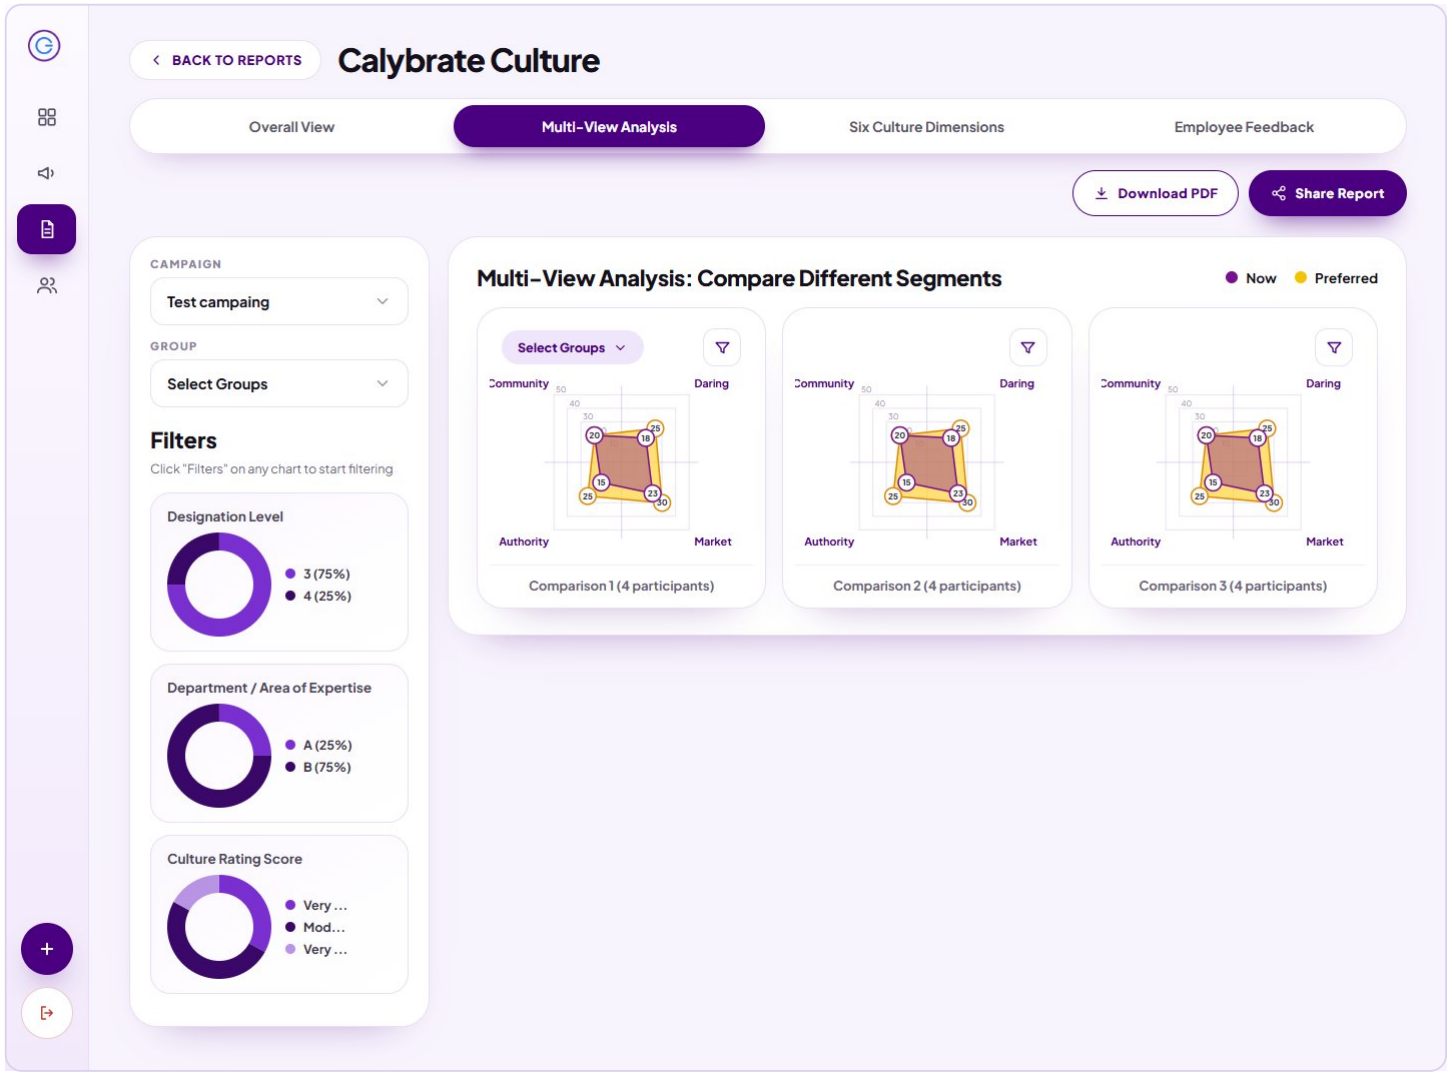
- Tab Multi-View Analysis selected. Heading Multi-View Analysis: Compare Different Segments, legend Now and Preferred.
- Three radar charts side by side; the first has a Select Groups drop-down. Every chart has a filter icon.
- Captions: Comparison 1 (4 participants), Comparison 2 (4 participants), Comparison 3 (4 participants).
- Download PDF and Share Report (no COLLECTIVE REPO... menu on this tab).

NOTES

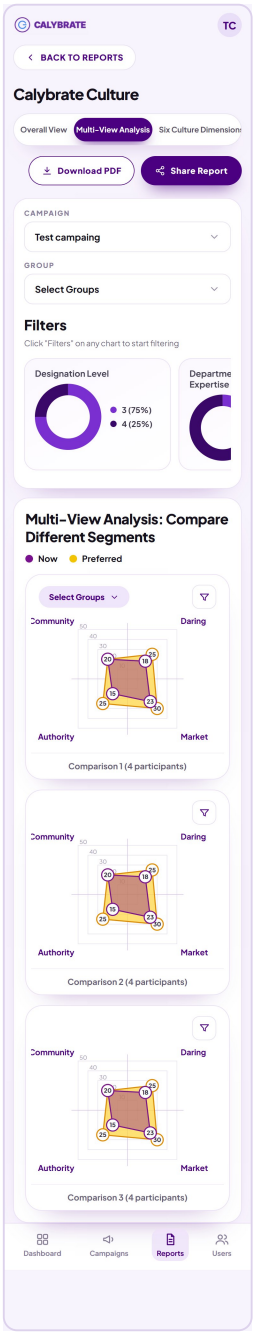
- All three charts show identical values, because no groups are selected yet.
- Only the first chart has a Select Groups drop-down; the other two do not.
- Values sit in small circles; the filter icon is small and unlabelled.
- Same filter panel and buttons as the other Culture tabs. Same for Super Admin and Admin (to confirm).

SUGGESTED

LAPTOP



MOBILE

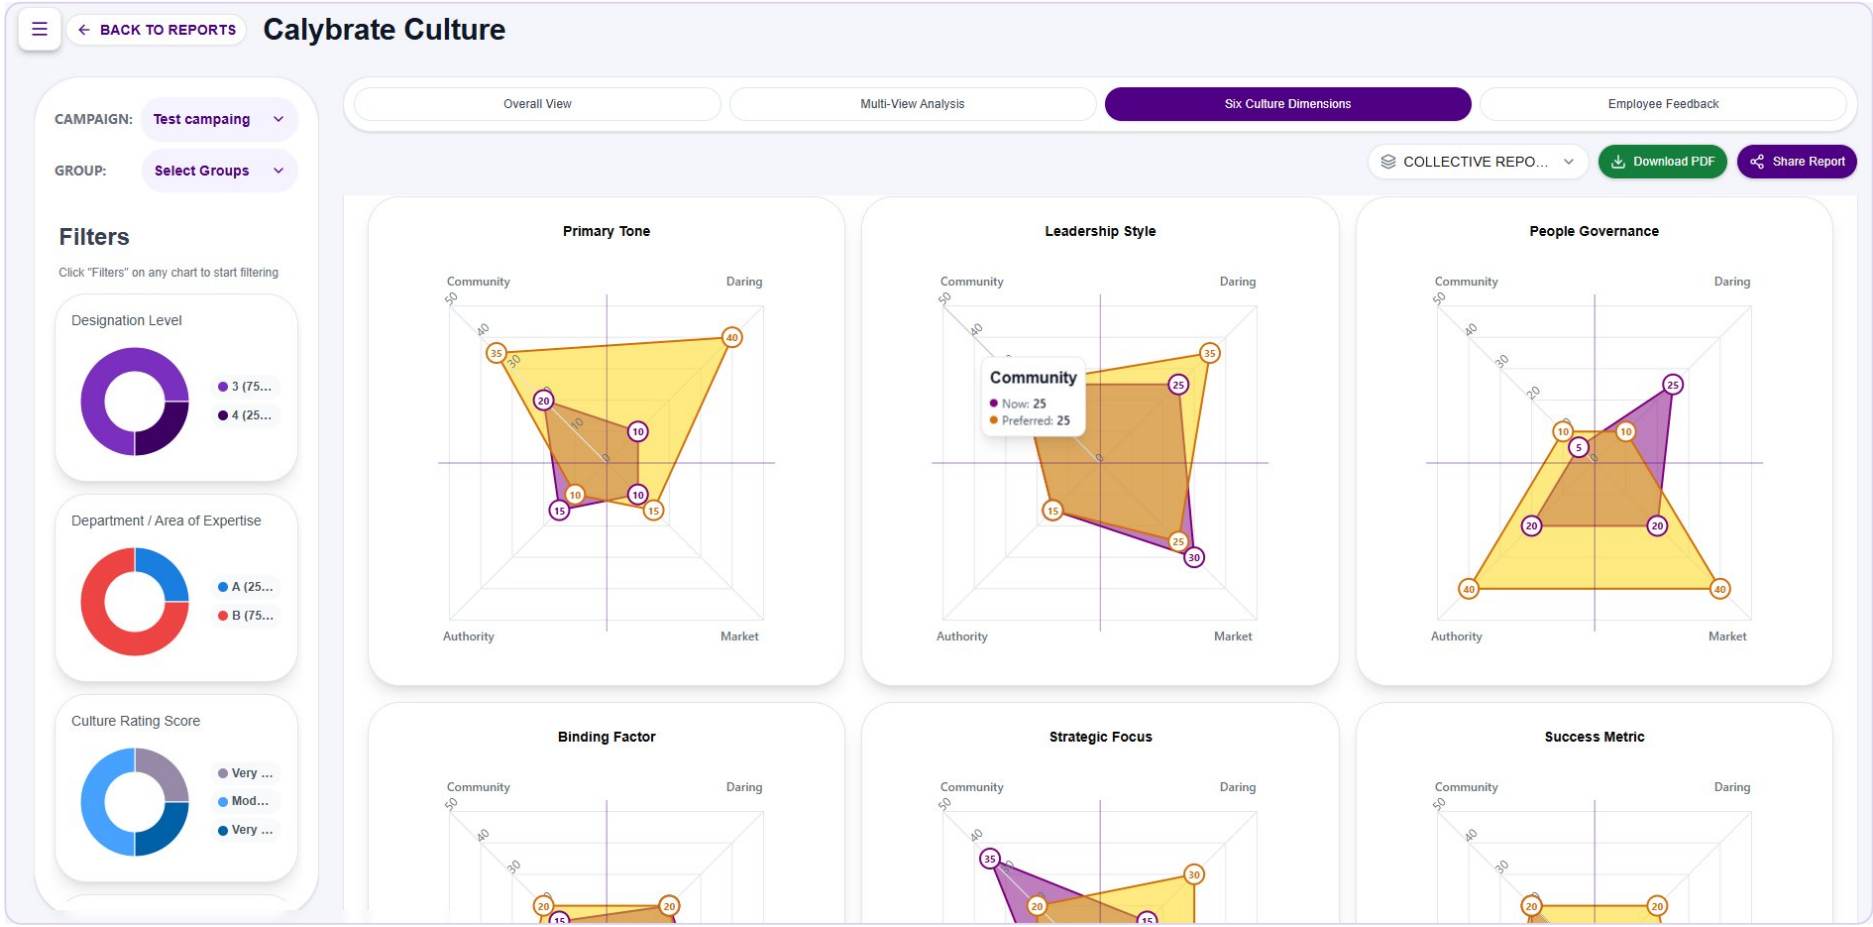


ON SCREEN

1. Three cards, same chart style
2. Select Groups chip on the first
3. Number badges on every point

Chart colours are the live ones: purple Now, yellow Preferred. The filter panel is the purple one.

SUPER ADMIN



WHAT YOU SEE

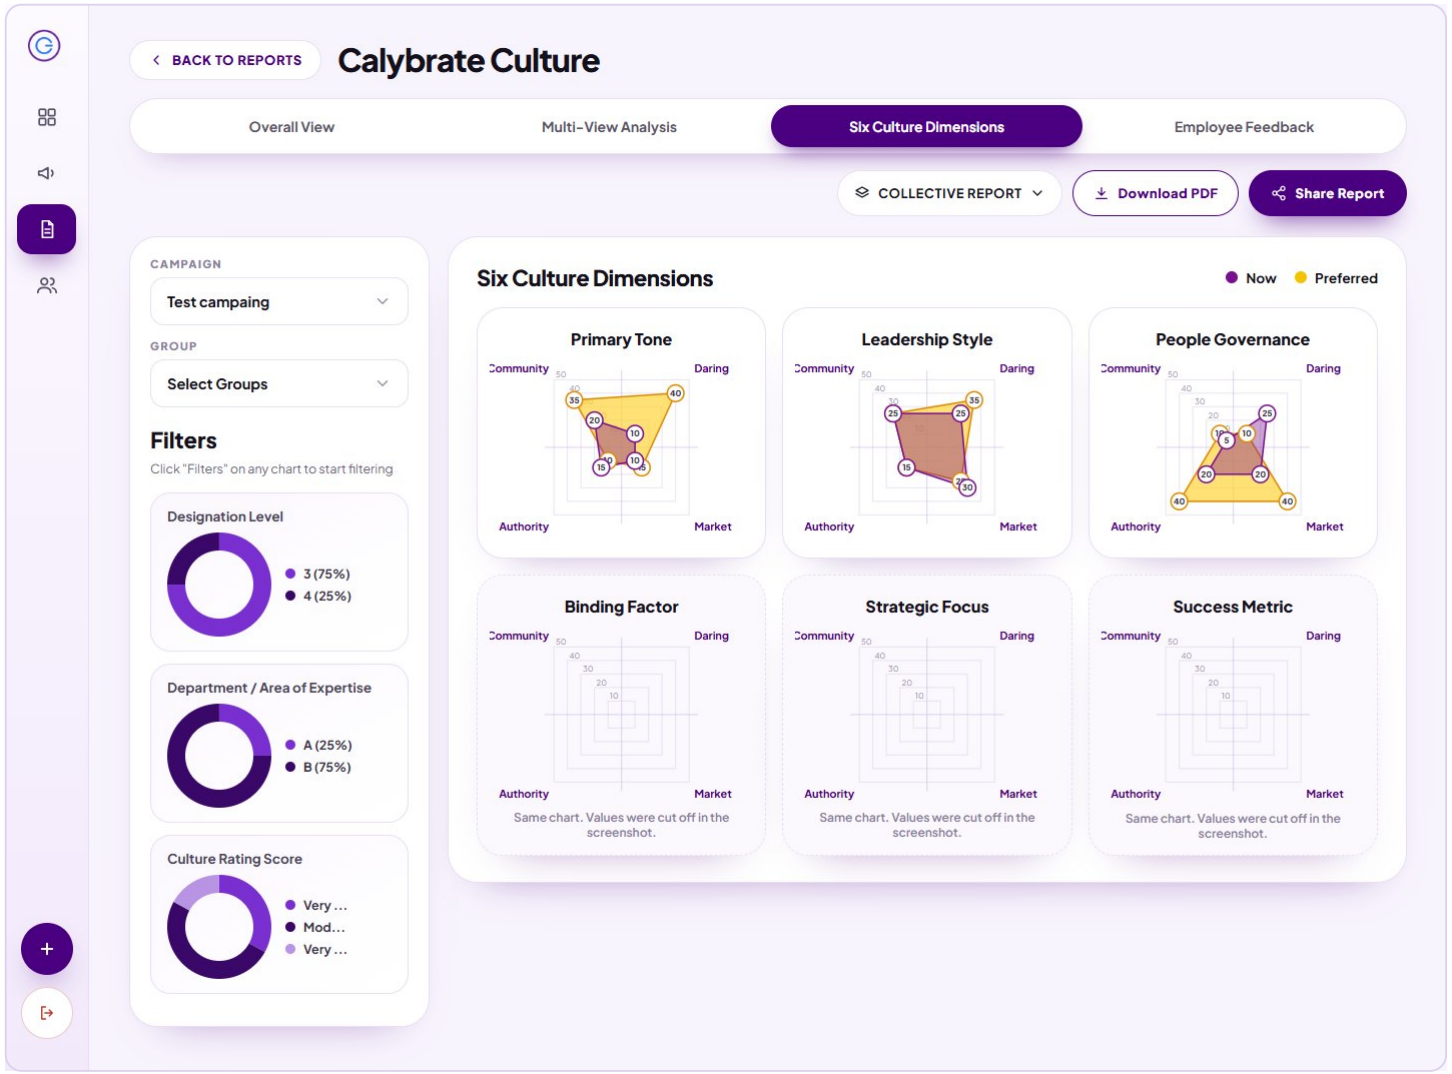
- Tab Six Culture Dimensions selected, with COLLECTIVE REPO..., Download PDF and Share Report.
- Six radar cards: Primary Tone, Leadership Style, People Governance, Binding Factor, Strategic Focus, Success Metric.
- Each chart has Community, Daring, Authority and Market labels and number circles for Now and Preferred.
- Hovering a point opens a tooltip, for example Community, Now: 25, Preferred: 25.

NOTES

- The tooltip covers part of the Leadership Style chart.
- Only the first three charts were fully visible; the last three were cut off by the screenshot.
- The six charts are identical in layout, so the dimension name in the title is the only difference.
- Numbers are tiny and hard to read on laptop screens.
- Same for Super Admin and Admin (to confirm).

SUGGESTED

LAPTOP



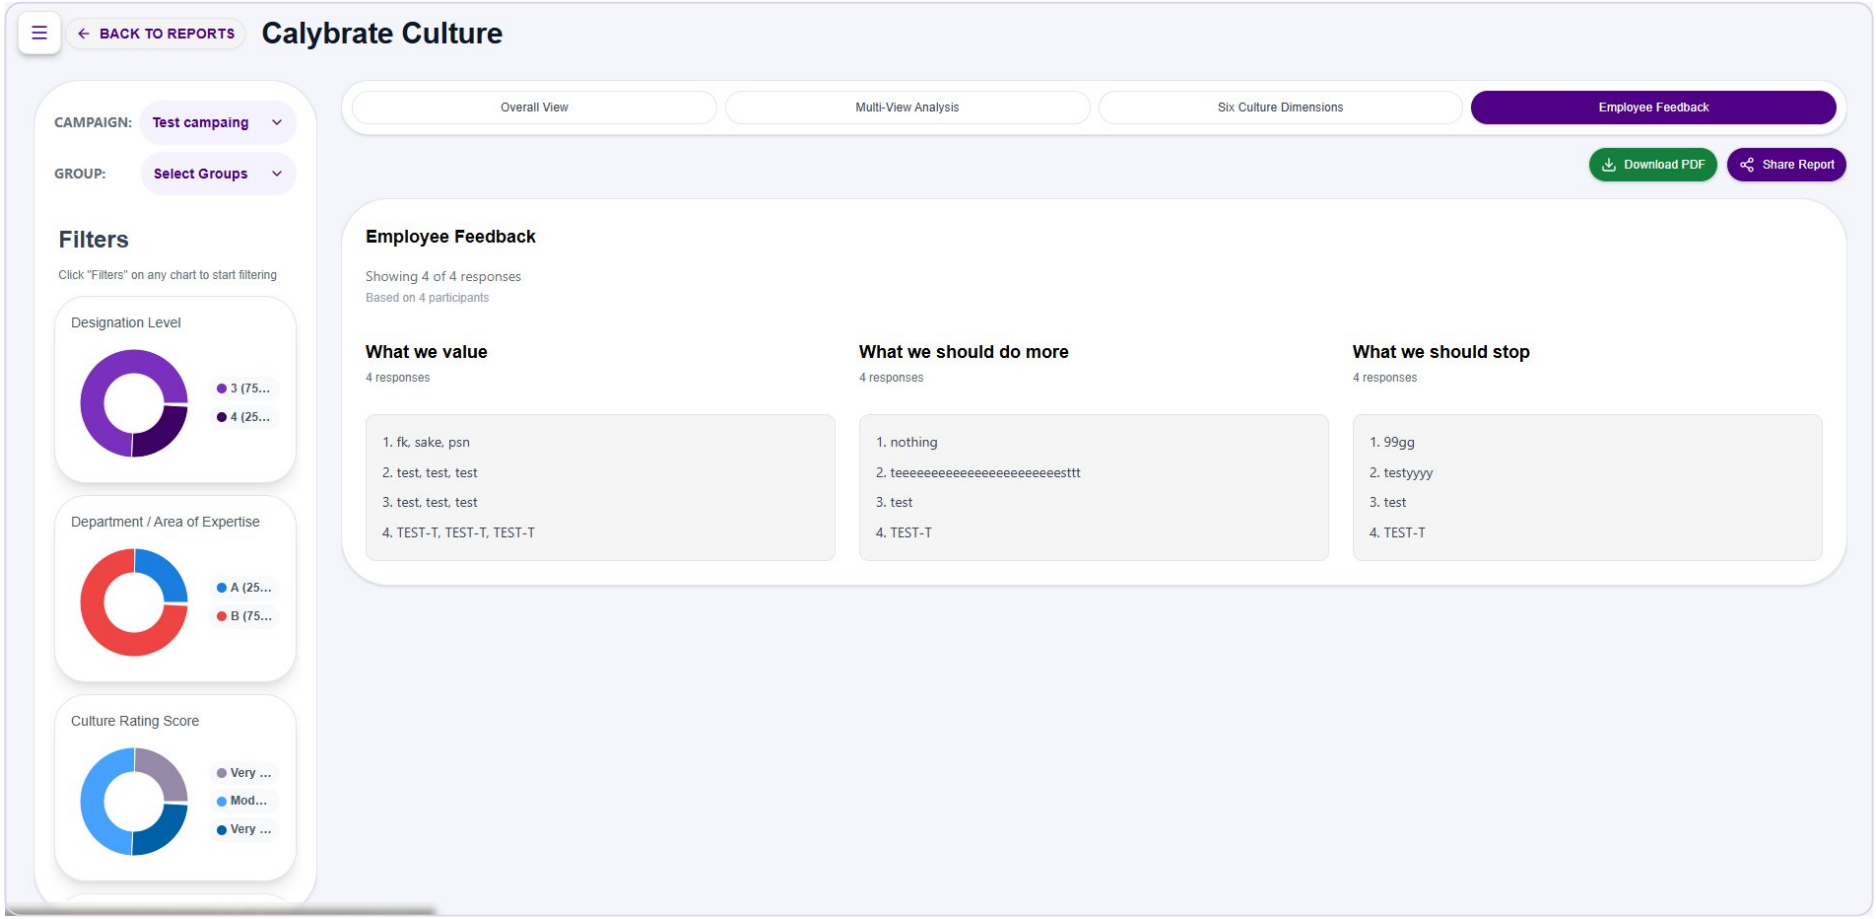
MOBILE

ON SCREEN

1. Cards in a 3 by 2 grid → 2. Larger number badges → 3. Tap a point for its values

Values for the first three charts are read from your screenshot (Leadership Style, Authority Now is read as 15). The last three show an empty chart because their values were not visible.

SUPER ADMIN



WHAT YOU SEE

- Tab Employee Feedback selected, with Download PDF and Share Report.
- Heading Employee Feedback, then "Showing 4 of 4 responses" and "Based on 4 participants".
- Three columns: What we value, What we should do more, What we should stop, each with "4 responses".
- Each column is a grey box with a numbered list of responses.

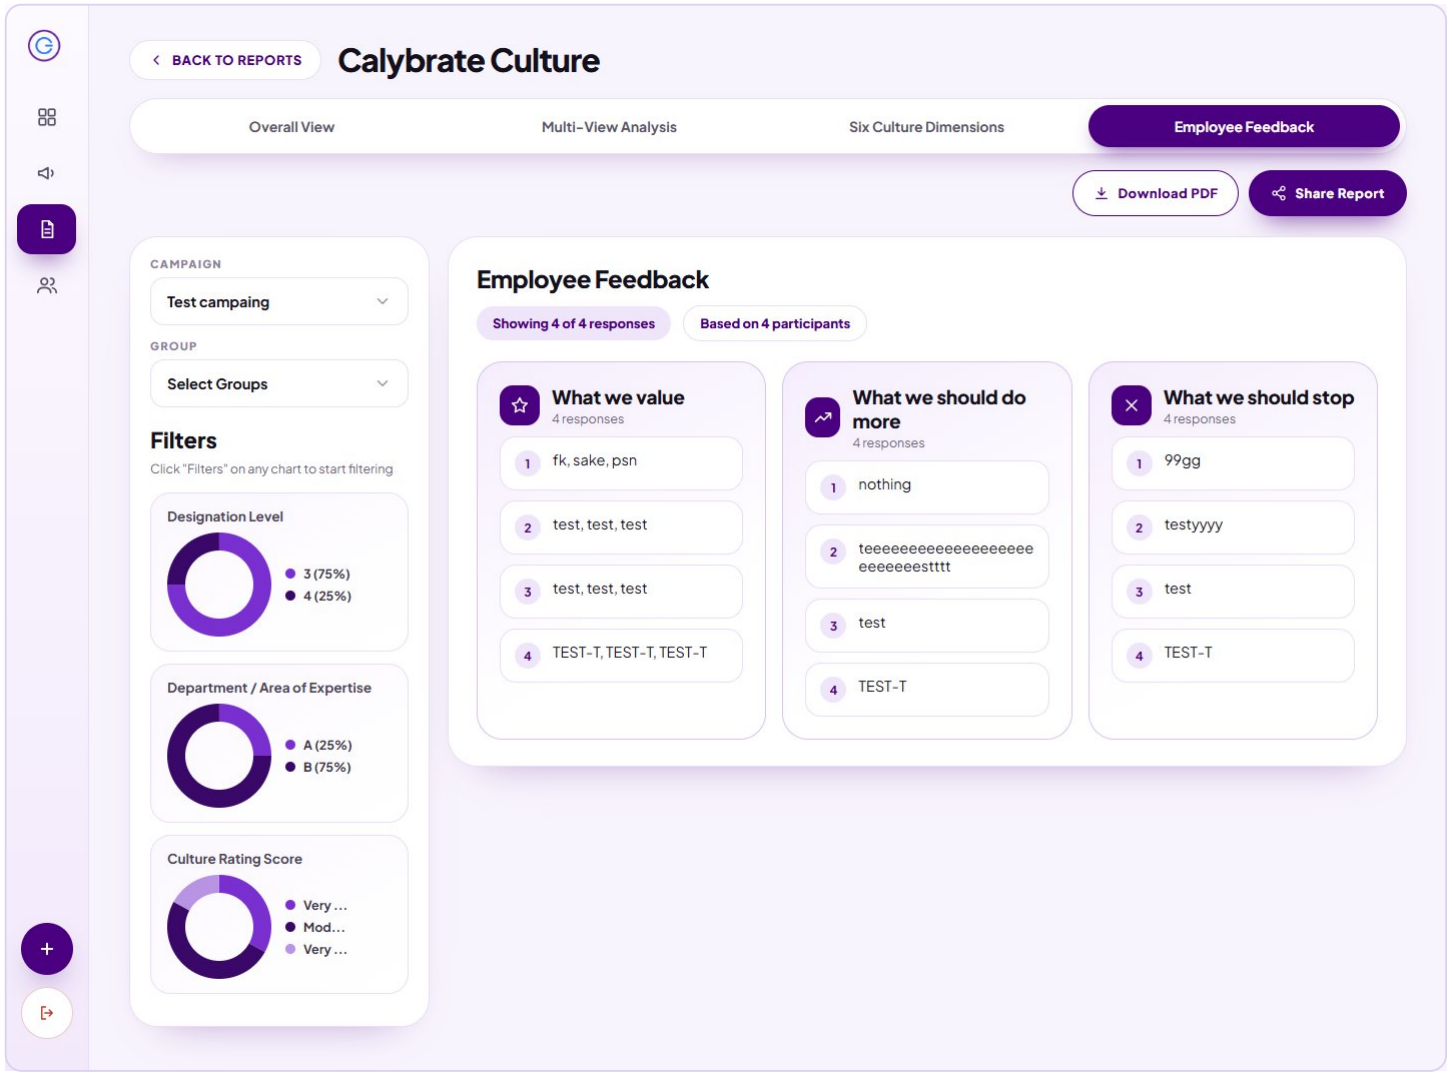
NOTES

- Plain numbered lines in grey boxes; no way to search, sort or copy.
- A very long unbroken response (the row of e's) runs across its box.
- The three columns have no icon or colour to tell them apart.
- The three headings are the same size as the list text, so the page looks flat.
- Same for Super Admin and Admin (to confirm).

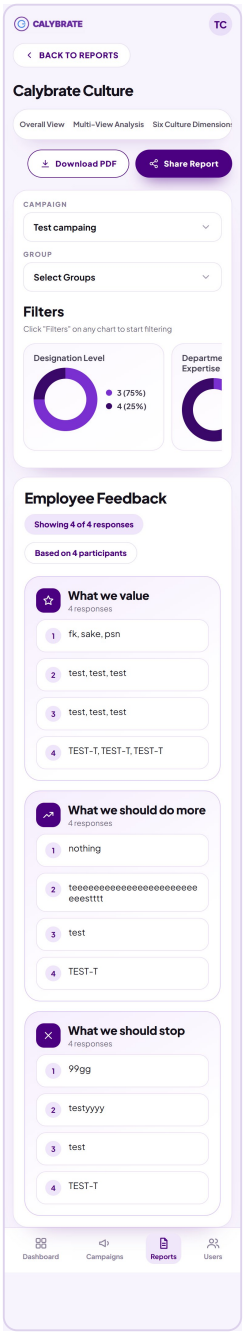
Responses shown are test data.

SUGGESTED

LAPTOP



MOBILE



ON SCREEN

1. Three cards with an icon each
2. Each response is its own row
3. Long text wraps inside the row

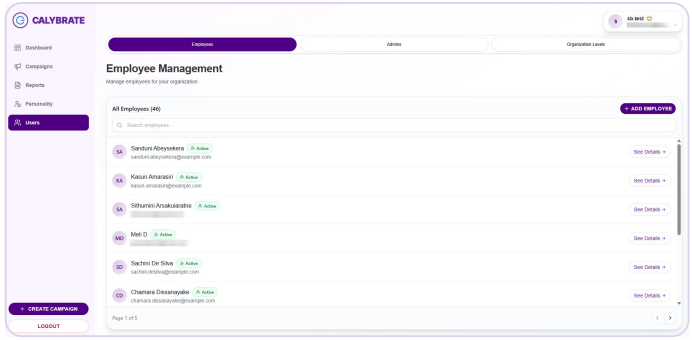
New: one icon per column and a number badge per response. All wording is live. The responses are your test data.

HIGH	**180 / 360 page**	The first thing a person sees is "Unable to load report", because the page opens on an employee who has not completed. Suggest opening on a completed employee, and saying who has completed.
HIGH	**Share panel**	All 25 employees are PENDING, so nothing can be shared, and the SHARE REPORTS (0) button is cut off at the screen edge. Explain why it is off, and keep the button in view.
MED	**Donut colours**	The filter donuts (blue, red, grey) break the purple theme; the redesign uses purple shades. The chart colours (purple Now, yellow Preferred) are kept as on the live page.
MED	**Culture legends**	Labels are cut off (3 (75..., Very ..., Mod..., COLLECTIVE REPO...). The redesign gives them room; the full text of the three rating labels is not visible in the screenshots.
MED	**Navigation**	The Culture page hides the sidebar behind a menu button. The redesign keeps a slim icon rail so people can still move around.
MED	**Six dimensions**	A hover tooltip covers part of the chart, numbers are tiny, and only the title tells the six charts apart. The redesign enlarges the number badges.
MED	**Multi-view**	Three identical charts; Select Groups is only on the first. Explain why the other two have no selector, or give them one.
LOW	**Employee feedback**	Plain grey boxes with numbered lines, no search or copy; very long text runs across the box. Each response gets its own row in the redesign.
LOW	**Filters hint**	"Click Filters on any chart to start filtering", yet no Filters button is visible on the Overall chart. Only Multi-View shows a filter icon.
LOW	**Wording**	"Six Dimesnions" is misspelled on the Reports page; "Test campaing" and the feedback text are test data.

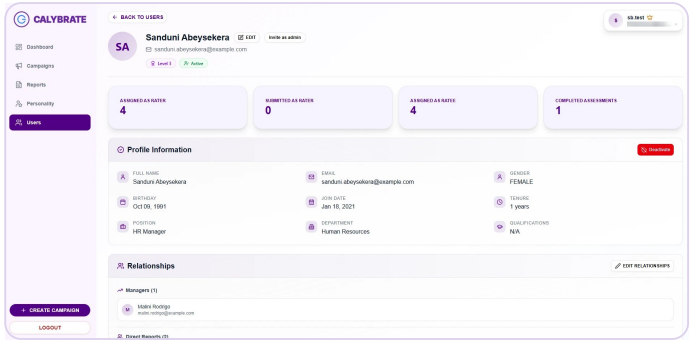
NEW IN THE MOCKUPS (NOT ON THE LIVE PAGE)

The SHARE REPORTS label and CHANGE EMPLOYEE button, the pictures on the landing cards, the values table (read from your chart), the slim icon rail, checkboxes in the share panel, and icons in Employee Feedback. Not yet covered: the three 180 / 360 report tabs.

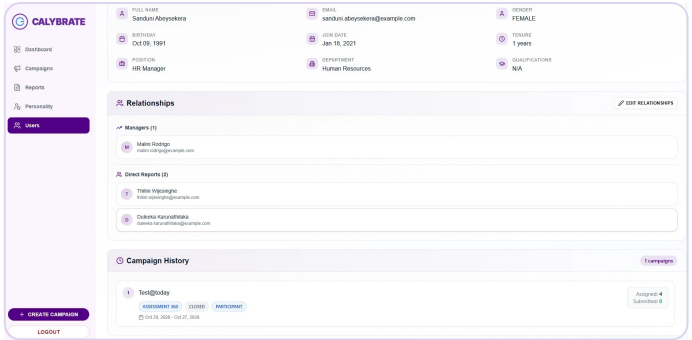
EMPLOYEES - list, profile and the two add / edit dialogs



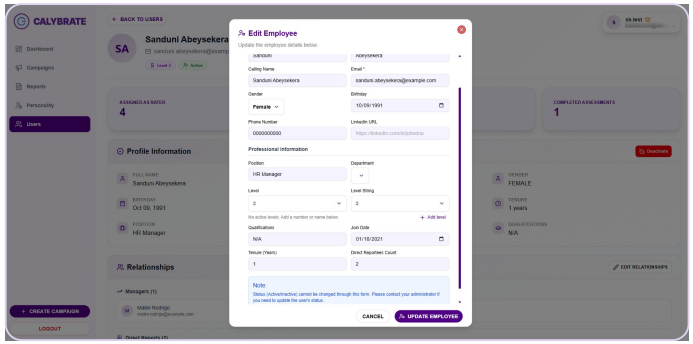
Employees list



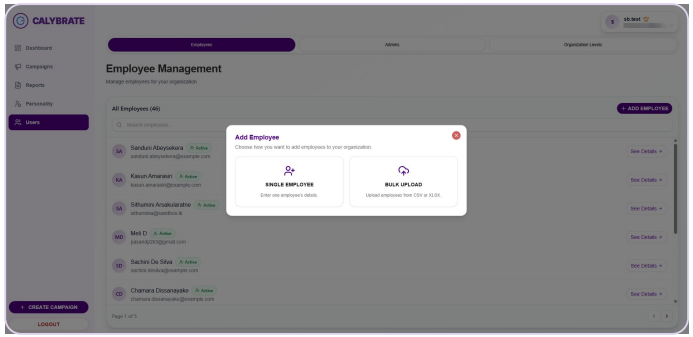
Employee profile (top)



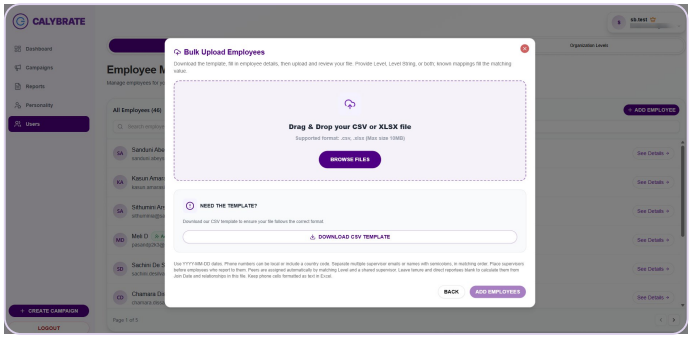
Employee profile (relationships)



Edit Employee

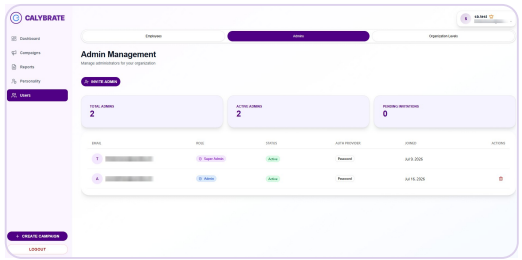


Add Employee

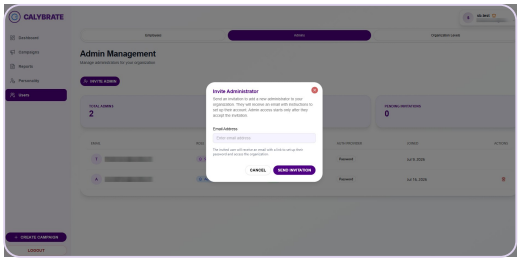


Bulk Upload

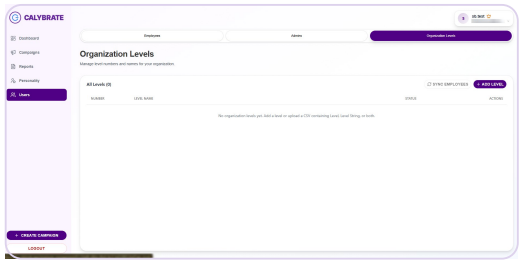
ADMINS AND ORGANIZATION LEVELS



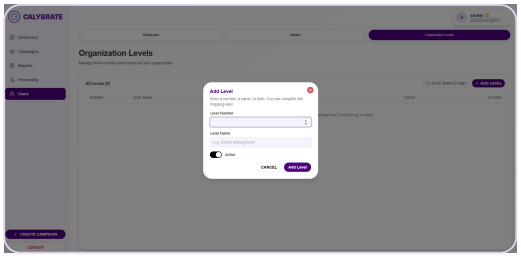
Admins



Invite Administrator



Organization Levels (empty)



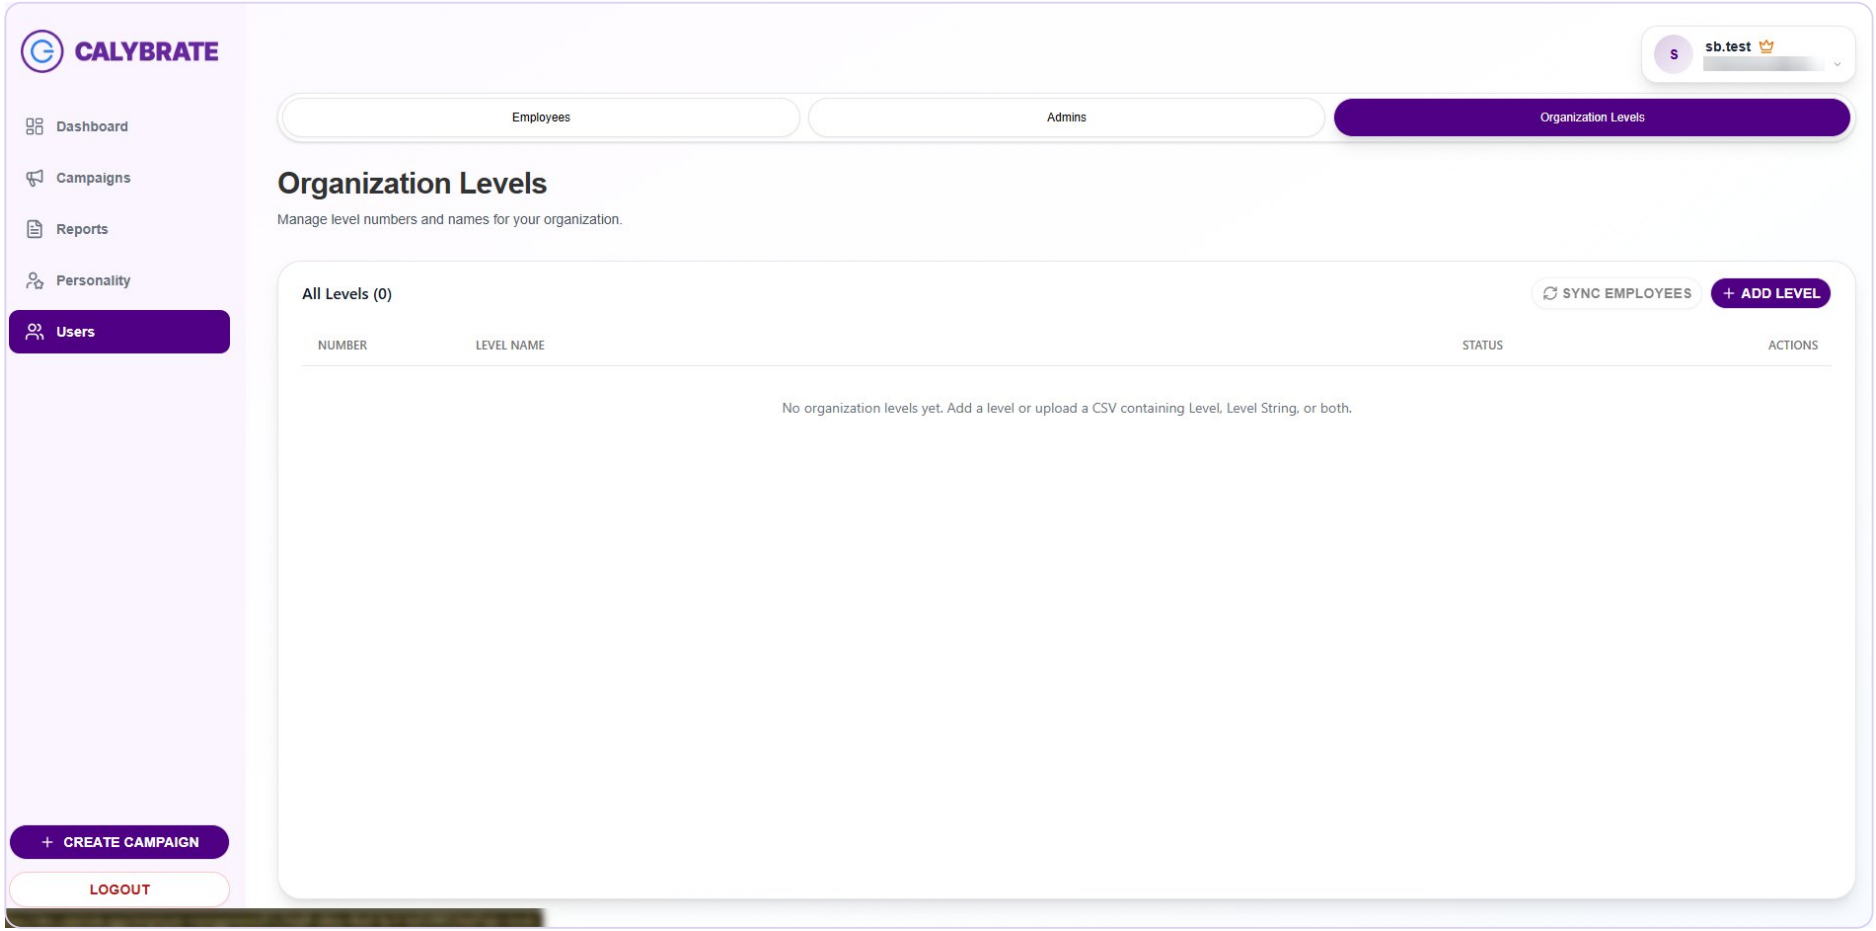
Add Level

Emails are blurred. Names in the employee list are example data.

Super Admin | Users | Current screens: what to fix

CURRENT

SUPER ADMIN



WHAT YOU SEE

- Three tabs on top (Employees, Admins, Organization Levels) with the title below.
- Organization Levels: All Levels (0), SYNC EMPLOYEES, ADD LEVEL, a table with NUMBER, LEVEL NAME, STATUS, ACTIONS and the text "No organization levels yet. Add a level or upload a CSV containing Level, Level String, or both."
- Add Level: Level Number, Level Name, an Active switch, CANCEL, Add Level.

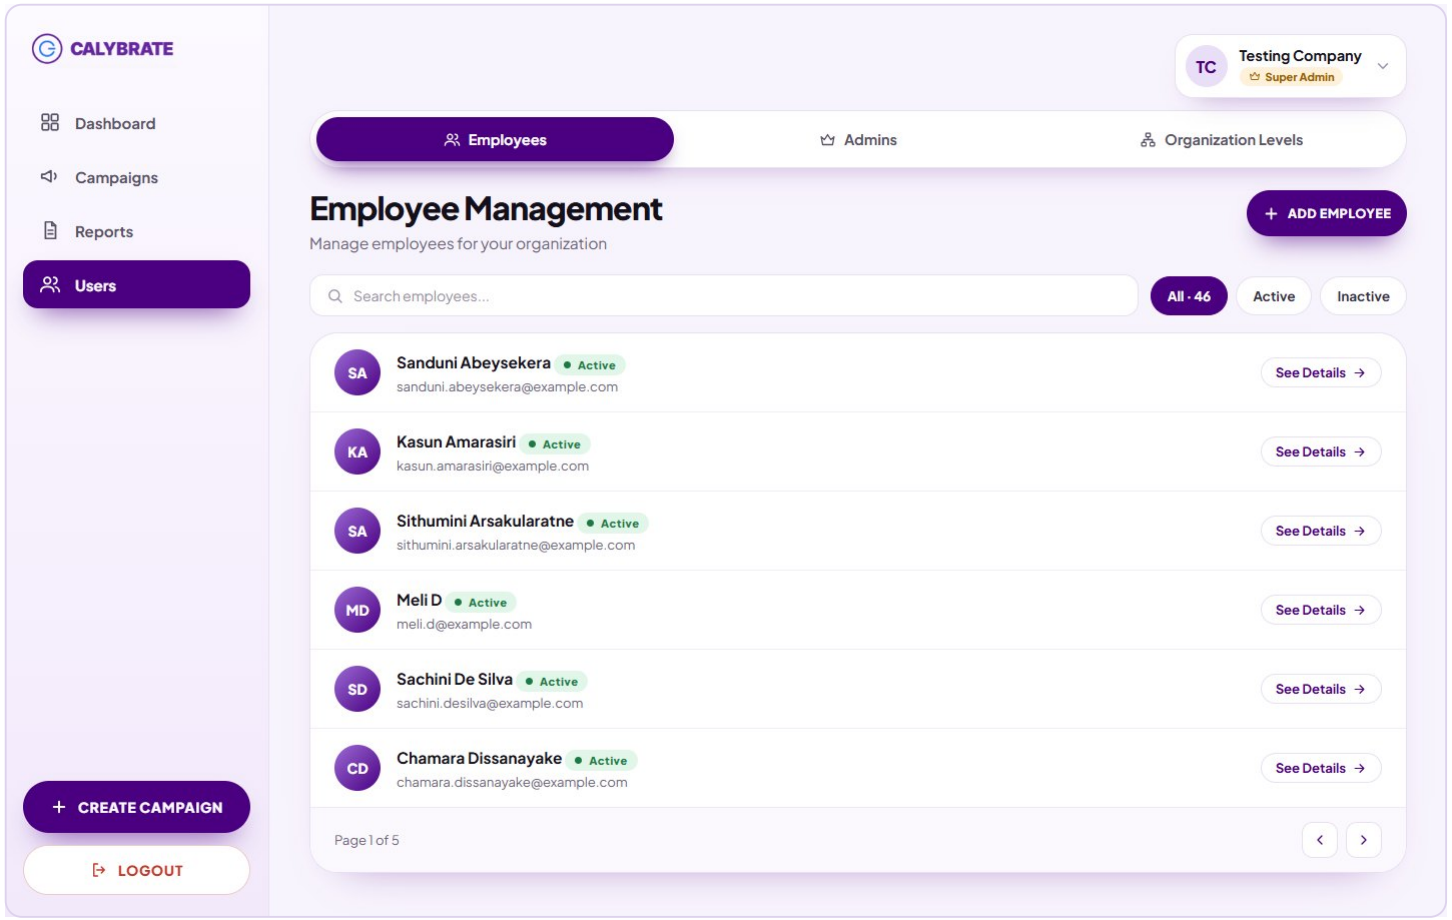
NOTES

- Levels are the key to peers and reporting lines, yet the page is an empty table with no picture of what a level does.
- Nothing shows how levels connect: who reports to whom, or how many people sit in each level.
- Level is a number or a name or both, and the Level String and Level fields appear in the employee forms with "No active levels" when empty; the page does not say how to fix that.
- Edit Employee: one long scroll; the Department drop-down is a tiny empty box; the note about status is blue on blue.
- The delete button on the second admin is red and the first admin has none, with no tooltip.
- Add Employee asks Single or Bulk first; bulk has a 4-line rules paragraph in small grey type.
- Employee row shows only name and email; no level, department or manager.
- Same for Admin, except the Admins tab is hidden.

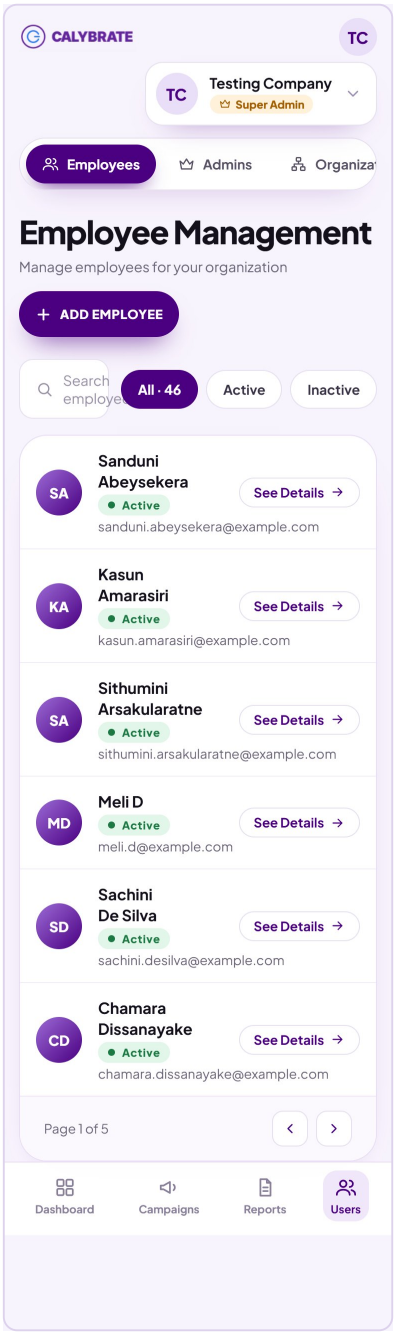
Emails blurred.

SUGGESTED

LAPTOP



MOBILE



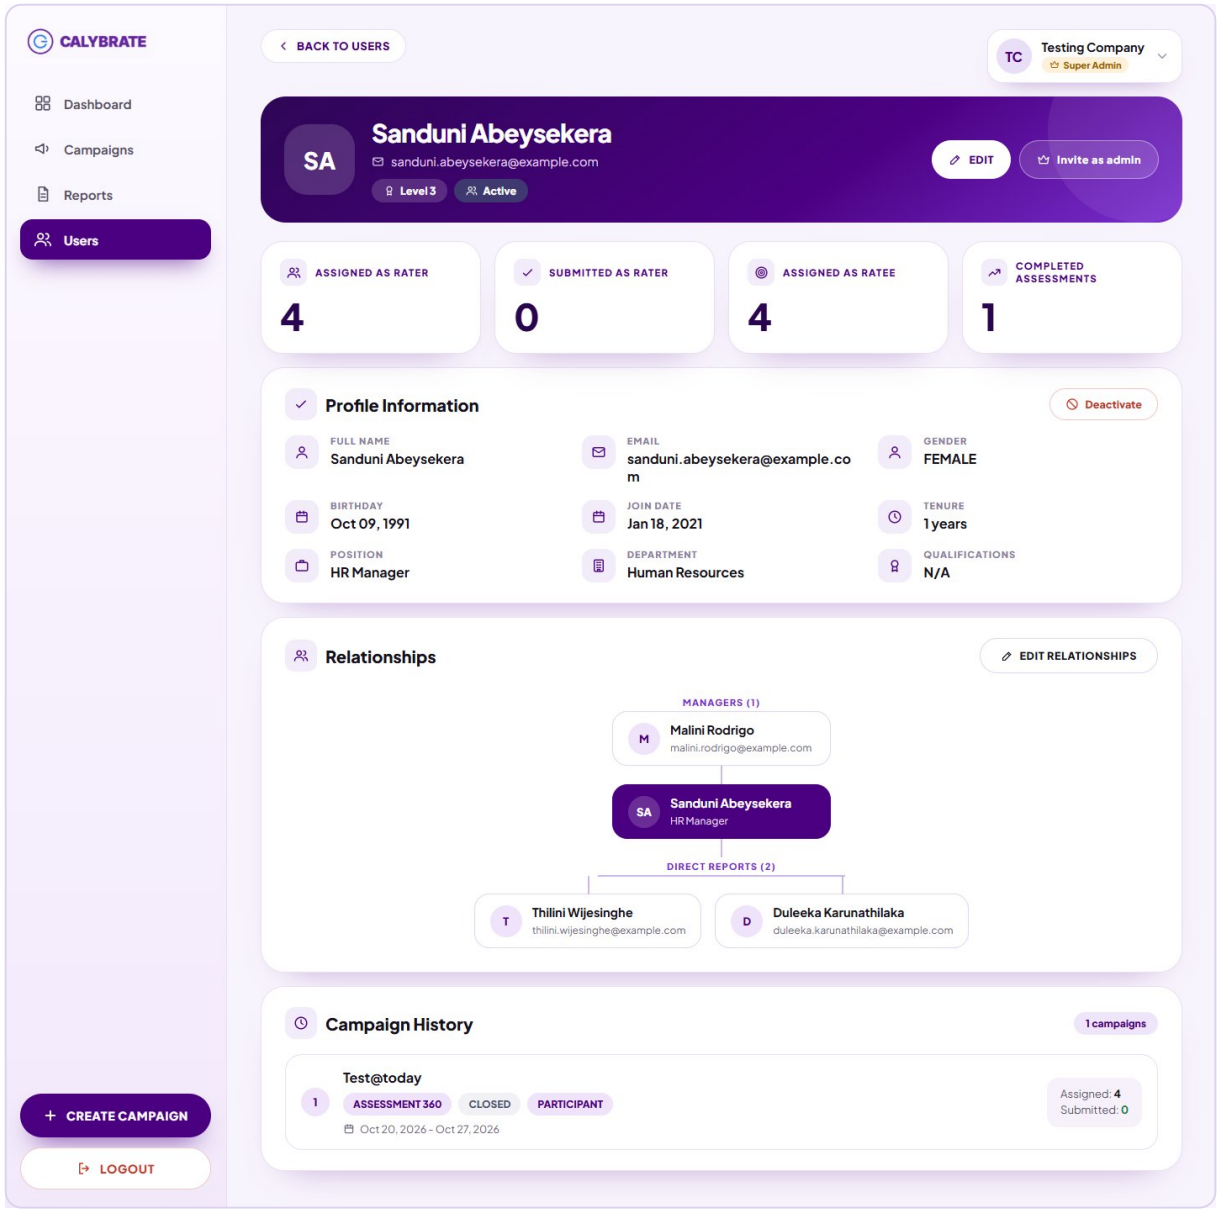
ON SCREEN

1. List rows rise in → 2. Search and status chips → 3. See Details opens the profile

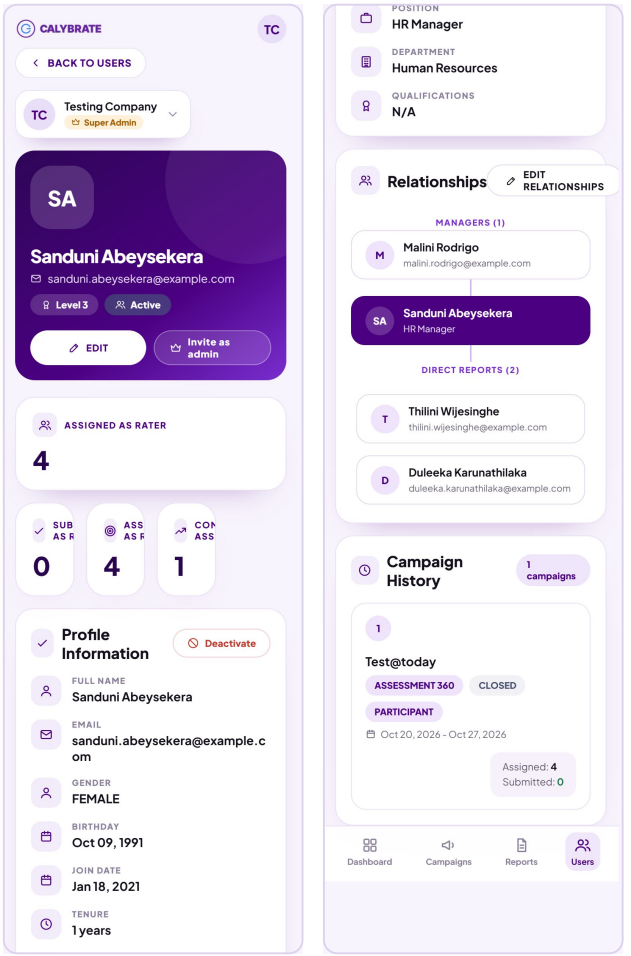
All fields are live. New: the status chips (All, Active, Inactive) beside search. Names and emails are examples.

SUGGESTED

LAPTOP



MOBILE



ON SCREEN

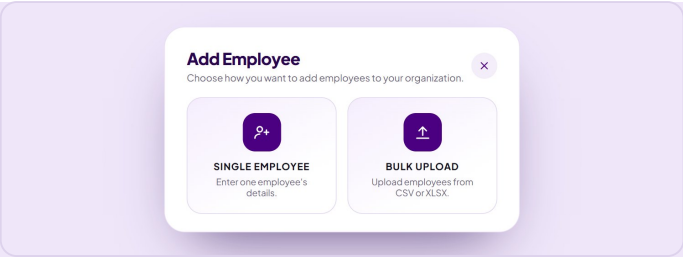
1. Hero card with name, level, status → 2. Four count tiles → 3. Relationships shown as a small tree → 4. Campaign history at the end

Same fields and numbers as the live page. The relationships tree is new: manager above, direct reports below.

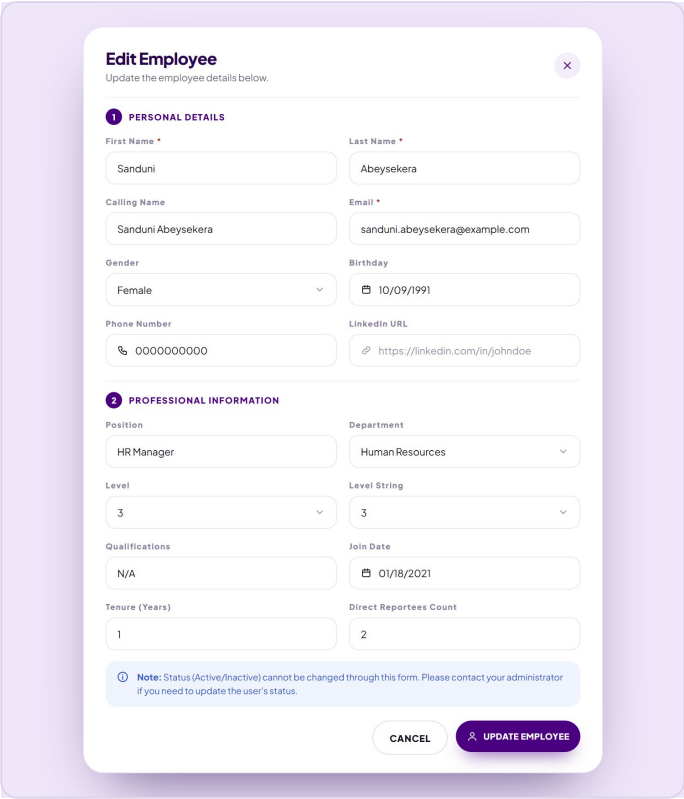
Users | Add and edit employee dialogs

SUGGESTED

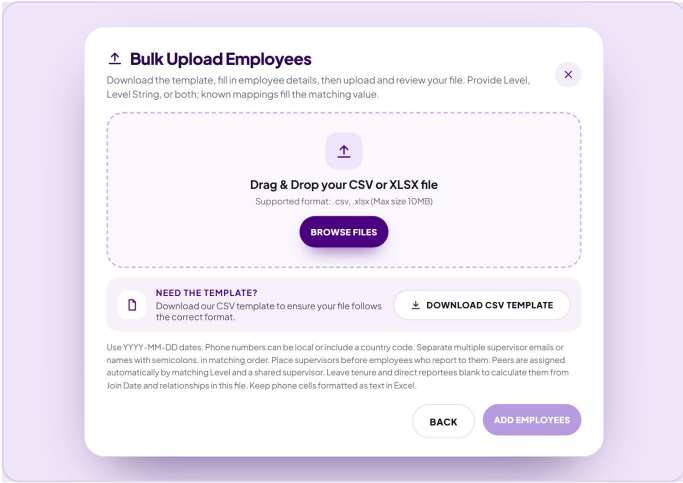
LAPTOP



Add Employee



Edit Employee



Bulk Upload

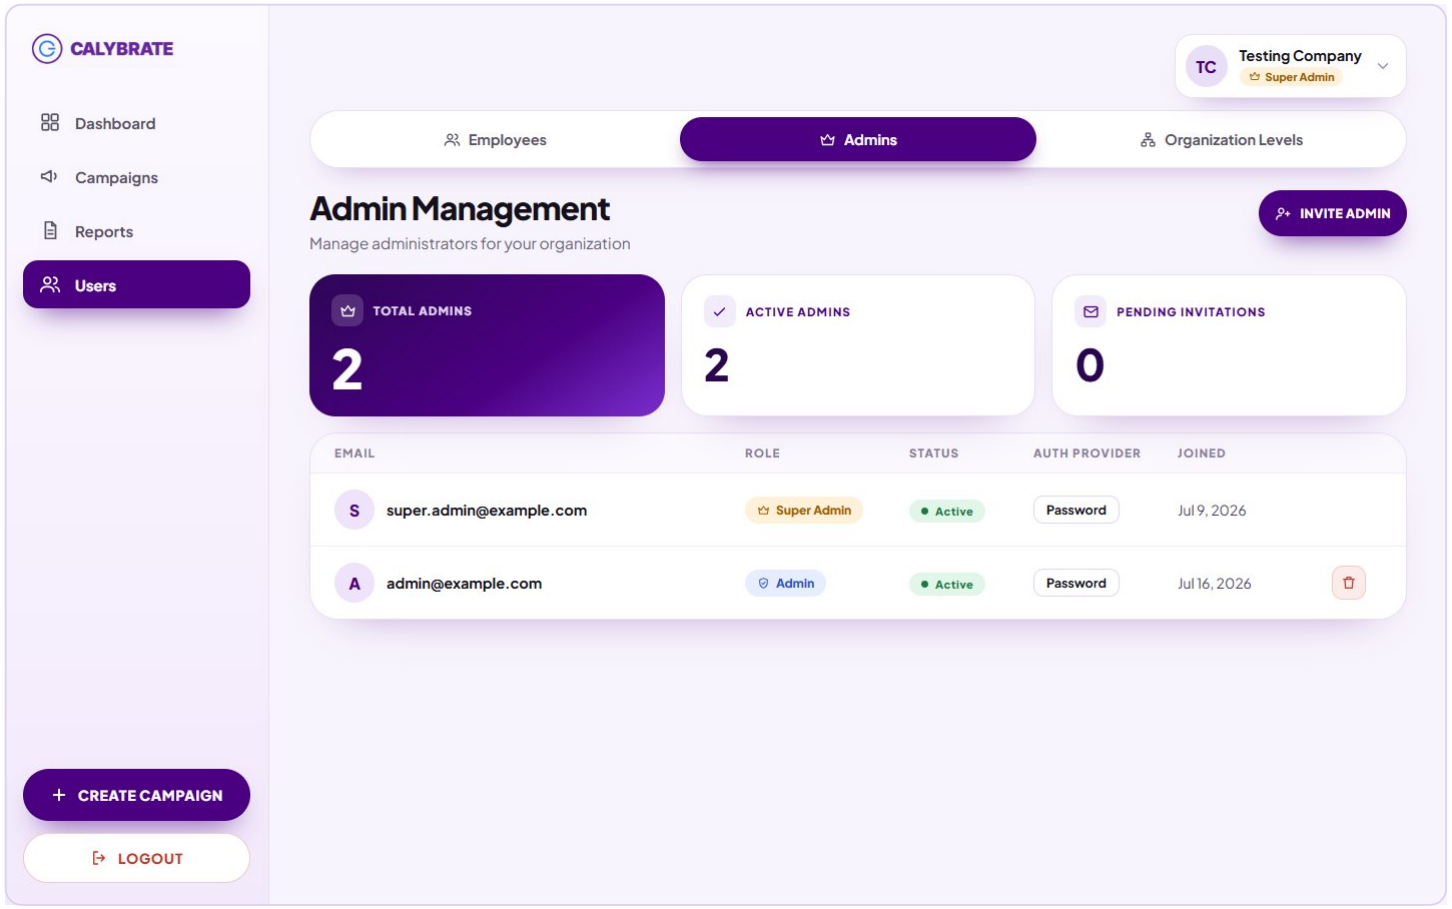
WHAT CHANGED

- Add Employee: two large choices (Single employee, Bulk upload) with their live descriptions.
- Edit Employee: three numbered groups (Personal details, Professional information) with every live field kept, and the status note as a clear info box.
- Bulk Upload: a drop area, the template in its own box, and the long format rules kept word for word in a readable paragraph.
- All dialogs become full-width bottom sheets on phones.

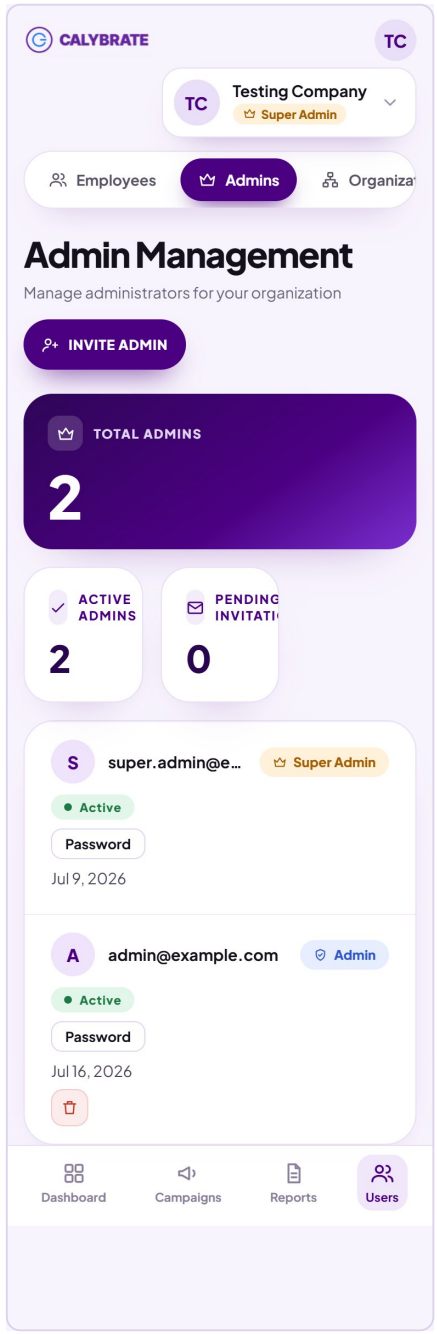
ON SCREEN

1 Dialog scales in → 2 Fields grouped → 3 Button solid when ready

LAPTOP



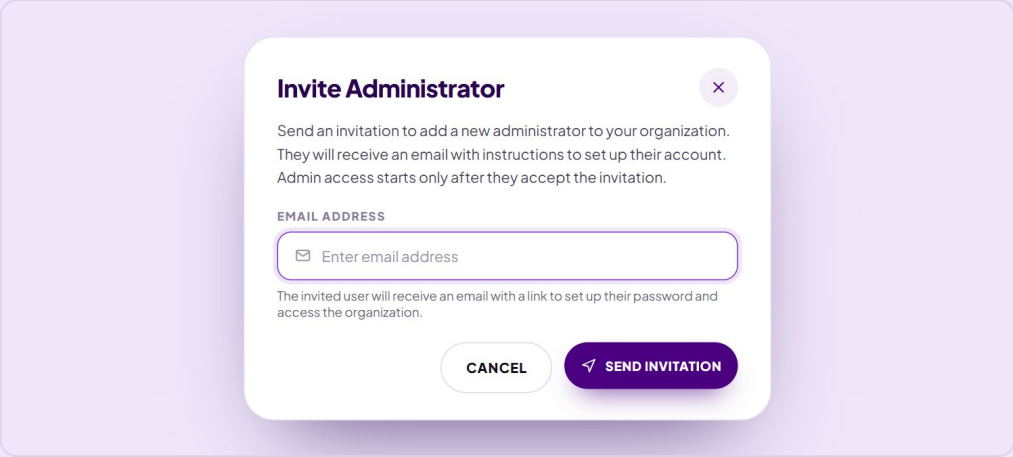
MOBILE

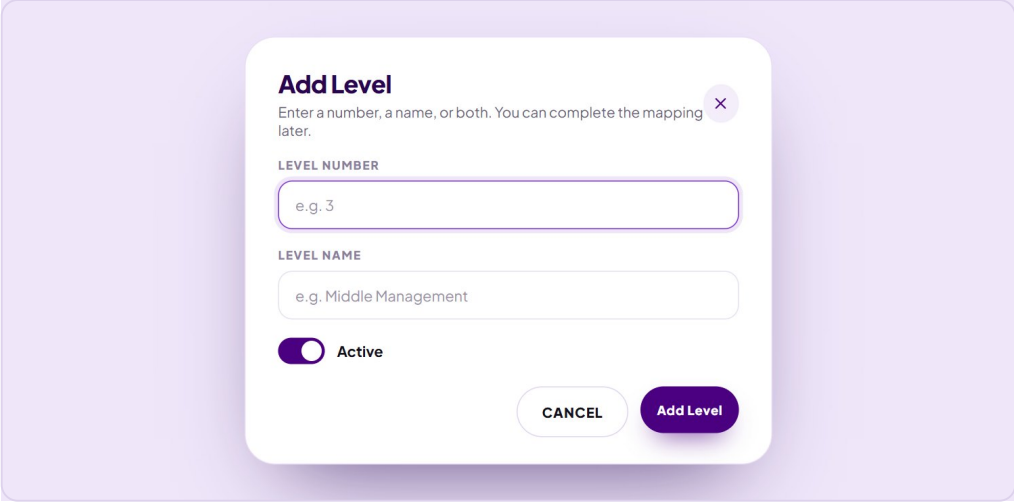


ON SCREEN

1. Three tiles → 2. Role chips with icons → 3. Remove only on Admin rows

Emails are examples. Wording and columns are live (EMAIL, ROLE, STATUS, AUTH PROVIDER, JOINED, ACTIONS).



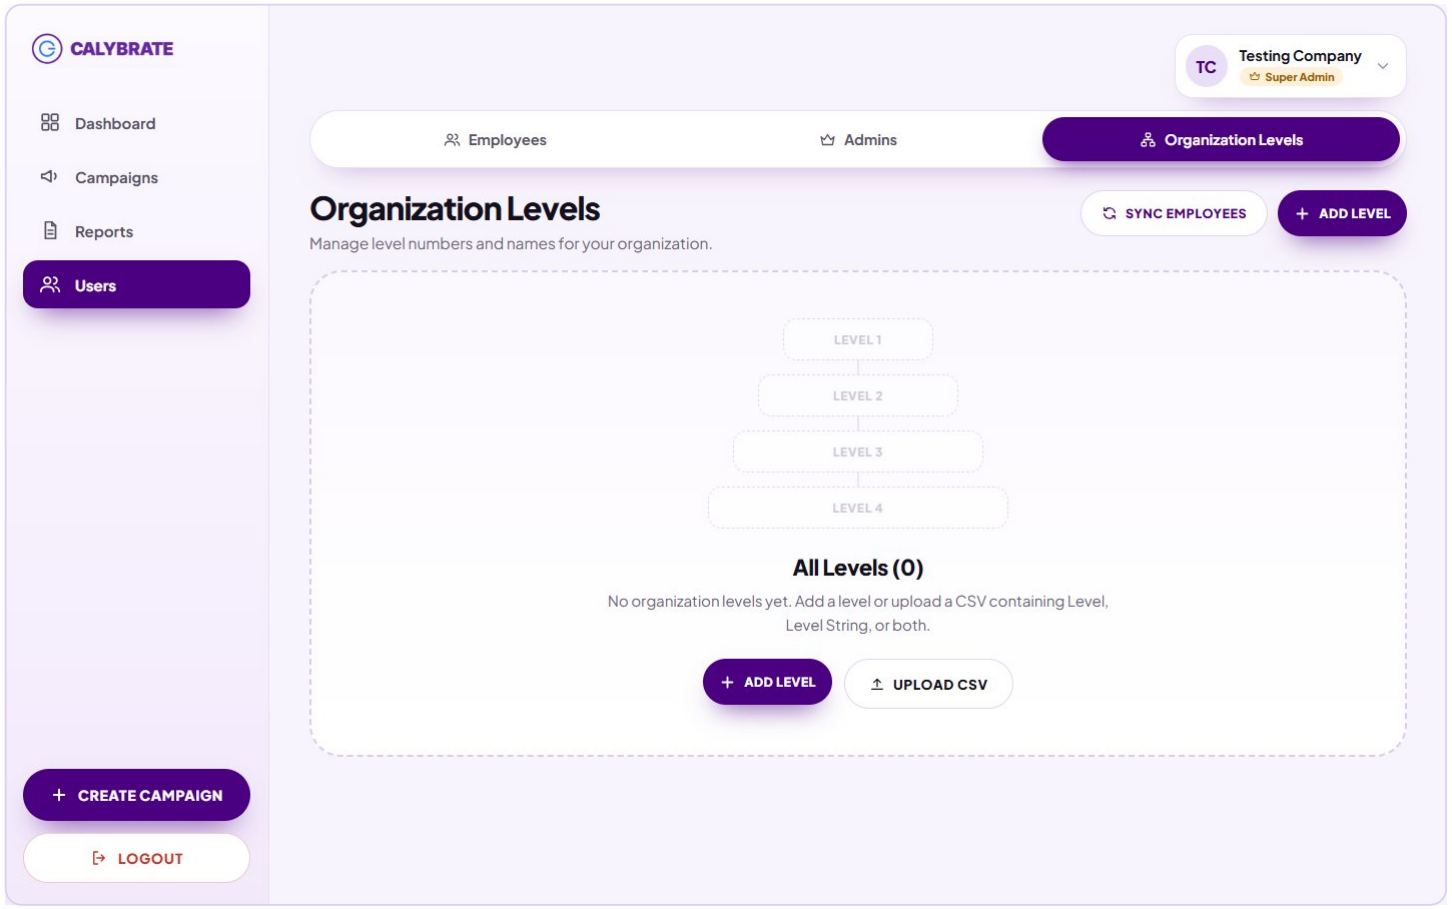


Invite Administrator

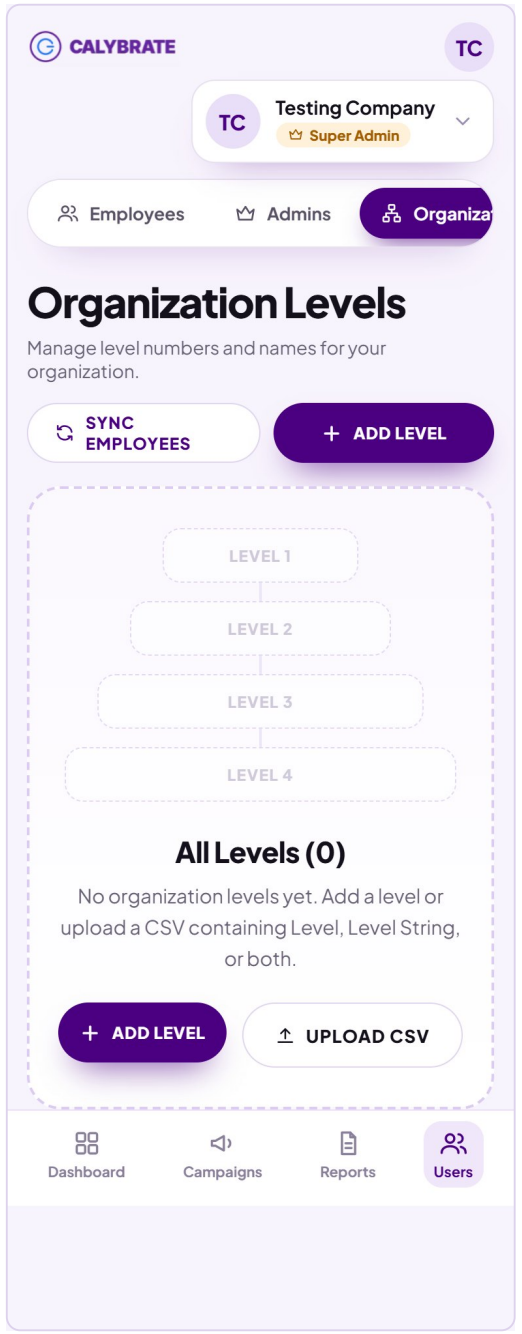
Add Level

- Invite Administrator keeps the live paragraph, label, hint and both buttons; SEND INVITATION gets a send icon.
- Add Level keeps the live text, Level Number, Level Name and Active switch. The example text is shown as a hint (e.g. 3, e.g. Middle Management).
- The delete button stays red and only appears on Admin rows.

LAPTOP



MOBILE



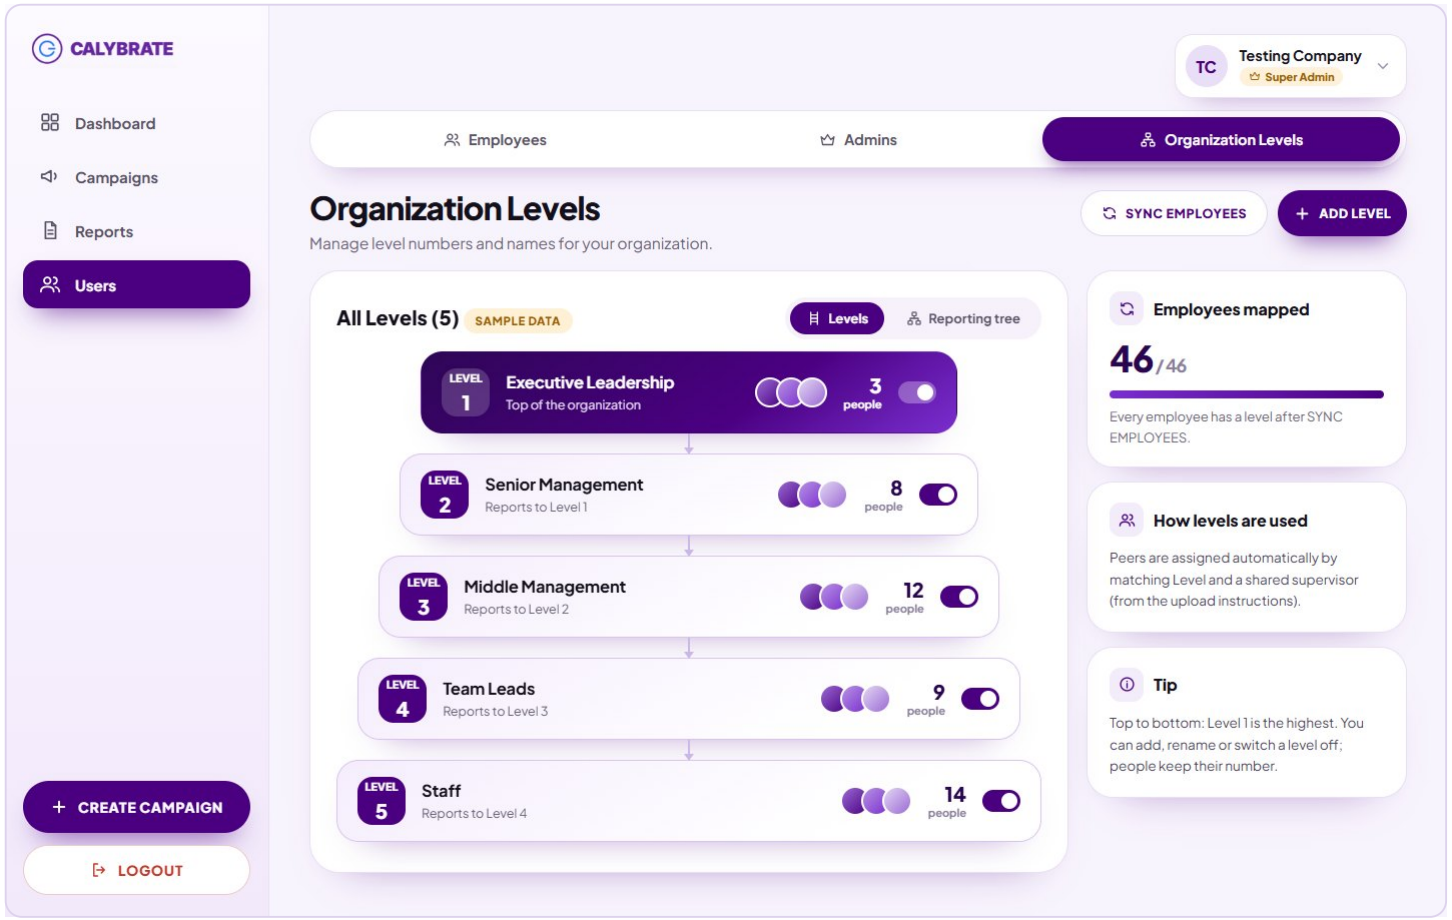
ON SCREEN

1. Ghost ladder shows the idea → 2. Live text kept → 3. ADD LEVEL or UPLOAD CSV

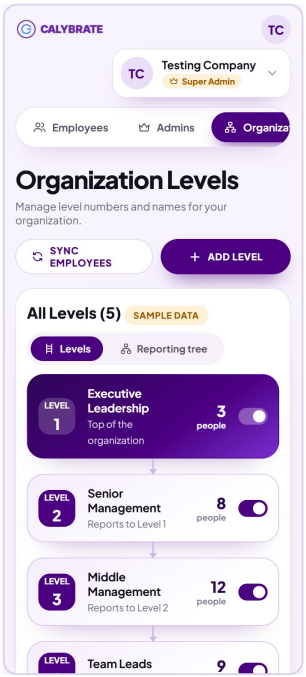
Live wording: No organization levels yet. Add a level or upload a CSV containing Level, Level String, or both. UPLOAD CSV is new.

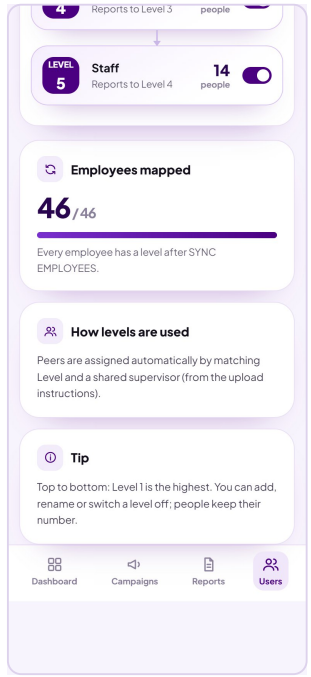
SUGGESTED

LAPTOP



MOBILE





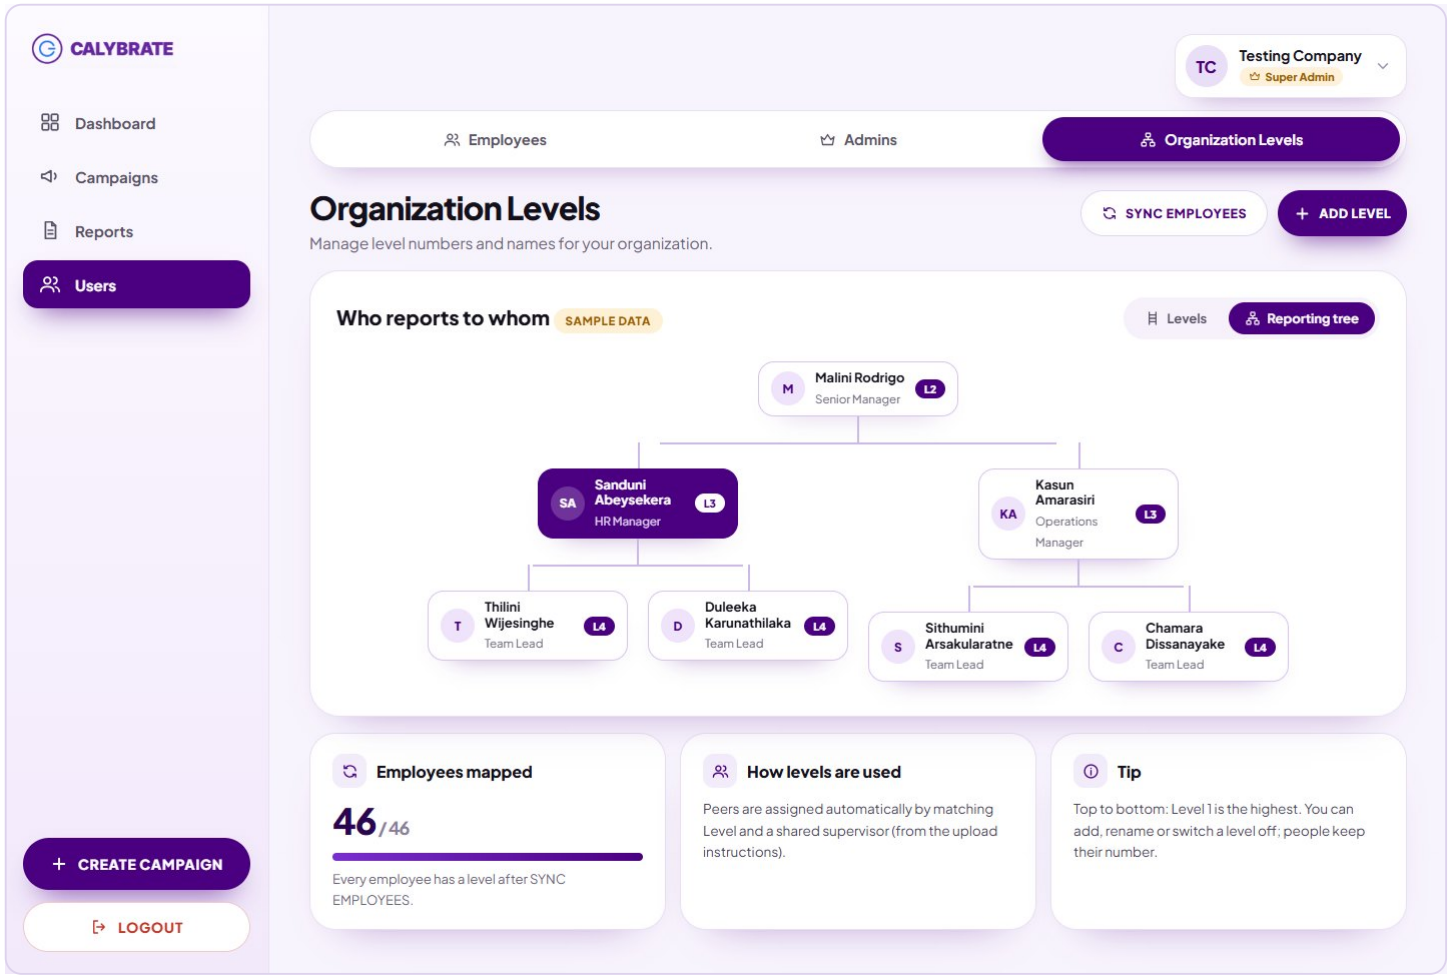
ON SCREEN

1. Level 1 at the top → 2. Each level reports to the one above → 3. Switch a level off → 4. Counts show people per level

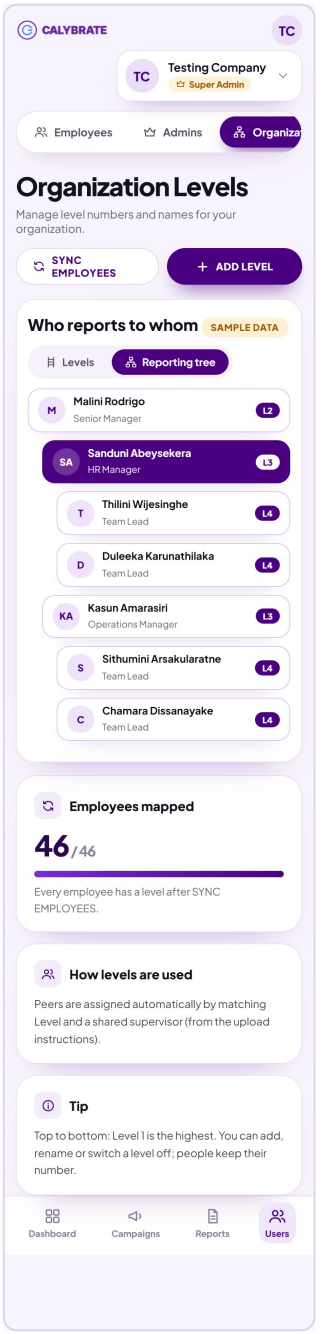
SAMPLE DATA: level names and counts are examples to show the layout.

SUGGESTED

LAPTOP



MOBILE



ON SCREEN

1. Toggle: Levels or Reporting tree → 2. Each person shows their level → 3. Lines show who reports to whom

SAMPLE DATA. On a phone the tree becomes an indented list. People are examples from the employee profile.

HIGH	**What a level does**	Peers are assigned automatically by matching Level and a shared supervisor (live bulk-upload text), and the employee forms need Level or Level String. So levels drive who reviews whom. The empty page does not say so.
HIGH	**No picture of the structure**	A table of numbers and names cannot show the hierarchy. The redesign shows Level 1 at the top and each level beneath it, with people counts, plus a reporting tree.
MED	**Number or name?**	A level can be a number, a name or both, with the mapping completed later. The ladder shows both together (LEVEL 3 and Middle Management). Decide whether Level 1 is the top (assumed here) or the bottom.
MED	**Sync**	SYNC EMPLOYEES is pale on an empty page. Say what it does (here: every employee gets a level) and when it is available.
MED	**Reporting lines**	The profile has Managers and Direct Reports, and the bulk file needs supervisors listed before employees. A reporting tree on Organization Levels makes mistakes visible early. Confirm that the tree should be on this page.
MED	**Edit Employee**	Department is a tiny empty drop-down, Level says "No active levels". Fix by loading the lists first and linking to Organization Levels.
LOW	**Admins**	The delete button appears only for the second admin. Add a tooltip and a confirmation, and decide who may remove a Super Admin.
LOW	**Roadmap**	Matches 52D (invite admin, enter email) and 52E (add employee, details, deactivate, edit relationship). 52D role choices (View only, C-suite, Client Admin, Sub Admin) are not on the invite dialog yet; the product shows only Super Admin and Admin.

NEW IN THE MOCKUPS (NOT ON THE LIVE PAGE)

The ladder and the reporting tree (both with SAMPLE DATA), the ghost ladder and UPLOAD CSV on the empty page, the status chips on the employee list, the hero card and relationships tree on the profile, and the numbered groups in the edit dialog. All other labels and wording are the live ones.

Admin

Invited by a Super Admin to manage the organization

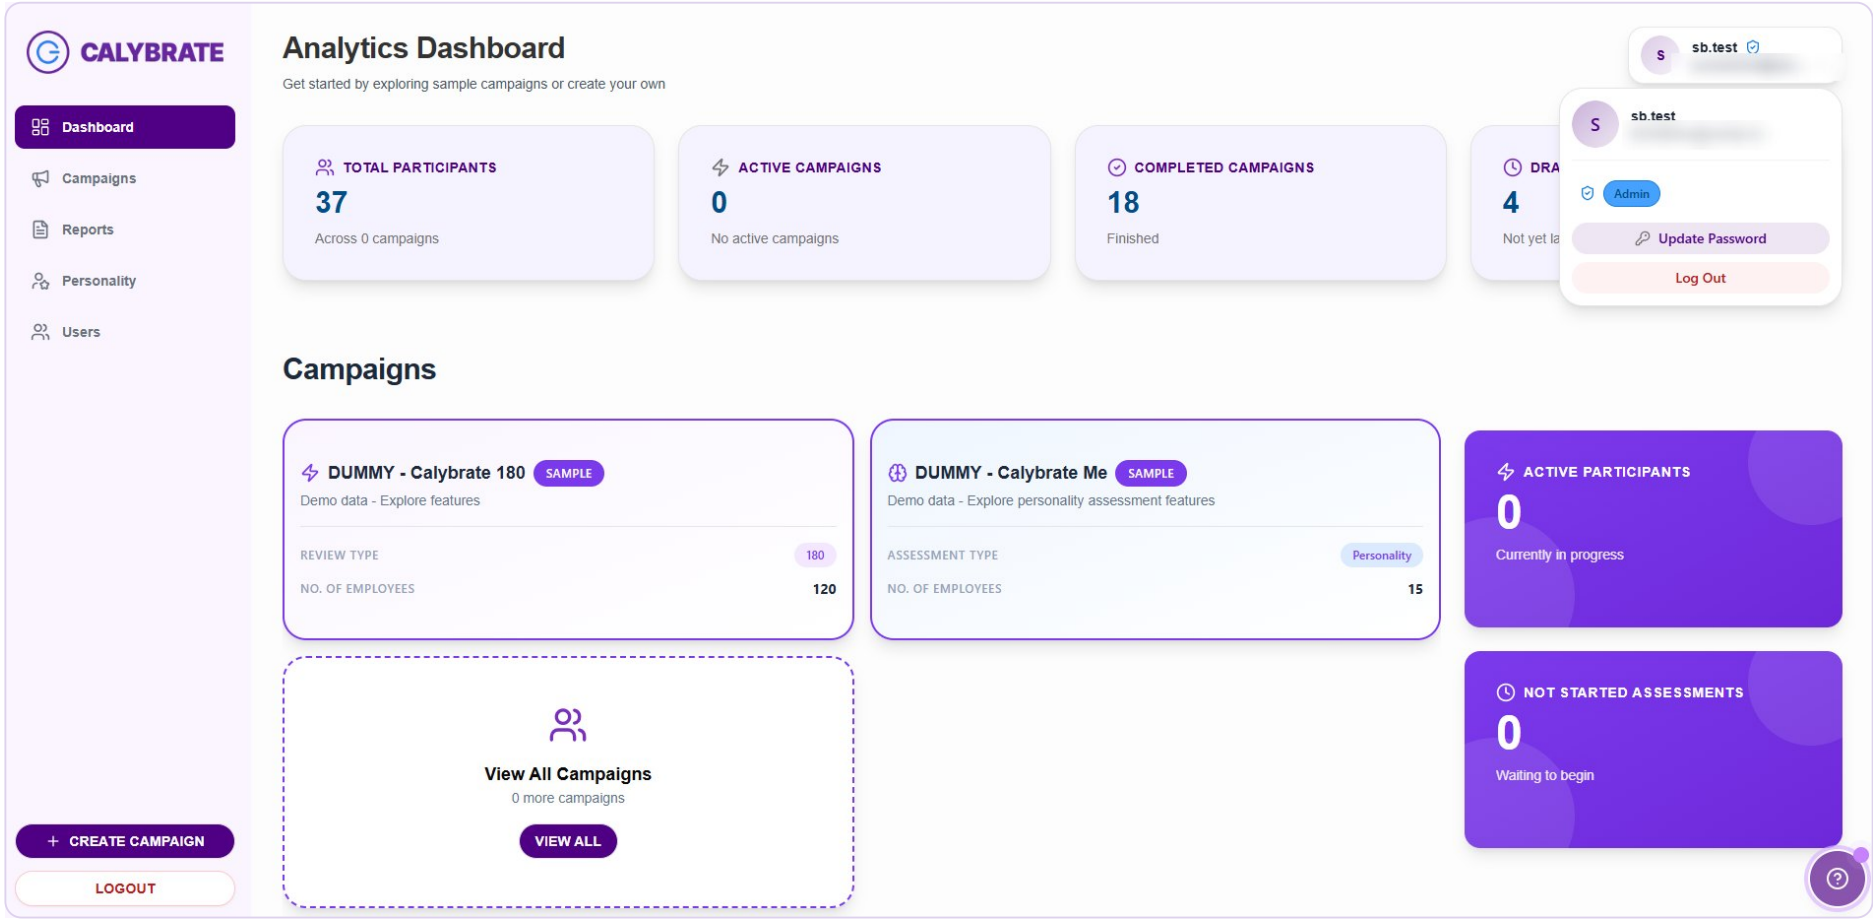
1 **Dashboard** — First login, tour guide, key metrics, campaign cards — p. 79

2 **Campaigns** — List, detail, Me results, Culture flow, Create Campaign — p. 83

3 **Reports** — Landing, 180 / 360, share panel, four Culture tabs — p. 84

4 **Users** — Employees, Organization Levels — p. 85

ADMIN



WHAT YOU SEE

- Title "Analytics Dashboard": Get started by exploring sample campaigns or create your own.
- Metric cards: Total Participants 37 (Across 0 campaigns), Active Campaigns 0, Completed Campaigns 18, Draft Campaigns 4.
- Cards DUMMY - Calybrate 180 and DUMMY - Calybrate Me (SAMPLE), View All Campaigns.
- Active Participants 0, Not Started Assessments 0.

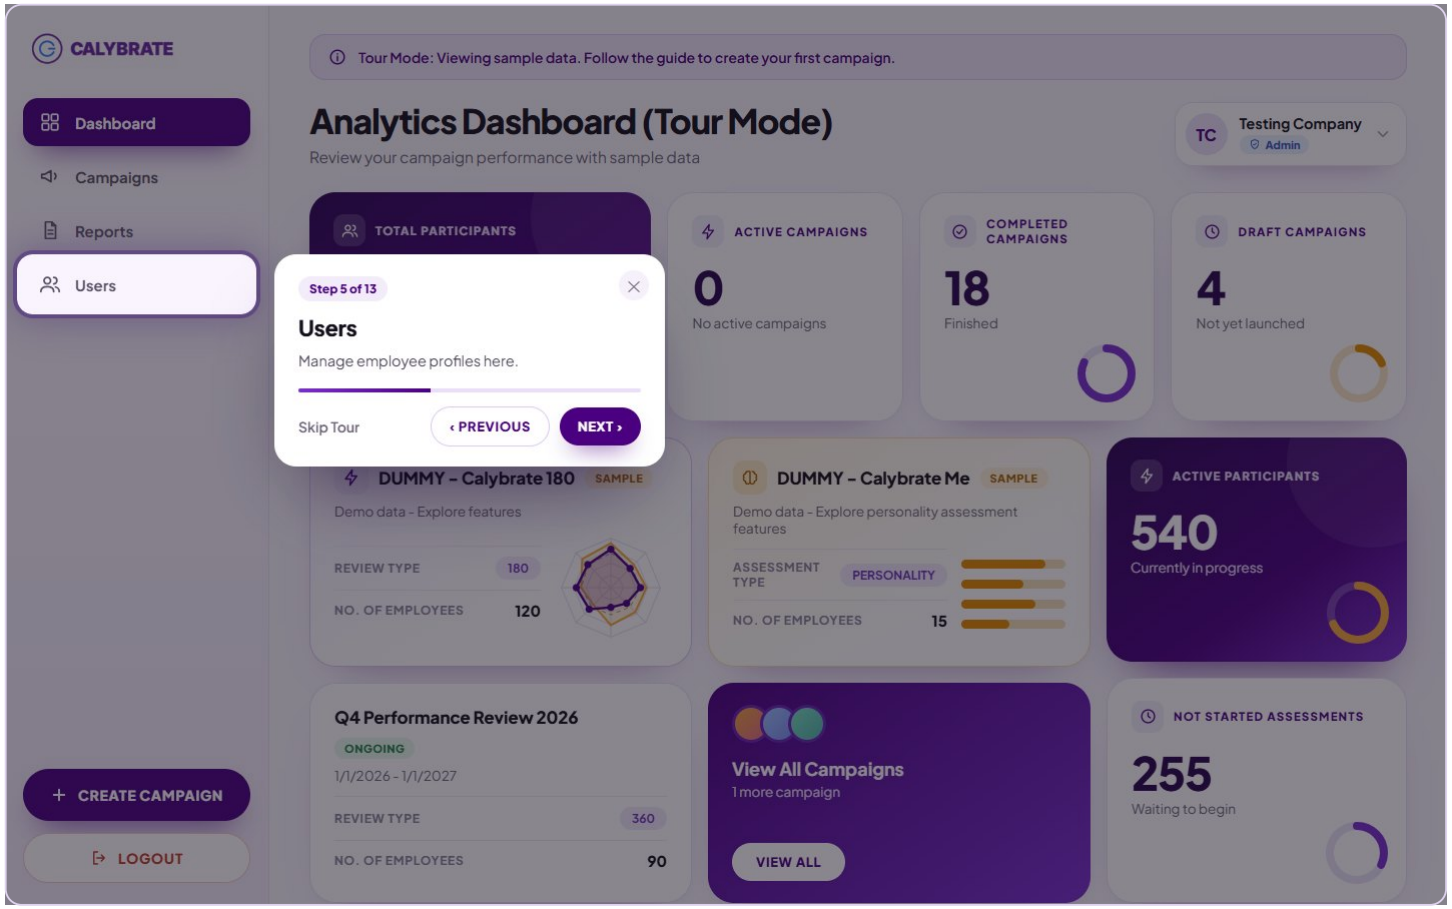
NOTES

- Profile menu is open. The role ("Admin") shows only inside the menu; next to the name there is just a shield icon.
- Numbers do not add up: 37 participants across 0 campaigns, yet 18 completed and 4 draft campaigns.
- The two sample cards stay on the dashboard after the tour is finished.
- Identical to the Super Admin dashboard apart from the role label.

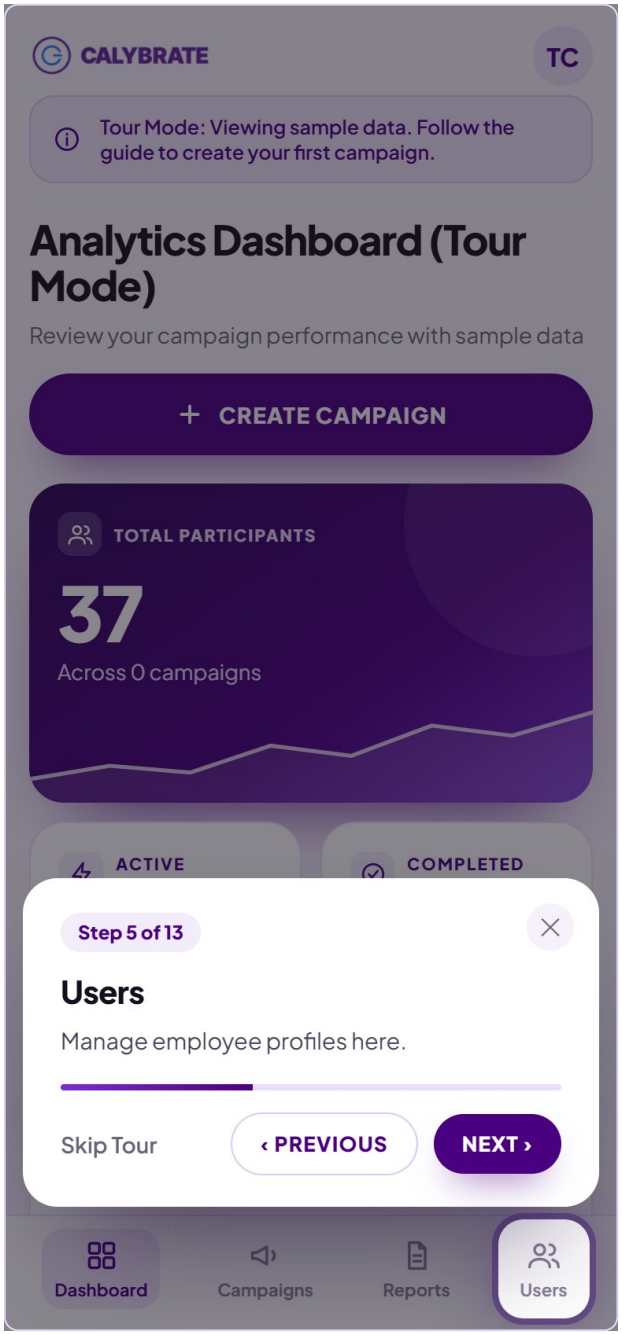
Email blurred.

SUGGESTED

LAPTOP



MOBILE

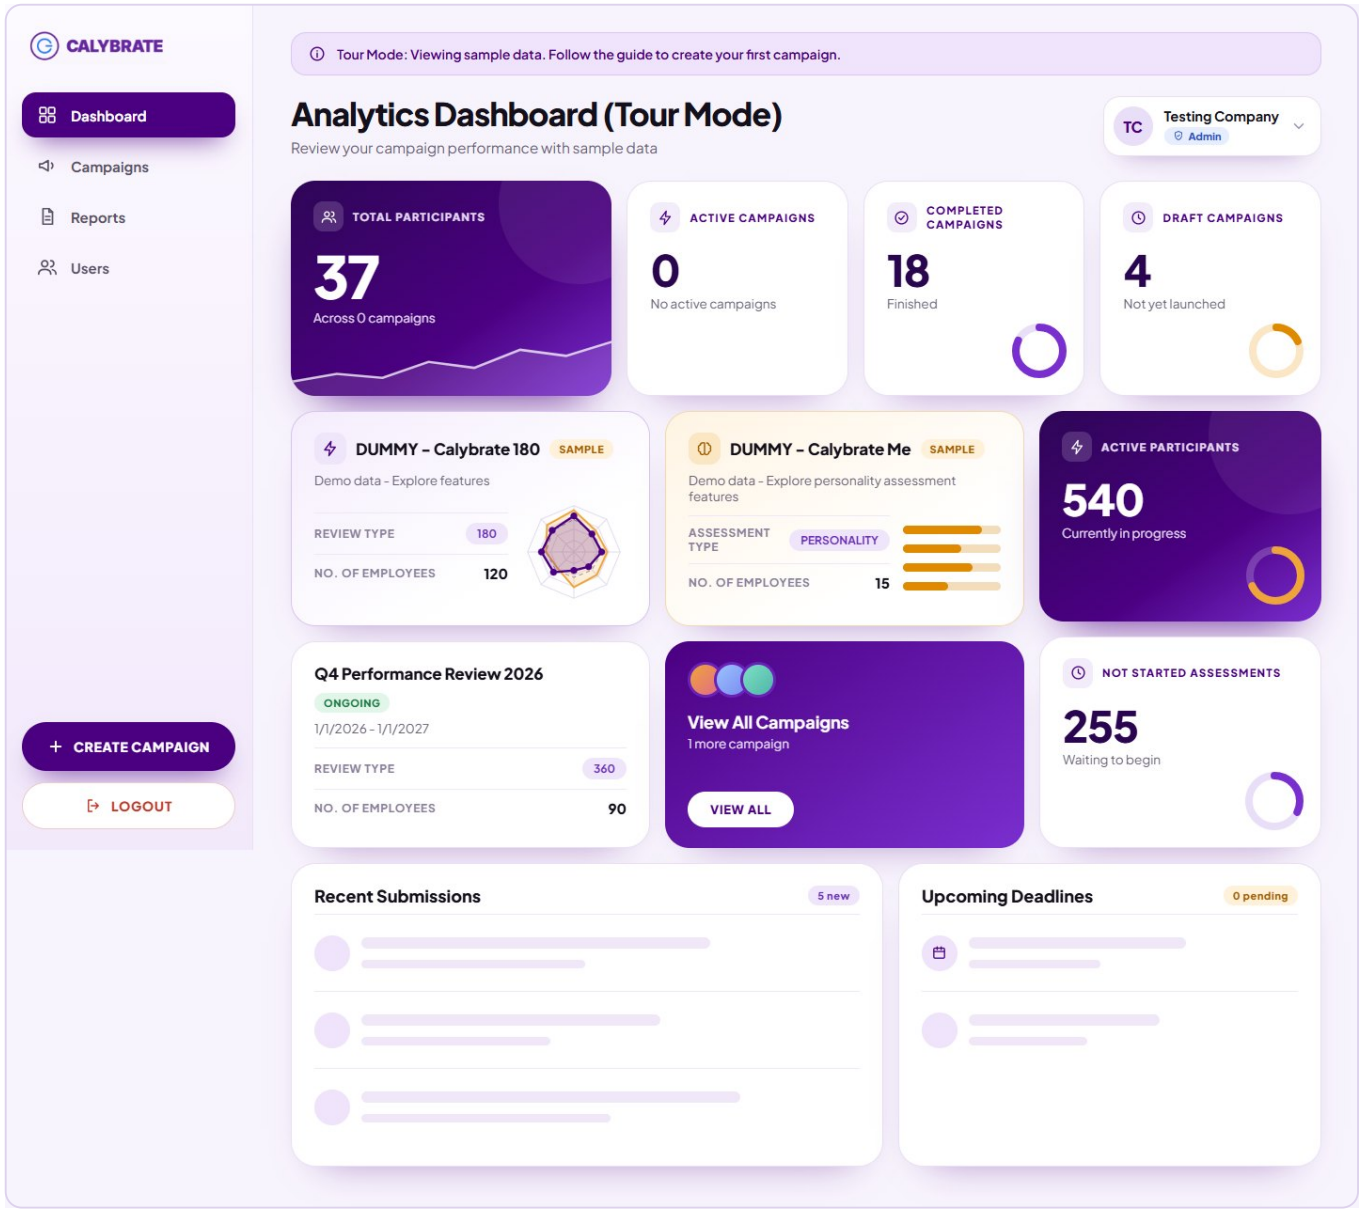


ON SCREEN

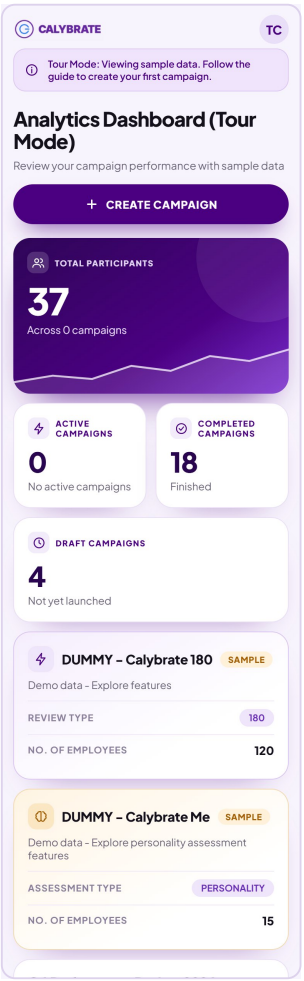
1. Admin label shows in the chip → 2. Users is highlighted → 3. Shorter text for Admins

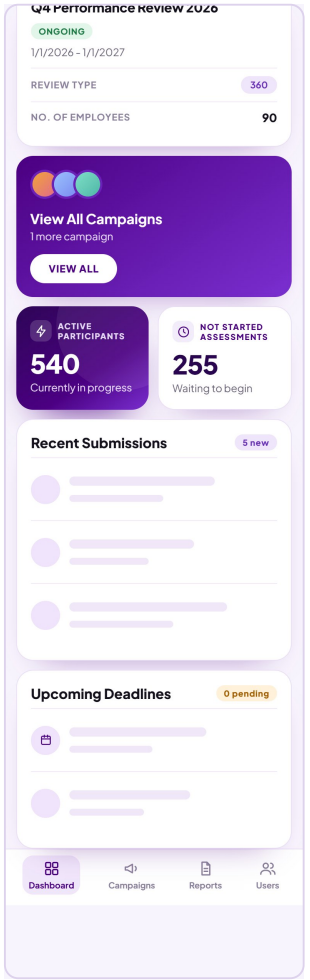
SUGGESTED

LAPTOP



MOBILE





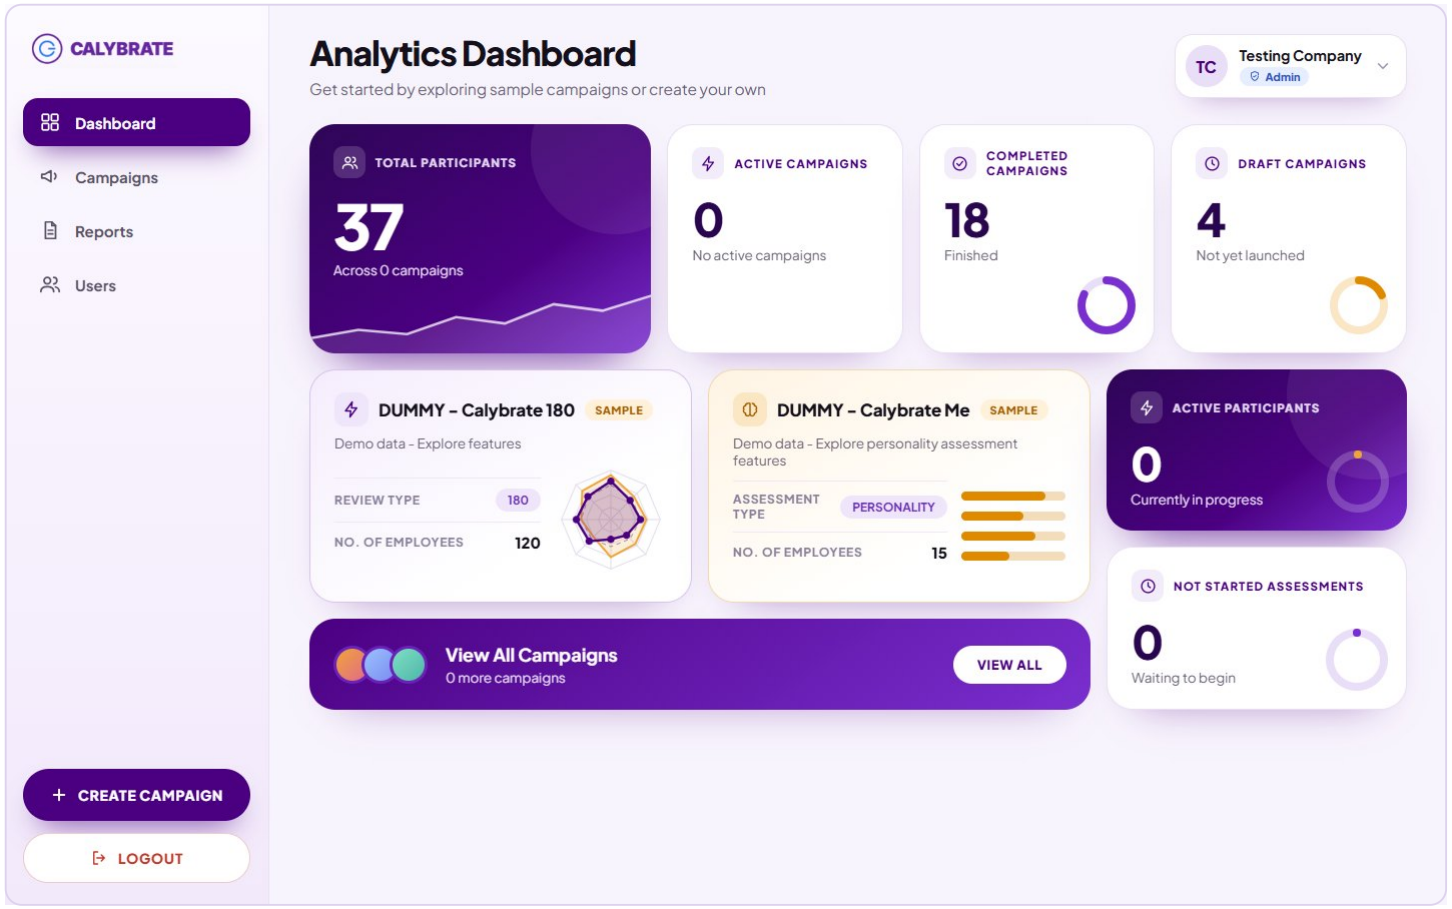
ON SCREEN

1. Tour banner at the top → 2. Bento tiles, one dark hero tile → 3. Cards stagger in, 80 ms apart → 4. Rings and sparkline draw themselves

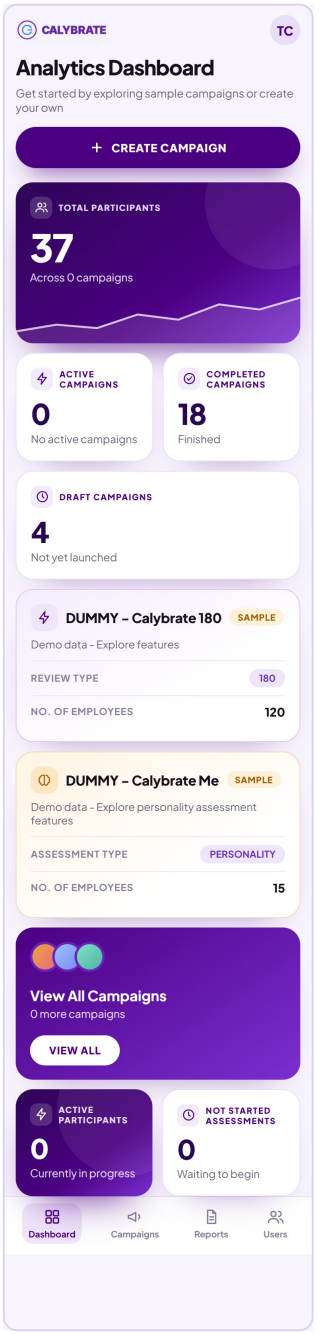
Ring charts, the sparkline, the radar and the bars are decorative. All numbers and words are the live ones.

SUGGESTED

LAPTOP



MOBILE



ON SCREEN

1. Role label in the chip → 2. Numbers count up → 3. SAMPLE tags stay → 4. Bottom bar on phones

Ring charts, the sparkline, the radar and the bars are decorative. All numbers and words are the live ones.

Same screens as the Super Admin

An Admin sees the same Campaigns pages as a Super Admin: the list, the filter, the campaign detail, Add employee (new and existing) and Send reminders. They are shown once, in the Super Admin section.

List p. 15

List: four bento cards p. 16

List: inside 360 p. 17

List: other types p. 18

Filter: current p. 19

Filter: suggested p. 20

Campaign detail: current p. 21

Campaign detail: suggested p. 22

Add employee (new): current p. 23

Add employee (new): suggested p. 24

Add employee (existing): current p. 25

Add employee (existing): suggested p. 26

Send reminders: current p. 27

Send reminders: suggested p. 28

Calybrate Me inside Campaigns p. 32

Create Campaign wizard p. 43

Create Campaign popups p. 49

Culture request flow p. 36

Findings and what changed p. 41

One difference to check: the delete button on a DRAFT row shows for an Admin as well. Confirm whether an Admin should be able to delete a campaign.

ADMIN

Same screens as the Super Admin

Reports were shown once, from a Super Admin account. An Admin is assumed to see the same pages. If an Admin sees fewer reports or cannot share them, send a screenshot and this page will be updated.

Landing: current p. 52

Landing: suggested p. 53

180 / 360: current p. 54

180 / 360: suggested p. 55

Share panel: current p. 56

Share panel: suggested p. 57

Culture overall: current p. 58

Culture overall: suggested p. 59

Multi-View: current / suggested p. 60

Six Dimensions: current / suggested p. 62

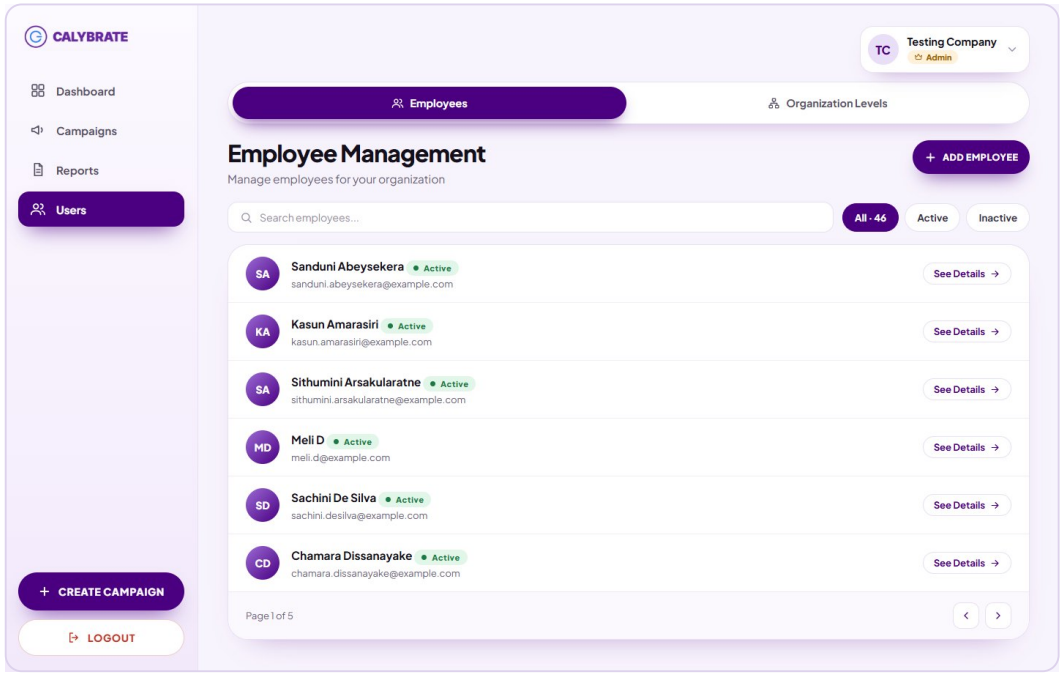
Employee Feedback: current / suggested p. 64

Findings and what changed p. 66

ADMIN

Same as the Super Admin, without the Admins tab

An Admin sees two tabs, Employees and Organization Levels. The Employees list, profile, dialogs and the levels pages are the same as the Super Admin's. Confirmed: an Admin can add, rename and switch levels on and off, sync employees, and deactivate employees, just like a Super Admin.



Employees: suggested p. 69

Employee profile p. 70

Add / edit dialogs p. 71

Organization Levels: empty p. 74

Levels top to bottom p. 75

Reporting tree p. 76

Why levels matter p. 77

Decided: Admins can edit Organization Levels and deactivate employees. Still open: may an Admin remove other Admins? They have no Admins tab, so the pages assume not.

Roadmap check | onboarding steps 16 to 24

CURRENT

16	**Welcome & Tour guide**	PRESENT	14-step tour in Tour Mode.
17	**First user?**	UNKNOWN	Cannot tell from screens how the app decides who gets the tour. Your description: Super Admin creates the organization, so they get it. Does an invited Admin get it?
20	**Demo Dashboard**	PRESENT	Tour Mode with sample data.
22-23	**Me, 180, 360, Culture samples**	PARTIAL	180 and Me always; 360 only inside the tour; no Culture sample.
21	**Console (not first user)**	PRESENT	The normal dashboard, still showing the two sample cards.
24	**Create Campaign**	PRESENT	Button in the sidebar. The campaign flow itself is next phase.
46-47	**Roles in the map**	RENAME	Map says Sub Admin, Client Admin, SB Admin. The product shows Super Admin and Admin. Decide how they map and update the roadmap.
52D	**Invite an admin**	SEEN, NOT OPENED	The Admins tab exists for Super Admin. Its contents are not covered here yet.

Order proposed for the next round

1. **Reports** the three 180 / 360 report tabs (map 52C).
2. **Users: more screens** the Employees tab states, and an Admin account screenshot to confirm the levels tab.

Each feature will get a Super Admin page and an Admin page in its own section, so the contents page stays the way in.

HELPFUL TO SEND

A first-login screenshot as an invited Admin (does the tour show?), and mobile screenshots of the current dashboard if you can take them.
